Honduras, Salvador Wage Surprise War

TEGUCIGALPA, Honduras (AP) — A new undeclared war raged in Central America today between Honduras and El Salvador, with each accusing the other of aggression. The Organization of American States ordered a peace team down from Washington.

Honduran authorities charged that Salvadorean ground forces invaded Honduras Monday at

two points, and that Salvadorean planes made widespread attacks. Unconfirmed reports said seven cities were bombed. A dispatch from Guatemala, which borders both countries, said Salvadorean officials reported some 1,000 Honduran troops had crossed the border into El Salvador. Sources in Tegucigalpa said the Honduran air force's World War II Corsairs

also crossed the frontier and ran into heavy anti-aircraft fire.

President Fidel Sanchez Hernandez of El Salvador held a three-hour emergency meeting with his cabinet, then announced he had ordered his army "to exercise the right of legitimate defense."

A government statement, broadcast from San Salvador, said the Salvadorean forces had been ordered into action after "continuous attacks by Honduran troops on the Salvadorean frontier, violation of air space and the knowledge that Honduran troops and air force personnel had mobilized in Santa Rosa de Lima for a large-scale attack."

Two Honduran towns reportedly suffered a "high" number of casualties from the Salvadorean air attacks. They were Ocotepeque, a town of about 5,000 and Santa de Copan, with 9,500 residents.

The Honduran government said Salvadorean ground troops invaded the country at Amatlillo from the south and Poy from the west. The government said Salvadorean planes dropped bombs on Honduran army and air force installations near the international airport in Tegucigalpa.

In Washington, Jorge Fidel Duron, Honduran representative to the Organization of American States, told a special OAS meeting that Salvadorean troops had penetrated 40 miles inside Honduras. He said some of the

Russell Andrews Killed Monday In Farm Mishap

A Washington Twp. farmer was accidentally killed between 10:50 a.m. and 1:52 p.m. Monday when the tractor he was operating apparently overturned, crushing him.

Russell Andrews, 61, of Route 1, Stoutsville, was found face down under a tractor behind his barn on Griest Road.

He was pronounced dead at the scene.

Deputy Kuhn reports that Andrews was apparently thrown from the tractor. There were wounds on his right forearm and under his right wrist. He also suffered head injuries.

ANDREWS told his wife he was going to grade driveways in the morning. When he failed to return home, she went to find him.

The tractor overturned behind a barn adjacent to his house, in a ravine.

He apparently was trying to tow an old car from the ravine.

Andrews first wife, Agnes Frazier Andrews, was killed May 5, 1952, when the tractor she was operating overturned on her in a field adjacent to the Andrews farm.

He was born Oct. 17, 1907 in Washington C. H., the son of William and Nellie Ward Andrews.

He was engaged in farming and was a retired bus driver having driven for the Washington Twp. School for 26 years. He was a member of the Heidelberg United Church of Christ in Stoutsville.

HE is survived by his widow, Mrs. Ruth McPherson Andrews; two stepsons, James McPherson, Derby; Robert McPherson, Route 1, Stoutsville; one stepdaughter, Mrs. Ruth Hughes, Derby; seven step-grandchildren; one brother, Leo Andrews, Washington, C. H.; one foster brother, Lucien Ward, Columbus.

Services will be 10:30 a.m. Thursday in the Heidelberg Church in Stoutsville with the Rev. Ray Bethel officiating. Burial will be in Forest Cemetery under the direction of the Defenbaugh Funeral Home.

Friends may call at the residence beginning 7 p.m. Tuesday.

Teller Sought In Embezzlement

CLEVELAND, Ohio (AP) — A young man employed as a vault teller at the main office of Society National Bank here was being sought by the FBI today on a warrant charging embezzlement and misapplication of funds.

Asst. U. S. Atty. Harry E. Pickering said the warrant was obtained Monday after the bank reported a shortage of \$215,000 in its vault operations and the teller did not report for work. He said the shortage was in cash.

The teller was identified by the FBI as Theodore John Conrad, 20, of Cleveland.

Roundtown

THE Roundtown weatherman suggests that all air conditioners should be in good working order in preparation for the predicted increase in humidity and rise in temperatures, forecast to hit the mid 90's on Wednesday. The weather picture will be altered somewhat on Thursday according to the current forecast when thundershowers join the heat and humidity.

Soviet Space Vehicle Slow, Prober Says

JODRELL BANK, England (AP) — The Soviet moonship Luna 15 is traveling at a slower speed than usual and will take longer than the usual 3 1/2 days to reach the area of the moon, the director of the astronomy station here reported today.

"There is every indication that it may be attempting something new," said Sir Bernard Lovell. He said this could be the recovery of moon rock.

Lovell spoke with newsmen after his giant radio telescope, which has been tracking Luna 15, had discovered the moonship was on a trajectory different from other unmanned Soviet moon flights.

There has been widespread speculation in Moscow that the Soviets may be attempting to steal some of the glory from the planned U.S. manned landing on the moon by bringing back some moon rock first.

Luna 15 had been expected to reach the vicinity of the moon Wednesday, but Lovell said after studying the latest signals picked up from the Soviet spacecraft that it would not reach the moon's vicinity until Thursday morning.

Lovell did not elaborate but scientists described his reasoning this way:

Luna 15 is moving more slowly toward the moon, possibly because it is heavier, from carrying new equipment for a new mission. A slower approach to the moon would save fuel needed to brake the spacecraft for landing and reserve fuel needed for returning it for the return trip.

Tossup Seen If ABM Vote Comes Soon

Critics Still Plug For Compromise On Missile Net

WASHINGTON (AP) — Sen. Winston L. Prouty's a nouncement of support for the Safeguard program has moved the administration close to Senate approval of the missile defense system—but critics still are plugging for a compromise.

Sen. George D. Aiken, like Prouty a Vermont Republican, says by giving a little ground the administration could command 60 of the 100 Senate votes rather than taking a chance on a one or two vote victory.

The latest Associated Press poll shows the Senate evenly split, 49 opposed and 49 for the antiballistic missile—ABM—program as proposed by the administration. Sen. John J. Williams, R-DeL., has not committed himself and Sen. Thomas J. McIntyre, D-N.H., now says he also is uncommitted. McIntyre had been listed as opposed to ABM because he has offered an amendment which the administration has not endorsed.

A tie vote would be broken by Vice President Spiro T. Agnew, as presiding officer of the Senate in favor of the administration.

Aiken, who has announced his opposition to the ABM proposal as it stands, suggested in an interview the administration could pick up 10 votes if any agreement could be reached on the sites for building Safeguard radars and computers—without arming them with missiles until later. The senator noted that ABM proponents have said there is no intention of installing missiles in the next three years.

Aiken conceded Democratic Leader Mike Mansfield and other hardcore ABM opponents probably wouldn't be swayed because they want any development and testing to be in the Pacific rather than at proposed missile sites in the United States.

Aiken said he thinks the proposal by McIntyre for construction of only radars and computers on the two sites in Montana and North Dakota picked by the administration needs "further refinement."

Refusing to concede that the administration can win as matters stand, Aiken said he had anticipated Prouty's support of the program.

West Virginia Voters Choose For Governor

RICHMOND, Va. (AP) — Virginia Democrats choose a nominee for governor today in an election expected to attract a record primary vote of more than 500,000.

If none of the three candidates emerges with a majority of the votes, a runoff primary will be held Aug. 19 to pick the man who will carry the party colors in November against what appears likely to be a stiff challenge from Republican A. Linwood Holton.

The three Democratic candidates are William C. Battle, former U.S. ambassador to Australia and son of former Gov. John S. Battle Sr.; Lt. Gov. Fred G. Pollard; and State Sen. Henry E. Howell Jr.

Gov. Mills E. Godwin Jr., a Democrat, is prevented by the state constitution from seeking a second consecutive four-year term.

Voting in the state's 2,031 polling places will run from 6 a.m. until 7 p.m.

Steamy Heat Wilts Much Of East U.S.

By THE ASSOCIATED PRESS
A steamy combination of heat and humidity wilted much of the eastern half of the nation today. Little early relief was indicated for northern regions sweating out their first siege of sticky weather this season, or for the South, which has sweltered for more than three weeks in temperatures in the 90s or higher.

Violent thunderstorms erupted over the Northern Plains Monday night and slapped portions of the Dakotas and Minnesota with high winds, heavy rain and hail.

Nearly 4 inches of rain poured into the Minnesota community of Halstead, midway between Fargo and Grand Forks along the North Dakota line. Almost 3 inches soaked Fargo in the pre-dawn hours.

Winds up to 80 miles an hour pounded Huron, S.D., during a heavy thunderstorm.

Turbulent weather also hit parts of the deep South late Monday. Tornadoes dipped into an area near Gulfport, Miss., and high winds lashed Grand Isle, La. Trees were uprooted in the Louisiana storm, but damage elsewhere generally was light.

Temperatures before dawn ranged from 43 at Meacham, Ore., to 94 at Phoenix.

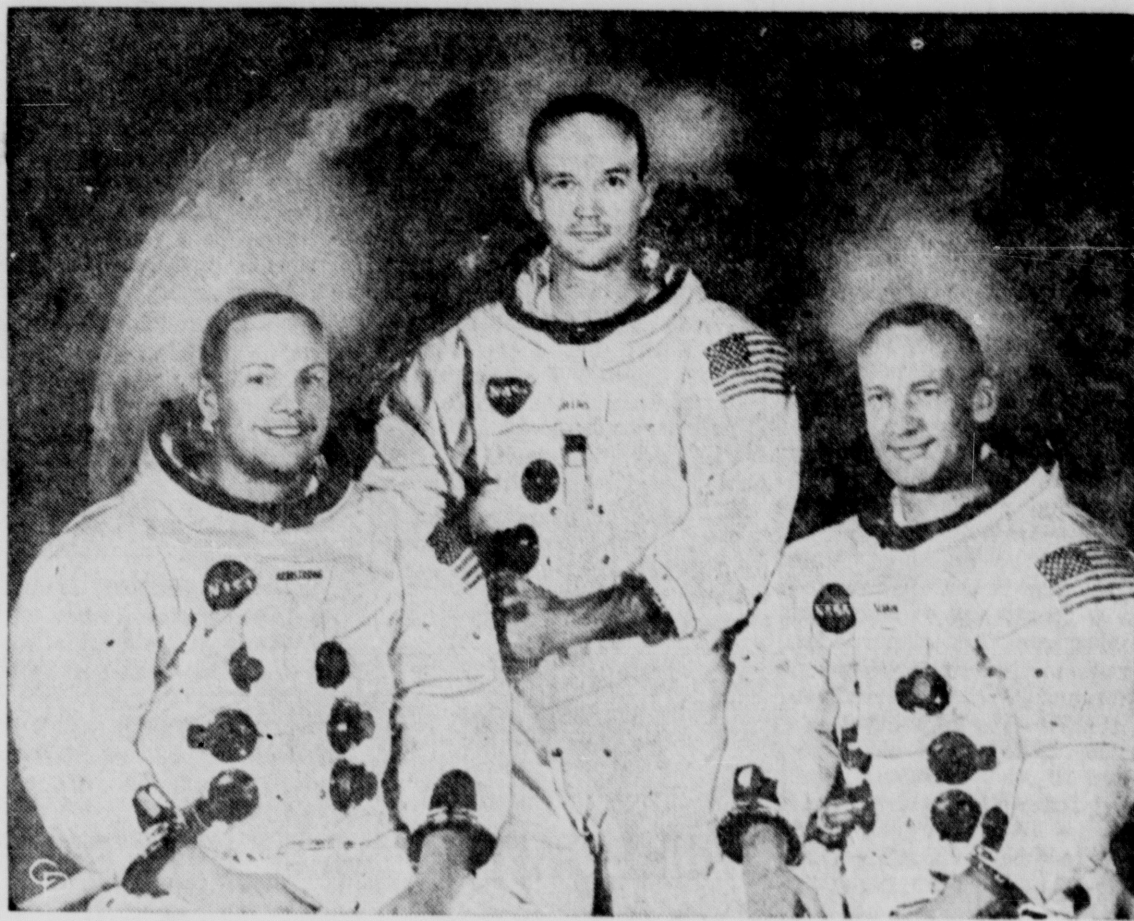

Cross-Eyed Lion Clarence Is Dead

PEORIA, Ill. (AP) — Clarence the cross-eyed lion, who starred in a 1964 movie of the same name, is dead.

Clarence also appeared in the Daktr television series. Monty Cox, trainer of the 7 1/2-year-old lion, said Clarence died Saturday of gastric disorders and blood poisoning. The lion was in Peoria to appear at a fair.

The lion was in Peoria to appear at a fair.

All Systems Are 'Go' For Apollo 11 Launch

READY FOR LAUNCH — All ready for the long-awaited Apollo 11 Moon landing mission are, from the left, Neil A. Armstrong, commander; Michael Collins, command module pilot, and Edwin E. Aldrin Jr., Lunar module pilot.

Hope For Speedy Surtax Action Killed By Senators

WASHINGTON (AP) — More than a half dozen Democratic senators have served notice they will offer a broad series of tax reform amendments to the income surtax extension bill.

The announcement appeared to apply the padlock after Democratic Leader Mike Mansfield virtually closed the door Monday on any chance for final action on the surtax extension bill before Congress starts its summer recess Aug. 13.

By proposing a series of amendments, the Democrats could launch the Finance Committee into the time-consuming area of major tax reform when its public hearings reopen next week.

The committee, after its final public hearing today on the provisions of the House-passed surtax bill, goes into executive session Thursday to discuss what to do on tax reform.

President Nixon has called for

quick Senate action on the House bill, which would extend the 10 per cent surtax for the last six months of this year, then lower the rate to 5 per cent for the first half of 1970.

Democrats seek wide changes in the surtax legislation include Edmund S. Muskie of Maine, Vance Hartke of Indiana, Fred R. Harris of Oklahoma, George McGovern of South Dakota, Lee Metcalf of Montana, William Proxmire of Wisconsin, and Philip A. Hart of Michigan.

Their proposals will cover such subjects as oil depletion, a minimum tax for the wealthy, stock options for executives, foreign earnings for executives, foreign earnings of corporations, a excess profits tax, and farm operations conducted at a loss to offset profits made elsewhere.

Mansfield said in a speech Monday the Senate Democratic

Policy Committee was standing fully by its position that meaningful tax reform must be considered simultaneously with surtax extension.

The Montana Democrat said there appeared no chance a comprehensive reform bill could clear the Finance Committee by the August congressional recess.

Man Killed, 99 Injured In Ireland

LONDON (AP) — Northern Ireland (AP) — Sporadic violence was reported in Londonderry and Belfast during the night, following large-scale rioting between Roman Catholics and Protestants during the week.

The casualty toll rose to one killed and 99 injured in the three days of violence.

Fire bombs were hurled at two buildings and a truck in Londonderry, and police used water cannon to drive roaming mobs off the streets.

Eleven civilians and a police officer were injured in several street battles.

In Belfast, the capital, a blazing wooden barricade was thrown up across Hooker Street, which separates the Catholic and Protestant communities. A house was burned to the ground in a nearby predominantly Catholic area, but the occupants were reported away on vacation.

A 70-year-old retired farmer, Francis McCloskey died Monday in the town of Dungiven of injuries suffered in a riot Sunday night.

The rioting began Saturday night after the traditional march of the Protestant Orange Order celebrating the Protestant victory over the Catholics at the Battle of the Boyne nearly 300 years ago.

The centuries-old hatred between the two factions has intensified since civil rights groups began a campaign last October to protest discrimination against Catholics in jobs, housing and voting practices.

Woman Driver Killed

LEBANON, Ohio (AP) — Vivian Fox, 24, of Middletown, was killed early today when her automobile crashed into the rear of a tractor-trailer on Interstate 75 near an interchange in Warren County. The Highway Patrol said the tractor-trailer did not stop and the driver may have been unaware his truck had been hit.

Epic Voyage Set Wednesday At 9:32 A.M.

CAPE KENNEDY, Fla. (AP) — The Apollo 11 astronauts spent the day before their trip to the moon reviewing the flight plan as servicing of their spaceship continued flawlessly and ahead of schedule for Wednesday's launch.

"We are happy to be ready to fly," said Neil A. Armstrong, the spaceship commander.

At dawn Wednesday, 2 1/2 hours before their scheduled 9:32 a.m. EDT liftoff, Armstrong, Edwin E. Aldrin Jr. and Michael Collins crawl into their capsule to begin man's most ambitious exploration.

The weather outlook was good.

"The three of us have no fear of launching out on this expedition," said Armstrong, set to become earth's first messenger on the moon. "I'm sure that American ingenuity and American craftsmanship have given us the best equipment that can be made available. We are happy to be ready to fly."

Janet Armstrong, the astronaut's wife, arrived during the night to be at the Cape when Apollo 11 vaults into the heavens. The other wives stayed home in Houston, Tex.

"I plan to sleep, lie in the sun and read the flight plan—again," said Aldrin of their pre-launch day with emphasis on the last word as the three astronauts appeared at a televised news conference Monday night.

Aldrin is scheduled to follow Armstrong down the steps of the steps of their lunar lander early next Monday. Collins remains in orbit overhead in the command ship, awaiting their return.

The astronauts, in sports clothes, were relaxed as they answered questions.

(Continued on Page 2)

Dust Danger To Astronauts Is Explained

LONDON (AP) — A former U.S. space official says there is a remote possibility that lunar dust clinging to the garments of astronauts Edwin Aldrin Jr. and Neil Armstrong could explode or ignite once they re-enter their lunar module after walking on the moon's surface.

"This is one danger that's never mentioned publicly by NASA (National Aeronautics and Space Administration) officials," Paul Haney, former director of public affairs for the American space agency, said during an interview on British television Monday night.

"Scientists think it possible that eons ago the moon dust may have contained oxygen. When exposed to the super-charged oxygen atmosphere inside the moonship, the dust may begin to glow and give off heat."

Haney, who will report the U.S. moon shot as a commentator for British television, said it is not known how effective the fire extinguishers aboard the lunar module would be if there were such trouble.

Airplane Crashes; 2 Killed, 12 Injured

NEW YORK (AP) — A New York Airways STOL craft, bound for Newark, N.J., crashed upon takeoff at Kennedy Airport today, killing the pilot and co-pilot and injuring the stewardess and 11 passengers, police said.

The short-takeoff-and-landing plane was a shuttle craft which operates among the metropolitan area's three airports—Kennedy, Newark and La Guardia.

Ohio House Passes Flood Control Measure

COLUMBUS, Ohio (AP) — The Ohio House passed Monday night legislation to help counties implement flood control and water management projects.

The action came 10 days after floodwaters caused millions of dollars of damage in northern and central Ohio.

Earlier Monday, the Senate voted to establish in Ohio the world's largest transportation research laboratory.

The flood control bill, passed 84-3, was sent back to the Senate for action on House amendments.

"This far-reaching, comprehensive proposal will greatly encourage the development of water management projects in many Ohio counties," said its sponsor, Rep. William H. Mussey, R-12 Batavia.

"It will help to provide flood protection for Ohio's farm crops and rural suburban property."

The bill creates a Division of Soil and Water Conservation in the Department of Natural Resources. It gives the department

authority to provide up to half of the nonfederal share of costs of improvements and construction of water conservation and development projects.

This means, Mussey said, that local governments would be required to pay only about 20 per cent of the total costs of such projects.

Under the bill, counties retain control of projects, while receiving more authority to appropriate funds and acquire land.

The Senate voted 27-1 and sent to the House a bill to establish a \$30 million Ohio Transportation Research Center in the Bellefontaine-Marysville area. Construction costs will be paid with bond issue funds already approved by voters.

The center, to be located on U.S. 33 in Logan and Union counties, will be used to investigate the three elements of the highway system—driver, vehicle and road.

Plans call for completion of the center by 1972. The state already has acquired 4,500 acres of land in the area and hopes to get 1,000 more.

Sen. Robert J. Corts, R-13 Elyria, the bill's main sponsor, said the center should become self-supporting within three years. He said the automotive industry has expressed interest in contracting with the center for use of testing facilities.

In other floor action in the House, a bill was passed 71-16 to require university police to complete basic peace officer training programs.

C5A Flunks Wing Stress Test Under Heavy Loading

WASHINGTON (AP) — The controversial C5A super transport has suffered what could be its first major test failure—a wing cracking under pressures 22 per cent below the contract-specified level.

The Air Force disclosed Monday the wing cracked during ground static tests of a C5A airframe minus tail assembly at the Marietta, Ga., plant of the Lockheed Georgia Co.

The impact of the break on the over-all program, and why it occurred, is being assessed by the Air Force and company engineers. Completed models will continue test flights in the meantime.

Fred L. Body To Enroll In State Classes

Fred L. Body, instructor of Agriculture at Laurelville High School, will be enrolling in the evaluation of fat beef cattle and market lambs at the Eastern Ohio Agricultural Research and Development Center, July 22, 1969, Belle Valley, Ohio; Soil Fertility and Water Management Schools, August 11-14, 1969, at Nelsonville in preparation for teaching next year.

The State Department of Education will provide inservice training for approximately 160 vocational teachers in Agricultural Education. Six workshops will be conducted to provide the latest information and skills for teachers of Vocational Agriculture to use in planning their programs for 1969-70 in the local high schools of Ohio. These workshops will be conducted at various locations in Ohio during July and August.

James E. Dougan, State Supervisor of Vocational Education in Agriculture, in announcing the inservice training program being offered stated, "This is the greatest effort we have ever made to help keep teachers up to date with the latest technical training."

The teachers, representing more than 150 Ohio high schools, will be enrolled in one of the following: Concrete Workshop, July 22, 23 and 24 at Riverdale High School, Mt. Blanchard; the evaluation of fat beef cattle and market lambs at the Eastern Ohio Agricultural Research and Development Center, July 22 at Belle Valley; Soil Fertility and Water Management Schools, August 11-14 at Nelsonville; Animal Nutrition School, August 11-14 at Springfield; Farm Electricity Workshop, July 28-30 at Bowling Green.

MARKETS

Hog prices, all net, were received by the Bowling Stock Yards Co. here today as follows:

190-220 lbs., \$26.50; 220-240 lbs., \$26.00; 240-260 lbs., \$25.50; 260-280 lbs., \$25.00; 280-300 lbs., \$24.25; 300-350 lbs., \$23.50; 350-400 lbs., \$22.25; 180-190 lbs., \$26.00; 160-180 lbs., \$24.50.

Cows: Standard and Commercial 22.50-24.60; Utility 17.50-22.50; Canners 14.50-17.50. Veal calves steady; choice and prime veals 34.00 - 39.00; choice and good 29.00 - 34.00; standard and good 23.00-29.00; utility 15.00 down. Sheep and lambs steady to 50 cents lower, strictly choice 22.50 - 29.00; good and choice 27.00 - 28.50; commercial and good 22.00 - 27.00; utility 15.00 down; slaughter sheep 8.00 down.

The C5A—world's largest air transport—has been the focus of considerable criticism in Congress because of soaring expense.

Epic Voyage

(Continued from Page 1)
Not far away, bathed in floodlights like the pampered star it is, stood the 363-foot tall Saturn 5 rocket that will propel them into the journey dreamed of perhaps since man first walked the earth.

Vice President Spiro T. Agnew and former President Lyndon B. Johnson were to be among the million persons expected at this moonport to see the launching.

In the lunar module, which is nestled beneath the command and service modules, is a disc the size of a half dollar inscribed with messages of congratulations and goodwill from 73 nations. The microdisc will be implanted in the powdery moon soil.

Russia, which sent a mystery satellite to the moon—with arrival timed nearly to coincide with America's historic launch—delivered no message. Some experts saw in their unmanned vehicle an attempt to pluck soil samples from the moon and return them before Armstrong, Aldrin and Collins can deliver theirs eight days after liftoff.

Asked if he would be disappointed if the Russians first snatched lunar dirt, Aldrin said: "I'm sure all of us would. We'd like to return with everything we set out to do on this flight."

What they set out to do was proposed by President John F. Kennedy in 1961: "I believe that this nation should commit itself to achieving the goal before this decade is out, of landing a man on the moon and returning him safely to earth."

Their precise flight plan calls for going into moon orbit at 1:26 p.m. EDT Saturday, undocking the lunar lander from the mother ship 24 hours later, and touching down on the moon at 4:19 p.m. Sunday.

But they'll have to wait before making their self-televized imprint on the moon. First they must check the systems to propel them back up to the orbiting mother ship with Collins aboard, then try to sleep for four hours. Man's first step on the moon is set for 2:17 a.m. next Monday.

Their only hope of rescue is Collins, coming overhead every two hours in the immutable laws of space travel. He has the ability, at a tremendous cost in valuable fuel, of coming down within 9 miles of the surface. "We would be prepared to go down to the absolute limit," said Collins. "It would be a decision that would be up to mission control."

Mainly About People

Tom Brannon is a surgical patient in Mt. Carmel Hospital, Columbus.

Mrs. Kenneth Thacker, New Holland, has been dismissed from Fayette Memorial Hospital, Washington C. H.

Mrs. Diane Shirey of Washington C. H., formerly of Circleville, is a medical patient in Fayette Memorial Hospital.

Mrs. Charles E. Gray who recently was a surgical patient in Bloomington Hospital has returned to her duties in the Alumni Office at Indiana University in Bloomington. The Grays formerly lived in Circleville.

Honduras . . .

(Continued from Page 1)
troops used the Pan American Highway.

The OAS ordered a peace team into the two countries at once. The team was expected in the area tonight.

The Salvadorean representative to the OAS, Julio A. Rivera, told the OAS council that the Honduran reports of Salvadorean invasion were only a "curtain of smoke" to hide "genocide" against some 15,000 Salvadoreans who have moved into neighboring Honduras.

Honduras and El Salvador have been at odds for years, mainly over border territory, but the most serious recent flareup occurred last month over the three-game series to determine which country's soccer team would participate in the World Cup matches.

There were fights between Hondurans and El Salvadoreans, both on and off the field during the first two games, after the second game Honduras broke off diplomatic relations with El Salvador.

World Cup officials then ordered the deciding game played on a neutral field in Mexico City. El Salvador won the final game, 3-2, on June 27.

Baker Is Speaker

MIDDLETOWN, Ohio (AP) — Sen. Howard H. Baker Jr., who in 1966 became the first Republican to win a senatorial seat in Tennessee by popular vote, will address a 24th Ohio District Republican rally Friday.

GOOD LUCK, NEIL — Scout Dave Harman of Troop 205 and Cub Mark Beck of Cub Pack 52 read the message that they and other local scouts have sent to astronaut Neil Armstrong and his crew aboard the Apollo 11. Armstrong visited Circleville in 1963 and spoke to the local scouts.

Scouts Send Letter To Armstrong

The Pickaway District of the Boy Scouts of America sent a 15 foot message, signed by the scouts of the community, to Astronaut Neil Armstrong wishing him and his crew a safe and prosperous trip.

More than 800 scouts and parents heard Armstrong speak in the 1963, Adventure Roundup Jamboree held at the Circleville Junior High School Gymnasium. Armstrong flew to Circleville from Houston, Texas to help the district with its recruiting program.

The astronaut was a Boy Scout for five years and obtained the rank of Eagle. He was also a member of the Order of the Arrow, a Boy Scout honor society.

Deaths

MR. HOWARD S. FOUCH
Mr. Howard S. Fouch, 63, of near Logan, was dead on arrival at Logan Hospital Monday of an apparent heart attack.

A former Pickaway County farmer, he was custodian and school bus driver at Gibsonville Elementary school in Hocking County and school bus driver for Logan Elm School.

Born July 4, 1906 in Devon, W. Va., he was the son of David and Effie George Fouch.

He is survived by his widow, Helen Hall Fouch; two sons, Doyle B. Route 4; Carle E. Route 1, Rockbridge; 10 grandchildren; one great-grandchild and a brother, James of Circleville.

Services will be 2:30 p.m. Thursday at the Hill Funeral Home, Kingston, with Rev. Leonard Ferguson officiating. Burial will be in Fairview Cemetery Mausoleum, Hocking County.

Friends may call at the funeral home beginning 6:30 p.m. today.

Viet Reds Reject Saigon Elections

PARIS (AP) — The head of the Viet Cong delegation to the Paris peace talks declared today attacks are being stepped up in South Vietnam "to oblige President Nixon to change his attitude" and if necessary the war could go on as long as 20 years.

Mrs. Nguyen Tri Binh, chief of the Viet Cong delegation, made her remarks in an interview as the North Vietnam delegation rejected the latest election proposals of President Nguyen Van Thieu of South Vietnam. The Viet Cong previously announced its rejection.

In Saigon, Vice President Nguyen Cao Ky said if the other side finally rejects Thieu's plan South Vietnam should walk out of the Paris peace talks. But he added this was his personal opinion.

In Phu Bai, Thieu told a meeting of South Vietnamese regional and popular forces he expected an increase in Viet Cong terrorism in areas that his government is trying to pacify.

Thieu proposed Friday that all political factions in South Vietnam, including the Viet Cong's National Liberation Front, join in elections held under international supervision.

South Vietnam will formally present the plan to the peace talks Thursday.

Thieu urged the Viet Cong leaders Monday to reconsider their rejection until his plan was presented formally to the Paris talks.

Mrs. Binh, in an interview with the Paris newspaper Figaro, asserted that the Americans are playing a double game, "intensifying their operations and manipulating Thieu, while in Paris they talk of peace and nonintervention."

She then remarked that the Viet Cong was stepping up its struggle in South Vietnam to force Nixon to change his attitude.

County Highway Workers To Get Wage Hike
Pickaway County highway workers will receive pay raises not later than August 1 as a result of successful negotiations between the Ohio Civil Service Employees Association representatives and Henry T. McCrady, county engineer.

In a meeting July 11 between Karl Stewart, OCSEA field services supervisor, John Farris, OCSEA field representative and McCrady, it was agreed that night watchmen would be raised from \$2 per hour to \$2.15.

Laborers would be increased from \$2.15 to \$2.30 per hour and truck drivers and labor foremen would be upped from \$2.25 to \$2.52.

The increase in differential between laborers and foremen brings the county pay standards into line with accepted labor practice, Stewart said.

Parole Violation Brings Sentence
Paul David Boysel, Circleville, has been sentenced to 1-15 years in the Mansfield Reformatory by Common Pleas Judge William Ammer for violation of parole.

Rotary Program Set
Circleville Rotary President Bob Johnson will show slides of this year's International Rotary Convention in Hawaii noon Thursday when the civic organization meets at the L-K Restaurant.

Grand Jury To Hear Bad Check Case

A Laurelville woman was bound to the Grand Jury on two counts of writing bad checks Monday by Municipal Court Judge Sterling Lamb.

Alice Hart, Route 2, Laurelville, signed two recognizance bonds of \$500 each when Judge Lamb found sufficient evidence to warrant a Grand Jury hearing.

She is charged with writing a check for \$17.96 to the Short Stop Carry-Out May 31, with a closed account.
She is also charged with writing a check for \$12.06 June 17 to John Smith, 119 E. Main St., having no account.

Both checks were written on the Salt Creek Valley Bank, Laurelville.

Stock Market Skids Again

NEW YORK (AP) — The stock market retreated over a broad front in fairly active trading early this afternoon, with brokers reporting "some potential buyers very timid and staying out of the action."

The fall "is a continuation of Monday's downturn," an analyst said, "with some of the selling coming in just because the market is going down."

The Dow Jones industrial average, which lost a total of 33.87 points last week and 9.11 more Monday, at noon was off 5.50 at 837.64.

Declining issues led advances by nearly 700.
"The concerns inhibiting some investors are basically the same ones that have been weighing on the market for some time," an analyst said. "Tight money; the possibility that corporate profits will be lower later this year; the income tax surcharge extension; and tax reform."

Steels, motors, electronics and utilities all were mostly fractionally lower. Aircrafts were off. Conglomerates mostly were lower.

"A Person Doesn't Have to Go To A Church Or Synagogue In Order To Be Religious."
Theoretically, at least, a person doesn't have to go to school in order to be knowledgeable.
One can, through agonizing effort, teach himself all the things he would easily learn through a formal education.
The same thing applies to religion.
You can believe in God without going to a church or synagogue. You can wrestle by yourself with moral rights and wrongs. You can form your own code of conduct, and attempt to give yourself spiritual uplift.
Or, you can go to the church or synagogue of your choice, where you'll be helped to find religious guidance and inspiration today that you may never find alone.

C5A Flunks Wing Stress Test Under Heavy Loading

WASHINGTON (AP) — The controversial C5A super transport has suffered what could be its first major test failure—a wing cracking under pressures 22 per cent below the contract-specified level.

The Air Force disclosed Monday the wing cracked during ground static tests of a C5A airframe minus tail assembly at the Marietta, Ga., plant of the Lockheed Georgia Co.

The impact of the break on the over-all program, and why it occurred, is being assessed by the Air Force and company engineers. Completed models will continue test flights in the meantime.

Fred L. Body To Enroll In State Classes

Fred L. Body, instructor of Agriculture of Laurelville High School, will be enrolling in the evaluation of fat beef cattle and market lambs at the Eastern Ohio Agricultural Research and Development Center, July 22, 1969, Belle Valley, Ohio; Soil Fertility and Water Management Schools, August 11-14, 1969, at Nelsonville in preparation for teaching next year.

The State Department of Education will provide inservice training for approximately 160 vocational teachers in Agricultural Education. Six workshops will be conducted to provide the latest information and skills for teachers of Vocational Agriculture to use in planning their programs for 1969-70 in the local high schools of Ohio. These workshops will be conducted at various locations in Ohio during July and August.

James E. Dougan, State Supervisor of Vocational Education in Agriculture, in announcing the inservice training program being offered stated, "This is the greatest effort we have ever made to help keep teachers up to date with the latest technical training."

The teachers, representing more than 150 Ohio high schools, will be enrolled in one of the following: Concrete Workshop, July 22, 23 and 24 at Riverdale High School, Mt. Blanchard; the evaluation of fat beef cattle and market lambs at the Eastern Ohio Agricultural Research and Development Center, July 22 at Belle Valley; Soil Fertility and Water Management Schools, August 11-14 at Nelsonville; Animal Nutrition School, August 11-14 at Springfield; Farm Electricity Workshop, July 28-30 at Bowling Green.

A former Pickaway County farmer, he was custodian and school bus driver at Gibsonville Elementary school in Hocking County and school bus driver for Logan Elm School.

Born July 4, 1906 in Devon, W. Va., he was the son of David and Effie George Fouch.

He is survived by his widow, Helen Hall Fouch; two sons, Doyle B., Route 4; Carl E., Route 1, Rockbridge; 10 grandchildren; one great-grandchild and a brother, James of Circleville.

Services will be 2:30 p.m. Thursday at the Hill Funeral Home, Kingston, with Rev. Leonard Ferguson officiating. Burial will be in Fairview Cemetery Mausoleum, Hocking County.

Friends may call at the funeral home beginning 6:30 p.m. today.

Viet Reds Reject Saigon Elections

PARIS (AP) — The head of the Viet Cong delegation to the Paris peace talks declared today attacks are being stepped up in South Vietnam "to oblige President Nixon to change his attitude" and if necessary the war could go on as long as 20 years.

Mrs. Nguyen Tri Binh, chief of the Viet Cong delegation, made her remarks in an interview as the North Vietnam delegation rejected the latest election proposals of President Nguyen Van Thieu of South Vietnam. The Viet Cong previously announced its rejection.

In Saigon, Vice President Nguyen Cao Ky said if the other side finally rejects Thieu's plan South Vietnam should walk out of the Paris peace talks. But he added this was his personal opinion.

In Phu Bai, Thieu told a meeting of South Vietnamese regional and popular forces he expected an increase in Viet Cong terrorism in areas that his government is trying to pacify.

Thieu proposed Friday that all political factions in South Vietnam, including the Viet Cong's National Liberation Front, join in elections held under international supervision.

South Vietnam will formally present the plan to the peace talks Thursday.

Thieu urged the Viet Cong leaders Monday to reconsider their rejection until his plan was presented formally to the Paris talks.

Mrs. Binh, in an interview with the Paris newspaper Figaro, asserted that the Americans are playing a double game, "intensifying their operations and manipulating Thieu, while in Paris they talk of peace and nonintervention."

She then remarked that the Viet Cong was stepping up its struggle in South Vietnam to force Nixon to change his attitude.

County Highway Workers To Get Wage Hike
Pickaway County highway workers will receive pay raises not later than August 1 as a result of successful negotiations between the Ohio Civil Service Employees Association representatives and Henry T. McCrady, county engineer.

In a meeting July 11 between Karl Stewart, OCSEA field services supervisor, John Farris, OCSEA field representative and McCrady, it was agreed that night watchmen would be raised from \$2 per hour to \$2.15.

Laborers would be increased from \$2.15 to \$2.30 per hour and truck drivers and labor foremen would be upped from \$2.25 to \$2.52.

The increase in differential between laborers and foremen brings the county pay standards into line with accepted labor practice, Stewart said.

Parole Violation Brings Sentence
Paul David Boyse, Circleville, has been sentenced to 1-15 years in the Mansfield Reformatory by Common Pleas Judge William Ammer for violation of parole.

Rotary Program Set
Circleville Rotary President Bob Johnson will show slides of this year's International Rotary Convention in Hawaii noon Thursday when the civic organization meets at the L-K Restaurant.

Police Probe Series Of Vandalism Acts
Circleville Police are investigating a series of acts of vandalism that were reported Monday.

Spark plug wires were pulled from a car owned by Charles Lagore, 107 Wilson Ave., an aerial was broken from a car owned by Harold Bowers, American Hotel, and a radiator cap and oil breather cap were taken from a car owned by Ray Davis, 120 Montclair Ave.

Harold Marshall, Route 3, reported a belt was cut on a combine stored at the Pickaway County Fairgrounds.

Michael Collins Shuns Publicity Connected With Apollo 11

The Circleville Herald
Tues. July 15, 1969 3
Circleville, Ohio

By PAUL RECER
AP Aerospace Writer
SPACE CENTER, HOUSTON (AP) — Michael Collins is delighted to be Apollo 11's command module pilot but he wishes the whole world didn't know about it.
He dreads the publicity that will follow.
"I'm not really big on parades and speeches and that sort of thing," he says. "I enjoy going where I want to go when I want to go without people following me around. I would prefer to remain anonymous."
Collins, a 38-year-old Air Force lieutenant colonel, will be the command module pilot on Apollo 11. He'll stay in a 69-mile orbit of the moon while Neil A. Armstrong and Air Force Col. Edwin E. Aldrin Jr.

fly down for man's first landing on the moon.
He feels lucky to be making this flight, or for that matter, any flight.
His flying days came very close to ending last year. Collins was named the command module pilot last year for Apollo 8. He was training to make man's first flight around the moon, but he began to notice strange things happening with his legs.
He was losing sensation in one leg. He noticed his reflexes were decaying and occasionally, inexplicably, he fell down.
Flight surgeons found the problem. A bone spur growth on a vertebrae was affecting the nerves to his legs.
Collins was removed from the crew of Apollo 8, grounded, and sent to an Air Force hospital.
"Things looked pretty dark at

the time," he recalls.
Surgeons told him they could either arrest the deterioration, or, in a more dangerous operation, cure it altogether. Collins chose the more dangerous surgery and the chance at a total cure.
The operation was a success, but he had to wear a neck brace for several weeks.
Apollo 8—the flight he was washed out of—flew around the moon last December. He was only able to watch from the sidelines, acting as the spacecraft communicator.
But in January, Collins was tapped for the big flight, Apollo 11, man's first attempt to land on the moon.
Collins, who calls himself "an Army brat," was born in Rome, Italy. His father, the late Maj. Gen. James L. Collins, was stationed there as military attache

in the U.S. Embassy.
Collins said his father "kind of talked against" his going into the military, but he decided to join anyway.
He attended St. Alban's School, an Episcopal boarding prep school in Washington, and masters there remember his determination to earn appointment to the U.S. Military Academy.
The astronaut graduated 13th in a class of 31 at St. Albans and got his West Point appointment.
He graduated from West Point in 1952 and took his commission in the Air Force.
Collins earned his wings and began flying jet fighters at a number of bases.
The pilot met a girl from Boston, Patricia M. Finnegan, while he was in France. She was a short, attractive brunette

who worked there for the U.S. Air Force.
"We had dinner together and that was kind of it," she says. She and Collins dated for a year and then married in France.
Collins was content to spend his career as a fighter pilot until the selection of the Mercury astronauts in 1959 seemed to open new horizons.
"I really had not thought too much about man in space before that," he says. "I mean it was something limited to Buck Rogers and science fiction. But when the Mercury people were picked, then I realized space was a little bit closer to us than I realized."
Collins was passed over in the second selection of spacemen, but was chosen the third time around.
His first flight was the three-

day Gemini 10 mission in July 1966 with Navy Cmdr. John W. Young. Collins twice walked in space during the highly successful mission.
Collins, who is brown-eyed, brown-haired and slightly built, is the liveliest of the Apollo 11 trio. He describes himself as "not much of a talker," but enjoys poking fun at himself or situations.
The Collins live in Nassau Bay, a group community five minutes from the Manned Spacecraft Center and the Astronaut's office. The Aldrins live just around the corner and four other astronaut houses are within view of the Collins home.
There are three Collins children, Kathleen, 10; Ann, 8; and Michael, 6. They also have a huge German shepherd dog they called, for some reason, Dubhe.

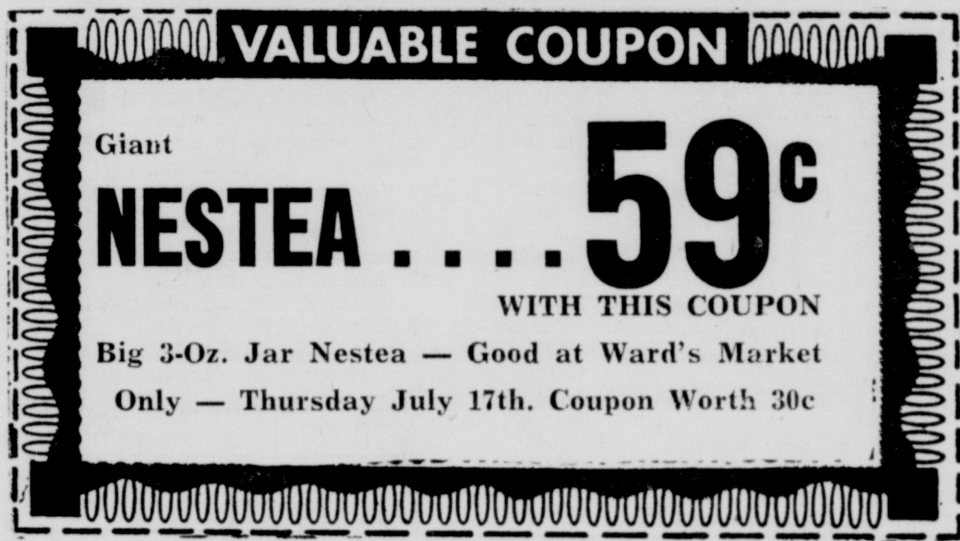

Set Prayer Service
For 3 Astronauts
COLUMBUS, Ohio (AP) — State employees will participate in an interfaith prayer service for the Apollo 11 astronauts on Wednesday morning just prior to liftoff.
Gov. James A. Rhodes said the service in the State Office Building will be led by Sen. Tennyson Guyer of Findlay, whose district includes Astronaut Neil Armstrong's home county of Auglaize.

Investigate Shooting
PAINESVILLE, Ohio (AP)—Police were holding a 37-year-old Cleveland man for investigation into the fatal shooting of Alfred Womack, 50, of Painesville on Monday.

According To Boyle

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail: Illness or disability causes the average employee to miss 5.4 days of work yearly.

How much do you spend on your pet dog? Probably about \$115 annually — unless you are one of those owners who like to splurge by ornamenting their pooches with \$25 rhinestone collars and minicoats that range

from \$150 to \$1,000. Some \$3 billion will be spent in 1969 caring for the nation's 26 million canine pets.

What are the chances that you will suffer some kind of injury this year? Slightly more than one out of four. So—take care.

Poor people are more likely than the wealthy to develop arthritis. On the other hand, people with reasonably high incomes but low education levels

are more likely to take their own lives. A recent study found suicide rates excessive among machinists, plumbers, carpenters and electricians.

Quotable notables: "I write at high speed because boredom is bad for my health. It upsets my stomach more than anything else. I also avoid green vegetables. They're grossly overrated." —Noel Coward.

Boating has become probably America's fastest growing recreation. About 42 million will take to the water in boats this summer. The number is expected to rise to 97 million by the year 2000, when it may become as hard to find a place to park a boat as it is now to park a car.

Sew sew: Last year women home sewers stitched out more than 300 million garments—an amount equal to a third of all the dresses, coats, suits, slips and blouses turned out in factories.

Worth remembering: "Never contradict your wife. Listen awhile and she'll contradict herself."

History lesson: Can you name the U.S. presidents who bore the following nicknames: "Colossus of Debate," "King Andy the 1," "Stocking foot Orator," and "Sphinx"? They were John Adams, Andrew Johnson, William McKinley, and Franklin D. Roosevelt.

It was Robert Louis Stevenson who observed, "If your morals make you dreary, depend upon it they are wrong."

WASHINGTON MEMO

By Congressman CHALMERS P. WYLIE
15th District of Ohio

"MOON STAMP"

Apollo 11 scheduled for July 16 will mark America's first mail run to the moon. An engraved master stamp die and special "Moon Letter" will accompany America's astronauts on the journey through space and their historic lunar landing.

Upon its return to earth, the die will be used to produce a special jumbo-size, 10-cent airmail postage stamp commemorating man's first landing on the moon.

The "Moon Letter" will bear a die proof of the commemorative stamp and will be hand-cancelled by moon explorers, Neil Armstrong and Edwin Aldrin, with a special postmark reading "Moon Landing U.S.A., July 20, 1969."

The "Moon Landing" commemorative stamp will be issued late in August and the inscription "First Man on the Moon" will appear across the bottom of the stamp.

Persons desiring first-day cancellations may send addressed envelopes, together with remittances to cover the cost of stamps to be affixed, to the Postmaster, Washington, D. C. 20013. A close-fitting enclosure of postal card thickness should be placed in each envelope and the flap either turned in or sealed. The outside envelope should be endorsed "First Day Covers Joe First Man on the Moon Stamp." Orders for covers must not include requests for uncanceled stamps. Collectors should bear in mind that this is an oversized stamp and covers should be addressed low and as far to the left as possible. The exact date of release of the stamp will be announced later.

CENTER FOR CULTURAL ARTS

The House passed and sent to the Senate a bill to amend the John F. Kennedy Center Act to authorize additional funds for this Center.

After debate on the bill to extend the surtax last week as an anti-inflationary measure, I thought the urgent need to cut all non-essential federal spending was clearly pointed out to all Members of the House. Many projects and programs of higher priority exist, for which any available money could be better utilized.

This Center which was started under the Eisenhower Administration as a National Cultural Center, to be financed by voluntary contributions, has snowballed into a multimillion dollar burden on the taxpayer.

The new cost estimate for completion of this Center calls for an additional \$7.5 million and as much as another \$5 million in obligatory authority. Furthermore, we have no assurances that additional future funds will not be needed. I opposed this bill and asked that it be recommended to the Committee on Public Works, and another source of financing be developed, other than public tax.

Try and Stop Me

By BENNETT CERF

THE DAY PRESIDENT HARRY TRUMAN offered the post of Secretary of State to James Byrnes, Byrnes accepted the spot, then asked if he could release the news to the press immediately.

"You can," agreed Truman, "but why the rush?"

"Because," explained Byrnes, "I want the story in the papers before Bernie Baruch calls me to tell me he got me the job."

There's a 1969 version of the small frog who piped up to a beautiful princess, "If you take me home to-night and put me next to your pillow, I'll be a handsome prince when you awaken tomorrow morning." In THIS version, the princess did—and the next morning his fellow frogs had him committed to the nearest lunatic asylum.

A department store executive assured Bill Feather that this exchange of letters actually took place:

1. The customer wrote, "Some time ago I bought six toothbrushes from you which I now would like to return for credit, since we are changing our mode of living."
2. The store exec replied, "Your request will be granted—but we would be interested in knowing how you are changing your mode of living."
3. The customer obliged with, "We are moving to a hotel."

Speaking Of Your Health

By Lester L. Coleman, M.D.

My sister and I are identical twins and we get along with each other just fine. We have our own friends and are not dependent on each other too much. The problem is that when one is sick, it seems that we both are. This has been going on since we started school and our teachers really do not believe us. Three weeks ago we met an older pair of twins who dressed alike all through school and seem to be going through life together, doing all the same things. How do you feel about this?

"The Twins," Georgia Dear Young Ladies: I know that this is only a part of your charming letter, but there is sufficient in it to interest me and my readers.

It is an absolute joy in this age of anger to hear you say that you "get along with each other just fine." This, I am sure, is not an accident, but is due to the understanding of your parents and to the fact that you are mature adolescents.

The fact that you both seem to take sick at the same time is probably unrelated to the fact that you are twins. You live in the same house, and probably in the same room, and are exposed to the same germs at home and at school. It is not uncommon for members of the same family to catch each other's illnesses. It is uncommon for teachers to disbelieve that one or more members of the same family—whether they are twins or not—can become ill at the same time. This is unreasonable.

And now about the second part of your letter. I personally believe that twins are done a great injustice when they are molded to be identical images of each other. I don't quite understand the need for dressing twins or triplets as if they were constantly on parade. Children should be allowed their own personalities and to grow and expand in all directions without being confined to the patterns set for them. A twin is a unique human being whose physical, emotional and intellectual growth must not be strangled by anyone's desire to make her a mirror of anyone else.

My husband has had X-ray treatments for a cancer of his upper thigh. I am anxious to know if these treatments can affect his fertility because they were so close to his reproductive organs.

Mrs. J. M., New York

James Byrnes

Nixon's Rumanian Gamble

By JOHN CHAMBERLAIN
WASHINGTON, D. C. — July 14 — The reaction to President Nixon's proposed stop in Rumania proves one thing: nobody, but nobody, is really privy to what goes on in the Soviet mind.

You can get any number of opinions in Washington about the wisdom of visiting Rumania. The be-nice-to Russia crowd thinks it terrible that Mr. Nixon should do a thing which might give Moscow an excuse to postpone talks on arms limitation. Senator Mike Mansfield suggests that a potentially bad situation might be retrieved if only the President would drop in at the Kremlin for a nice little talk with First Secretary Brezhnev and Premier Kosygin before or after going to Bucharest.

Some of Nixon's Rightist critics happen to agree with the detente-minded Left that the Rumanian junket could be an invitation to disaster. But, where the Left is worried lest the chances for an accommodation with the Kremlin on armaments or peace in Vietnam might be spoiled by the Bucharest visit, the Right fears that the Soviets will react to the temerity of their Rumanian satellite by sending in the tanks. This, of course, would put the Russians next door to Yugoslavia, a country which lives in fear that the "Brezhnev doctrine" was specifically evolved to deal with President Tito, who happens to have been the first to proclaim the "heresy" that every country

should be free to find its own way to socialism.

Many people in the middle, of course, think that Nixon is doing well to show his sympathy for an eastern European country which has ambitions to run its own affairs. They think that the President has pulled a fast one on the Kremlin strategists who, to their way of thinking, can hardly be anxious to repeat what happened in Czechoslovakia last August. They argue that if the Soviets were to invade Rumania, the reaction of the Communist parties in the West, particularly in Italy and France, would be disastrous to the Kremlin's hopes and plans for retrieving Communist unity.

Thus the confidence of the people in the middle that the Soviets will refrain from any drastic response to Nixon's projected Rumanian interlude.

I wouldn't pretend to have a special insight into what the Kremlin may or may not do as a result of the Nixon trip. But I am reasonably sure that if all hell breaks loose either before, during or after Nixon's appearance in Bucharest, it will be because the Russians were planning to make a move anyway. Just as the then Premier Khrushchev used the incident of the downed U-2 spy plane as an excuse to carry through with a surely predetermined decision to disrupt plans for meeting with President Eisenhower, so Brezhnev and Kosygin would be making Nixon the goat for a crackdown on Rumania and a subsequent invasion of

Yugoslavia. In other words, it doesn't make much difference whether Nixon does not go to Bucharest: like T. S. Eliot's R. M. Tum Tugger, the recalcitrant cat, the Kremlin will "do what it do do, and nothing can be done about it."

If Brezhnev and his colleagues happen to be planning some devilment to bring the blessings of the "Brezhnev doctrine" to hapless Rumania, the coincidence of Nixon's stopover in Bucharest will, of course, provide the Kremlin cynics with a marvelous opportunity for a propaganda strike. The detente-minded liberals in the West will never believe that the Communists make their own moves in response to their own presumed needs, not as a reaction to mere diplomatic provocation or to personal pique. One can imagine in advance the liberals' horrified outcries about Nixon's "blunders"; it would be the story of the post-U-2 criticism of Eisenhower all over again.

This is a calculated risk which President Nixon has apparently decided is worth the taking. If he gets away with it with nothing more than a tit-for-tat visit of Russian warships to Fidel Castro's Cuba, he will look like a farsighted diplomat. If, on the other hand, the Soviets proceed to impose their will on Rumania and move troops up to the Yugoslav border, Nixon will be blackened domestically by his dove critics, even though the Russians had been planning the crackdown all along.

Nixon Urges Action On Drug Abuse

WASHINGTON (AP) — President Nixon told Congress Monday it must act against the drug abuse problem now as "a serious national threat to the personal health and safety of millions of Americans."

Outlining the dimensions of the problem in a special message, Nixon cited an increase of nearly 800 per cent in seven years in juvenile arrests involving use of drugs.

Nixon called for new legislation, including an interim measure to correct what he called constitutional deficiencies of the marijuana tax act. It was on the basis of these that the Supreme Court struck down parts of the marijuana laws in May.

Other Nixon proposals: Development by the Justice Department of a model state narcotics and dangerous drug act.

Strengthened international cooperation to stop production of contraband drugs abroad. Most illicit narcotics and high potency marijuana consumed in this country is produced in other countries.

The stepping up of efforts to intercept illegal entry of drugs, involving more manpower for the customs bureau to combat smuggling.

Set Groundbreaking

NEW PHILADELPHIA, Ohio (AP) — Bishop Kenneth Gardner Hamilton of the Moravian Church, Gov. James A. Rhodes and author Paul Green will take part in groundbreaking ceremonies Sunday for the Outdoor Drama Association Amphitheater.

The world's smallest bird is the hummingbird, and its largest is the African Bustard. The Hummingbird, three inches long, can fly at 60 m.p.h., hover motionless and fly backwards and sideways. Its wings beat 200 times a second. The African Bustard stands 3½ feet high, weighs over 30 pounds and has an 8-foot wingspread. This species dates back over 50 million years.

You're Telling Me

By William Ritt
Central Press Writer

That 102-year-old who celebrated his birthday by doing the 100-yard dash in 17.3 seconds certainly has proven it's possible to outdistance Father Time — if you keep yourself in shape.

The centenarian's time was a second faster than he did it last year. If he keeps this up he may be good material for the Olympics of 1980.

The Argentine government decrees that Argentines cannot have more than three Christian names. It was always thus — three's a crowd.

Just after the staff of the Houghton Lake, Mich. Weather Bureau announced their prediction of a violent thunderstorm, lightning bolts struck the building and its wind tower. Getting a taste of their own medicine?

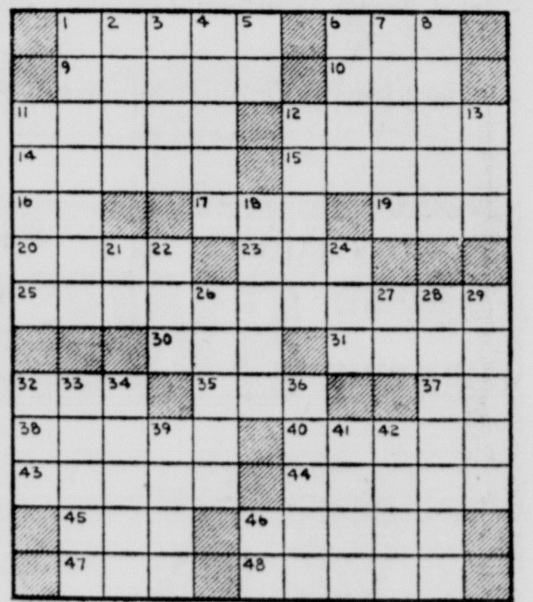

A world wide closed-circuit telecast recently showed opening ceremonies of an Australian one project. Guess we didn't miss much.

This summer's unusually large number of mosquitoes is blamed on May's and June's rainy weather. We didn't enjoy that, either.

Today In History

by THE ASSOCIATED PRESS
Today is Tuesday, July 15, the 196th day of 1969. There are 169 days left in the year.

On this date in 1918, during World War I, Americans attacked German positions at Chateau-Thierry in France. Also, the second Battle of the Marne began.

On this date—

In 1606, the Dutch painter, Rembrandt was born in Leiden.

In 1789, France's King Louis XVI was awakened at 2 a.m. and told his authority had collapsed with the fall of the Bastille in the French revolution.

In 1912, the United States won Olympic Games in Stockholm.

Sweden's King Gustav described Jim Thorpe of the American team as the most wonderful athlete in the world.

In 1948, a Democratic National Convention in Philadelphia nominated President Harry S. Truman as the party's presidential candidate.

In 1958, 3,500 U.S. Marines were ordered to Lebanon during a Middle East crisis.

In 1963, the United States, Britain and the Soviet Union opened talks in Moscow on banning nuclear tests.

Ten years ago: A strike shut off at least 85 per cent of the United States' steel production.

Five years ago: A Republican National Convention in San Francisco nominated Sen. Barry M. Goldwater of Arizona for the presidency.

One year ago: The first direct airline service between the United States and the Soviet Union was opened.

Hatlo's They'll Do It Every Time

According To Boyle

By HAL BOYLE

NEW YORK (AP) — Things a communist might never know if he didn't open his mail:

Illness or disability causes the average employee to miss 5.4 days of work yearly.

How much do you spend on your pet dog? Probably about \$115 annually — unless you are one of those owners who like to splurge by ornamenting their pooches with \$25 rhinestone collars and minkcoats that range

from \$150 to \$1,000. Some \$3 billion will be spent in 1969 caring for the nation's 26 million canine pets.

What are the chances that you will suffer some kind of injury this year? Slightly more than one out of four. So—take care.

Poor people are more likely than the wealthy to develop arthritis. On the other hand, people with reasonably high incomes but low education levels

are more likely to take their own lives. A recent study found suicide rates excessive among machinists, plumbers, carpenters and electricians.

Quotable notables: "I write at high speed because boredom is bad for my health. It upsets my stomach more than anything else. I also avoid green vegetables. They're grossly overrated."—Noel Coward.

Boating has become probably America's fastest growing recreation. About 42 million will take to the water in boats this summer. The number is expected to rise to 97 million by the year 2000, when it may become as hard to find a place to park a boat as it is now to park a car.

Sew sew: Last year women home sewers stitched out more than 300 million garments—an amount equal to a third of all the dresses, coats, suits, slips and blouses turned out in factories.

Worth remembering: "Never contradict your wife. Listen awhile and she'll contradict herself."

History lesson: Can you name the U.S. presidents who bore the following nicknames: "Colossus of Debate," "King Andy the 1," "Stocking foot Orator," and "Sphinx"? They were John Adams, Andrew Johnson, William McKinley, and Franklin D. Roosevelt.

It was Robert Louis Stevenson who observed, "If your morals make you dreary, depend upon it they are wrong."

WASHINGTON MEMO

By Congressman
CHALMERS P. WYLIE
15th District of Ohio

"MOON STAMP"

Apollo 11 scheduled for July 16 will mark America's first mail run to the moon. An engraved master stamp die and special "Moon Letter" will accompany America's astronauts on the journey through space and their historic lunar landing.

Upon its return to earth, the die will be used to produce a special jumbo-size, 10-cent airmail postage stamp commemorating man's first landing on the moon.

The "Moon Letter" will bear a die proof of the commemorative stamp and will be hand-cancelled by moon explorers, Neil Armstrong and Edwin Aldrin, with a special postmark reading "Moon Landing U.S.A., July 20, 1969."

The "Moon Landing" commemorative stamp will be issued late in August and the inscription "First Man on the Moon" will appear across the bottom of the stamp.

Persons desiring first-day cancellations may send addressed envelopes, together with remittances to cover the cost of stamps to be affixed, to the Postmaster, Washington, D. C. 20013. A close-fitting enclosure of postal card thickness should be placed in each envelope and the flap either turned in or sealed. The outside envelope should be endorsed "First Day Covers for First Man on the Moon Stamp." Orders for covers must not include requests for uncanceled stamps. Collectors should bear in mind that this is an oversized stamp and covers should be addressed low and as far to the left as possible. The exact date of release of the stamp will be announced later.

CENTER FOR CULTURAL ARTS

The House passed and sent to the Senate a bill to amend the John F. Kennedy Center Act to authorize additional funds for this Center.

After debate on the bill to extend the surtax last week as an anti-inflationary measure, I thought the urgent need to cut all non-essential federal spending was clearly pointed out to all Members of the House. Many projects and programs of higher priority exist, for which any available money could be better utilized.

This Center which was started under the Eisenhower Administration as a National Cultural Center, to be financed by voluntary contributions, has snowballed into a multimillion dollar burden on the taxpayer.

The new cost estimate for completion of this Center calls for an additional \$7.5 million and as much as another \$5 million in obligatory authority. Furthermore, we have no assurance that additional future funds will not be needed. I opposed this bill and asked that it be recommitted to the Committee on Public Works, and another source of financing be developed, other than public tax.

Try and Stop Me

By BENNETT CERF

THE DAY PRESIDENT HARRY TRUMAN offered the post of Secretary of State to James Byrnes, Byrnes accepted the spot, then asked if he could release the news to the press immediately. "You can," agreed Truman, "but why the rush?" "Because," explained Byrnes, "I want the story in the papers before Bernie Baruch calls me to tell me he got me the job."

There's a 1969 version of the small frog who piped up to a beautiful princess, "If you take me home to-night and put me next to your pillow, I'll be a handsome prince when you awaken tomorrow morning." In THIS version, the princess did—and the next morning his fellow frogs had him committed to the nearest lunatic asylum.

A department store executive assured Bill Feather that this exchange of letters actually took place:

1. The customer wrote, "Some time ago I bought six toothbrushes from you which I now would like to return for credit, since we are changing our mode of living."
2. The store exec replied, "Your request will be granted—but we would be interested in knowing how you are changing your mode of living."
3. The customer obliged with, "We are moving to a hotel."

Speaking Of Your Health

By Lester L. Coleman, M.D.

My sister and I are identical twins and we get along with each other just fine. We have our own friends and are not dependent on each other too much. The problem is that when one is sick, it seems that we both are. This has been going on since we started school and our teachers really do not believe us. Three weeks ago we met an older pair of twins who dressed alike all through school and seem to be going through life together, doing all the same things. How do you feel about this?

"The Twins," Georgia Dear Young Ladies: I know that this is only a part of your charming letter, but there is sufficient in it to interest me and my readers.

It is an absolute joy in this age of anger to hear you say that you "get along with each other just fine." This, I am sure, is not an accident, but is due to the understanding of your parents and to the fact that you are mature adolescents.

The fact that you both seem to take sick at the same time is probably unrelated to the fact that you are twins. You live in the same house, and probably in the same room, and are exposed to the same germs at home and at school. It is not uncommon for members of the same family to catch each other's illnesses. It is uncommon for teachers to disbelieve that one or more members of the same family—whether they are twins or not—can become ill at the same time. This is unreasonable.

And now about the second part of your letter. I personally believe that twins are done a great injustice when they are molded to be identical images of each other. I don't quite understand the need for dressing twins or triplets as if they were constantly on parade. Children should be allowed their own personalities and to grow and expand in all directions without being confined to the patterns set for them. A twin is a unique human being whose physical, emotional and intellectual growth must not be strangled by anyone's desire to make her a mirror of anyone else.

My husband has had X-ray treatments for a cancer of his upper thigh. I am anxious to know if these treatments can affect his fertility because they were so close to his reproductive organs.

Mrs. J. M., New York

James Byrnes

Nixon's Rumanian Gamble

By JOHN CHAMBERLAIN

WASHINGTON, D. C. — July 14 — The reaction to President Nixon's proposed stop in Rumania proves one thing: nobody, but nobody, is really privy to what goes on in the Soviet mind.

You can get any number of opinions in Washington about the wisdom of visiting Rumania. The be-nice-to-Russia crowd thinks it terrible that Mr. Nixon should do a thing which might give Moscow an excuse to postpone talks on arms limitation. Senator Mike Mansfield suggests that a potentially bad situation might be retrieved if only the President would drop in at the Kremlin for a nice little talk with First Secretary Brezhnev and Premier Kosygin before or after going to Bucharest.

Some of Nixon's Rightist critics happen to agree with the detente-minded Left that the Rumanian junket could be an invitation to disaster. But, where the Left is worried lest the chances for an accommodation with the Kremlin on armaments or peace in Vietnam might be spoiled by the Bucharest visit, the Right fears that the Soviets will react to the temerity of their Rumanian satellite by sending in the tanks. This, of course, would put the Russians next door to Yugoslavia, a country which lives in fear that the "Brezhnev doctrine" was specifically evolved to deal with President Tito, who happens to have been the first to proclaim the "heresy" that every country

should be free to find its own way to socialism.

Many people in the middle, of course, think that Nixon is doing well to show his sympathy for an eastern European country which has ambitions to run its own affairs. They think that the President has pulled a fast one on the Kremlin strategists who, to their way of thinking, can hardly be anxious to repeat what happened in Czechoslovakia last August. They argue that if the Soviets were to invade Rumania, the reaction of the Communist parties in the West, particularly in Italy and France, would be disastrous to the Kremlin's hopes and plans for retrieving Communist unity.

Thus the confidence of the people in the middle that the Soviets will refrain from any drastic response to Nixon's projected Rumanian interlude. I wouldn't pretend to any special insight into what the Kremlin may or may not do as a result of the Nixon trip. But I am reasonably sure that if all hell breaks loose either before, during or after Nixon's appearance in Bucharest, it will be because the Russians were planning to make a move anyway. Just as the then Premier Khrushchev used the incident of the downed U-2 spy plane as an excuse to carry through with a surely predetermined decision to disrupt plans for meeting with President Eisenhower, so Brezhnev and Kosygin would be making Nixon the goat for a crackdown on Rumania and a subsequent invasion of

Yugoslavia. In other words, it doesn't make much difference whether Nixon does not go to Bucharest: like T. S. Eliot's Rum Tum Tugger, the Kremlin will "do what it do do, and nothing can be done about it."

If Brezhnev and his colleagues happen to be planning some devilment to bring the blessings of the "Brezhnev doctrine" to hapless Rumania, the coincidence of Nixon's stopover in Bucharest will, of course, provide the Kremlin cynics with a marvelous opportunity for a propaganda strike. The detente-minded liberals in the West will never believe that the Communists make their own moves in response to their own presumed needs, not as a reaction to mere diplomatic provocation or to personal pique. One can imagine in advance the liberals' horrified outcries about Nixon's "blunders"; it would be the story of the post-U-2 criticism of Eisenhower all over again.

This is a calculated risk which President Nixon has apparently decided is worth the taking. If he gets away with it with nothing more than a tit-for-tat visit of Russian warships to Fidel Castro's Cuba, he will look like a farsighted diplomat. If, on the other hand, the Soviets proceed to impose their will on Rumania and move troops up to the Yugoslav border, Nixon will be blackened domestically by his dove critics, even though the Russians had been planning the crackdown all along.

Nixon Urges Action On Drug Abuse

WASHINGTON (AP) — President Nixon told Congress Monday it must act against the drug abuse problem now as "a serious national threat to the personal health and safety of millions of Americans."

Outlining the dimensions of the problem in a special message, Nixon cited an increase of nearly 800 per cent in seven years in juvenile arrests involving use of drugs.

Nixon called for new legislation, including an interim measure to correct what he called constitutional deficiencies of the marijuana tax act. It was on the basis of these that the Supreme Court struck down parts of the marijuana laws in May.

Other Nixon proposals: Development by the Justice Department of a model state narcotics and dangerous drug act.

Strengthened international cooperation to stop production of contraband drugs abroad. Most illicit narcotics and high potency marijuana consumed in this country is produced in other countries.

The stepping up of efforts to intercept illegal entry of drugs, involving more manpower for the customs bureau to combat smuggling.

Set Groundbreaking

NEW PHILADELPHIA, Ohio (AP) — Bishop Kenneth Gardner Hamilton of the Moravian Church, Gov. James A. Rhodes and author Paul Green will take part in groundbreaking ceremonies Sunday for the Outdoor Drama Association Amphitheater.

The world's smallest bird is the hummingbird, and its largest is the African Bustard. The Hummingbird, three inches long, can fly at 60 m.p.h., hover motionless and fly backwards and sideways. Its wings beat 200 times a second. The African Bustard stands 3½ feet high, weighs over 30 pounds and has an 8-foot wingspread. This species dates back over 50 million years.

You're Telling Me

By William Ritt
Central Press Writer

That 102-year-old who celebrated his birthday by doing the 100-yard dash in 17.3 seconds certainly has proven it's possible to outdistance Father Time — if you keep yourself in shape.

The centennarian's time was a second faster than he did it last year. If he keeps this up he may be good material for the Olympics of 1980.

The Argentine government decrees that Argentines cannot have more than three Christian names. It was always thus — three's a crowd.

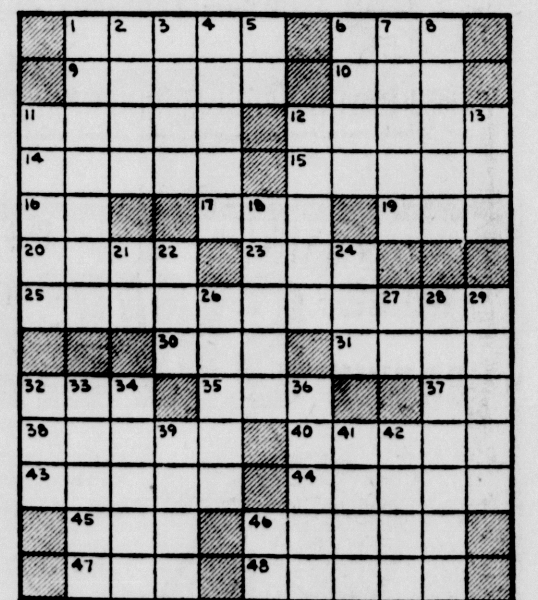

Just after the staff of the Houghton Lake, Mich. Weather Bureau announced their prediction of a violent thunderstorm, lightning bolts struck the building and its wind tower. Getting a taste of their own medicine?

A world wide closed-circuit telecast recently showed opening ceremonies of an Australian air project. Guess we didn't miss much.

This summer's unusually large number of mosquitoes is blamed on May's and June's rainy weather. We didn't enjoy that, either.

Moon Probe Legal Under International Law

By MAX HARRELSON
Associated Press Writer
UNITED NATIONS, N.Y. (AP) — Although the moon is international territory, there is no question about the legal rights of the Apollo 11 astronauts to land and explore it in the name of the United States.

The only major requirements are that it be done according to international law and for the benefit of all countries.

The 1967 space pact, which deals specifically with the moon and other celestial bodies, guarantees the free access of all countries and declares there must be complete freedom of

scientific investigation.

There is nothing in space law to prevent astronauts from displaying or planting their nation's flag. There is nothing to require them to carry any international symbol, such as the United Nations flag.

The Soviet Union, in fact, already has set a precedent by sending a Soviet hammer and sickle emblem to the moon in an unmanned capsule which made a soft landing on Feb. 3, 1966. At that time Soviet officials declared it had not claimed ownership of the area where the landing took place.

The space treaty says that

"outer space, including the moon and other celestial bodies, is not subject to national appropriation by claim of sovereignty, by means of use or occupation, or by any other means."

Not many other restrictions will apply to Astronauts Neil A.

Armstrong and Edwin E. Aldrin Jr. They must exercise care that they do not contaminate the moon or bring back substances which might have a harmful effect on the earth environment.

They must provide full information to other countries. And they must confine their activities to peaceful pursuits.

The major prohibitions in the treaty are not likely to have any

bearing on this initial landing, since they deal with the placing of nuclear weapons on the moon, the building of military fortifications and the carrying out of military maneuvers.

The Apollo 11 crew could establish any sort of facilities or installations necessary for peaceful exploration. The only limitation on such facilities is

The Circleville Herald, Tues. July 15, 1969
Circleville, Ohio

that free access be granted to astronauts of other countries.

What happens if the Apollo 11 or succeeding astronauts should discover rich deposits of precious metals or gems? The treaty contains no prohibition on bringing back moon products.

The only provision which might apply in a general way is a stipulation that all countries, exploring the celestial bodies should conduct all their activities in space "with due regard to the corresponding interests" of other parties to the treaty.

SPACE MAIL—The die for this stamp will accompany the Apollo 11 to the Moon, and the stamp will be issued in August in Washington. It will be 50 per cent larger.

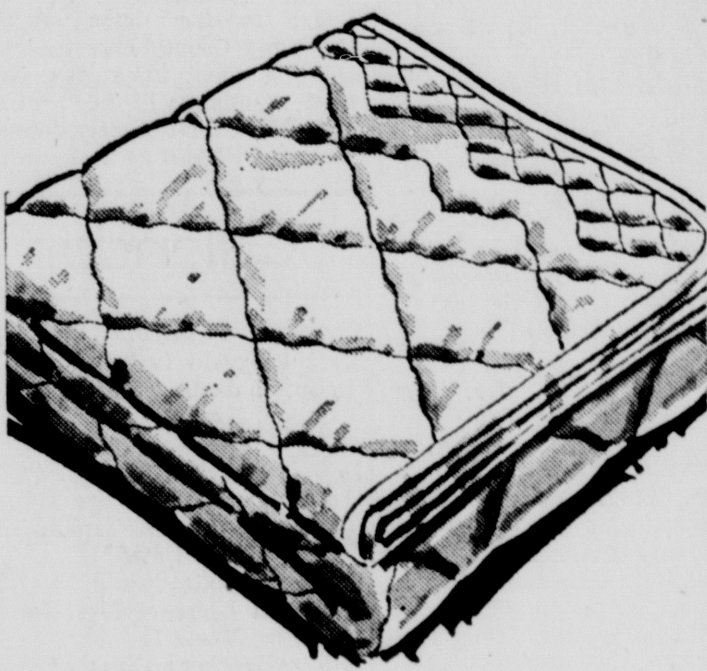

Britain's Trade Deficit Greater

LONDON (AP) — Britain again bought more abroad than it sold to foreign customers last month. By the end of June the deficit on its foreign trade books was double that in May, the Board of Trade announced today.

The deficit for June was put at 28 million pounds—\$67.2 million. The revised figure for May was 14 million pounds.

The June figures came as a disappointment after the prediction from Chancellor of the Exchequer Roy Jenkins that Britain should have a foreign trade surplus of some 300 million pounds—\$720 million—a year by next March.

Miss Judith Ann Miller Bride Of Ronald Lahrmer

MR. AND MRS. RONALD LAHRMER

The New Holland United Methodist Church was decorated with altar vases of white gladioli and Kilium daisies, candelabra, palms and pedestal baskets filled with white gladioli and daisies and pews marked with white satin bows and leather leaf for the wedding of Miss Judith Ann Miller and Ronald Lahrmer.

The bride is the daughter of Mr. and Mrs. John F. Miller Jr., Route 1, New Holland and the bridegroom is the son of Mr. and Mrs. Ernest Lahrmer, Route 2, Williamsport.

The Rev. Frank White and the Rev. Glenn Robinson presided at the double ring ceremony 2:30 p.m. June 21.

Given in marriage by her father, the bride selected for her wedding day the gown worn by her mother on the same date 22 years ago. The floor length gown of ivory marquisette over satin was styled with a round neckline edged with a Bertha collar of lace, fitted bodice and long sleeves ending in points over the hands. Covered buttons extended down the back of the bodice. Her fingertip veil of ivory net was held by a tiara of seed pearls and she carried a cascade arrangement of daisies and baby's breath centered with a white orchid corsage.

Miss Carol Orr of New Holland was maid of honor. Bridesmaids were Miss Beverly Sater of Lancaster and Miss Martha Carle of Williamsport. Junior bridesmaid was Miss Nancy Lahrmer, sister of the groom. Rhonda Salsbury of Mt. Sterling was flower girl.

The attendants were dressed alike in mint green crepe

dresses in the Victorian style with empire waists and long full sleeves. They carried fideside baskets of yellow daisies.

Jerry Southerland of Columbus served as best man. Ushers were John F. Miller III and David Miller, brothers of the bride; Phillip Lahrmer and Joe Lahrmer, brothers of the groom. Lighting the candles were Scott Lahrmer and Jerry Lahrmer, brothers of the groom.

Mrs. Miller wore a blue lace A-line gown with white accessories. Mrs. Lahrmer selected a pink knit dress with pink accessories. They both wore corsages of white sweetheart roses.

A reception in the Wardell Party Home followed the ceremony. Hostesses were Miss Debbie Salsbury and Mrs. Ronald Shipley of Mt. Sterling.

The new Mrs. Lahrmer is a graduate of Westfall High School and a senior at Ohio State University. Mr. Lahrmer graduated from Westfall High School and the Columbus Institute of Technology. He is presently a Lance Cpl. in the U.S. Marine Corps.

For a wedding trip through the south, the bride wore a yellow dress enhanced with white embroidered daisies and white accessories. She wore the orchid corsage from her wedding bouquet.

The bride will reside with the parents of the groom. The bridegroom is temporarily stationed at Camp Pendleton, Calif., and will leave soon for duty in Vietnam.

Out-of-town guests at the wedding were from Chillicothe, Columbus, Athens, Mt. Sterling and Oak Hill.

Women's Club Names New Committees

The Circleville Jr. Women's Club, a member of the Ohio Federation of Women's Clubs and the General Federation of Women's Clubs, in preparation for the coming year, has set up the following committees, Mrs. Robert Holycross, program; Mrs. Ronald Winkler, membership; Mrs. Ronald Berlin, public relations and Mrs. Robert Liggett, budget.

Mrs. Ronald Lundberg will serve as chairman of the ways and means committee with Mrs. Theodore West, Mrs. William Fischer and Mrs. Walter Wheatley; Mrs. Robert Hedges, Rita Hall, Mrs. Richard Pettit and Mrs. James Schoby, booth; Mrs. James Rae, chaplain; Mrs. Richard Gerhardt, typist; Mrs. Paul Sarchet and Mrs. Richard Theis, work of the blind; Mrs. Richard Gerhardt, legislation; Mrs. Larry Nelson, commemorative stamps; Mrs. Robert Holycross, parliamentarian; and Mrs. James Rae, project.

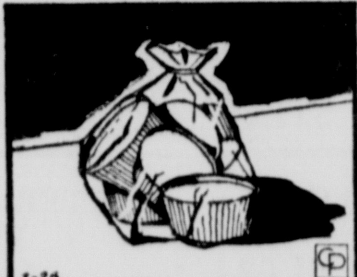

The club's departmental committees consist of Mrs. Robert Ogden, Mrs. Greg Mooney, and Mrs. Ralph Rottman, community improvement; Mrs. William Shanning and Mrs. David Chalmers, conservation; Mrs. Ronald Spence, Mrs. Wayne Hatfield and Mrs. Lynn Houerman, education; Mrs. Earl Wolfe and Mrs. John Eshelman, home life; Mrs. Charles Orr, fine arts; Mrs. Greg Mooney, international affairs; Mrs. David Schneider, public affairs, and Mrs. Robert Hedges, convention.

The September meeting will be in the home of Mrs. Robert Hedges. This will be an orientation and social meeting for new and prospective members. Members interested in bringing guests are urged to contact Mrs. Joseph L. Smith, president, before the meeting.

Personals

Capt. Joe Brian White, husband of Martha Jane (Rhoads) White and son-in-law of Mr. and Mrs. Howard C. Rhoads Sr., Route 1, was recently promoted to major in the U.S. Air Force. The Whites are in the process of moving to Richards-Gebaur Air Force Base, Kansas City, Mo., where Major White will become the hospital administrator. They were previously assigned to Hill Air Force Base, Utah.

Wife Preservers

Freeze muffins, cupcakes ready to bake in paper baking cups. Store in plastic bag when frozen.

Garden Club Program Is 'Button Gardens'

Mrs. Bernard Savey presented a demonstration on "Button Gardens" for the program of the Friday meeting of Soliqua Garden Club in the Robtown Parish Hall. Hostesses were Mrs. Cecil Ward and Mrs. Henry Hansen.

The business meeting was presided over by Mrs. Howard Koch, president. Mrs. Ward read an article entitled "Peace Like A River," followed with prayer for devotions. Mrs. Ward also paid a memorial tribute to Mrs. Harry Trump and read the poem "Resignation."

A report of the club's tour of Cincinnati gardens under the direction of Mrs. Elzie Brooks was presented by Mrs. Brooks.

Mrs. James Hott and Mrs. Charles Huston reported on the meeting of the Pickaway County Council of Garden Clubs held recently in the Good Shepherd United Methodist Church. Mrs. Charles Huston and Mrs. C. W. Hedges won several awards in the Flower Show which was part of the day's activities.

Officers named for the coming year are Mrs. Charles Huston, president; Mrs. Ralph Rinehart, vice president; Mrs. John Eitel, secretary and Mrs. Paul Stout, treasurer.

Mrs. Huston was named as a delegate to the OAGC Convention to be held at Bowling Green State University, Aug. 12, 13 and 14. She will be accompanied by Mrs. James Hott. In her demonstration Mrs. Savey explained how she assembled her button gardens, where she obtained the tiny

figurines she incorporated in the little landscapes which included madonnas, jinnikisha, ducks, geese, sheep, Japanese pagodas, pack mules, shells and many more objects which attested to the artistry of Mrs. Savey.

During the social hour a salad course was served by Mrs. Ward and Mrs. Hansen. The table was centered with an arrangement of sweet peas from the garden of Mrs. C. W. Hedges and also contained an arrangement of dahlias, a specialty of Mrs. Hedges.

Mrs. Charles Huston displayed a large zinnia and a stem of Bells of Ireland that measured 34 inches in length.

Due to the dates of the Pickaway County Fair the club will not meet in August. The next meeting will be Sept. 5 with Mrs. Charles Huston and Mrs. Boyd Hines as hostesses.

Calendar

TUESDAY
East Ringgold Ladies Aid 7:30 p.m. in home of Mrs. Ralph Calton, East Ringgold.

WEDNESDAY
Newcomers Club 8 p.m. in K of C building at the corner of Pickaway and Franklin Sts.

THURSDAY
Berger Hospital Guild 30, 7:30 p.m. in home of Mrs. David Dumm, Route 1.

Willing Workers Class of Pious United Methodist Church 1:30 p.m. in home of Mrs. Louise Glitt, 205 Sunset Drive.

Church Class Holds Picnic At Eccard Home

Sunshine Class of the Ashville Zion United Methodist Church met recently for a potluck

supper in the home of Med Eccard.

Ruth Hartley, president, sang "Count Your Blessings" and prayer was presented by Frances Grant.

The Rev. John Currens, the new minister of the church, read Psalm 121.

Attending were the Rev. and Mrs. John Currens, Ruth Hartley, Mary Costlow, Hazel

Ward, Frances Grant, Ernestine Craig, Mary Kaiser, Cecil Cook, Ruth Cline, Ruth Ann Cline, Wylma Wardell, Med Eccard and Mrs. Mary Cook, a guest for the evening.

Frances Grant won the wonder box for the evening.

The July meeting of the class will be a picnic at the home of Ernestine Craig on Plum St.

Engagement Is Announced

TERRY LEE THRASHER

Cape Area Study In Contrasts As Moon Trip Nears

By SAUL PETT
AP Special Correspondent
CAPE KENNEDY, Fla. (AP) — The kids splashed in the tepid pool at the Holiday Inn while mother read about "what to do and see" in this port of discovery, and a diaper service truck rolled through the still, hot air of a housing subdivision called "Orange Blossom Heights," which is scarcely above sea level, and a few miles away a man lay dying of cancer, and in a shop called "Marcene Modes," a lady cautiously fingered a dress, as if holding back an emotional commitment, and a gray-haired man emptied the garbage at the "Celestial Trailer Courts," and in a neat white bed another man lay in a tortured world of his delusion,

238,857 miles from the Sea of Tranquility.
Tomorrow, men will be going to the moon.
At a dock at Port Canaveral, a black, sinister-looking British submarine called the Renown waited to take on a cargo of Polaris nuclear missiles, and a few miles south a blond bronzed young god browsed, with sensual touch, through the merchandise at "Soul Surfboards," and men drank at the "Ali Bar" and "The Satellite Lounge," it being too early for the topless girls at the "Missile Lounge," and in the black ghetto of Cocoa, Fla., an old man stared wordlessly through the window of the tiny "Working Man Friend Cafe" on Magnolia

Street. Tomorrow, men will be going to the moon.
At one of the many cocktail parties up and down the beach, somebody wondered aloud why, when you have three guys named Neil, Mike and Buzz, do you need an American flag, and out in the Atlantic Ocean, a white-haired lady and her dog bathed together in the mild, tepid surf, the tide rising relentlessly in response to a force a quarter of a million miles away, and in the hot sun a retired couple carried their groceries out of a "Utotem" store and on "Satellite Beach," just south of Patrick Air Force Base, among the palm trees and the bougainvillea, the trailer boats in the driveways and the basketball backboards over the two-car gar-

rages, a woman tried not to worry about her husband in Vietnam. Tomorrow, men will be going to the moon.
At the "Wooden Nickel Saloon," a man noted that all the government people coming here represent the biggest exodus of brass from Washington since the gentlemen and their ladies rode buggies out to witness the

first Battle of Bull Run. And from the bridges over the Indian River, white men and black men fished for trout and sheephead in water partially polluted by the dredging for fill to build the space center. And a little farther west in Brevard County, which has the highest average family income in Florida (\$10,000), Mrs. Lucille Ward, a Negro lady, wondered what to fix for dinner for her family of seven, a choice usually among collard greens and neckbones, or pig tails or hog maw; with a total monthly income of \$152, the Ward family was officially included among the 7,000 ill-fed people in the county. Tomorrow, men will be going to the moon.
On the beach, an old pensioner in an outrageously floppy straw hat said Social Security convinces him this is the greatest country in the world. And at

many places, children played a game called "Last One on the Moon Is a Rotten Egg." And in the town of Cape Canaveral, among the sleep-in trucks, trailers and hearses, police arrested still another young American on a dope charge. And it was seasonably warm, 95 degrees, in this stretch of America, and the forecasts called for seasonable temperatures, ranging from 250 above to 250 below, on the moon, where men will be going tomorrow.

In many places, there were visibly happy people, swimming and water-skiing and scuba-diving and playing golf, and the visitor saw few signs that this county has one of the highest divorce rates in the nation. In an office in Cocoa, a psychiatrist said this must be understood against the fact that the average age in this area is only 26 and, like doctors and lawyers and executives, he said, space engineers and technicians have in common "intelligence, perfectionism, excessive devotion to their work and a relative inability to communicate on an emotional level with their wives." Tomorrow, men will be going to the moon.

And out at the space center itself, the monstrous Saturn 5 stood 363 feet above the flat, scrubby plain, silent and taut with tethered power. And at the outdoor museum nearby, a lady in tight pants stood before a rocket similar to the one which carried John Glenn up only seven years ago, a rocket one-quarter the size of the Saturn. "Honey," the lady shouted to her husband, "take my picture in front of this one." And in a room at the space center, Neil Armstrong, Edwin Aldrin Jr. and Mike Collins were interviewed on coast-to-coast television, sponsored locally by a buttermilk vendor, and for the 100th time in an age which defies spontaneity they were asked about their fears and the first words to be uttered on landing up there, and for the 100th time they responded with an equanimity that seems to defy other men. And tomorrow they will be going to the moon. They seem ready. Are we?

Sharks Intrude On 'Recovery'

ABOARD USS HORNET (AP) — Frogmen from the aircraft carrier Hornet, practicing for the recovery of the Apollo 11 command module when it returns to earth from its historic moon mission, were forced from the waters of the Pacific Ocean by sharks.

The frogmen were attempting to attach a flotation collar to a mockup of the spaceship when the inquisitive sharks appeared Monday. The Navy swimmers climbed into a rubber liferaft until the sharks, apparently satisfied with their inspection of man's doings, departed.

How To Hold FALSE TEETH Firmer Longer

Do your false teeth annoy and embarrass you by coming loose and dropping whenever you eat, laugh or talk? Then sprinkle FASTEETH on your plates. FASTEETH holds dentures firmer longer—holds them more comfortably, too. Makes eating easier. FASTEETH is alkaline. Won't sour. No gummy, goeey, pasty taste. Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Nugents Expect Another Baby

WASHINGTON (AP) — Mrs. Patrick J. Nugent, younger daughter of former President Lyndon B. Johnson, said Monday night she and her husband are expecting their second child in December or January.

Mrs. Nugent and her husband already are the parents of 2-year-old Patrick Lyndon. Nugent works at radio-television station KTBC in Austin, Tex., which is owned by the Johnson family. Johnson's other grandchild is Lucinda, born last October to Maj. and Mrs. Charles S. Robb.

Moon-Bound Spacemen Get Wide Variety Of Space Food

By M. KEVIN LEARY
Associated Press Writer
NATICK, Mass. (AP) — Compared with early spacemen, astronauts Michael Collins, Neil A. Armstrong and Edwin E. Aldrin Jr. will dine royally in Apollo 11 as they fly moonward this month.

Thanks to a team of food technicians at the U.S. Army Natick Laboratories—NLABS—the space menu has grown from rather bland and limited pastelike food, to far more appealing edibles.

Shrimp cocktail, a salad, beef pot roast, brownies, strawberry cubes and a cup of tea might be a typical dinner for a member of the Apollo 11 team. But that is only one of dozens of variations he may choose. Chicken and gravy, beef and vegetables, meat and spaghetti, a wide variety of sandwiches, desserts and soft drinks are also among the 52 foods approved by the National Aeronautics and Space Administration.

Sterilized, dehydrated and packaged in plastic vacuum bags, much of the food looks like a kitchen sponge. But after adding water the vegetables expand to look like vegetables and the beef and chicken dishes give off a home-cooked aroma.

It's not home cooking by a long shot, but it tastes surprisingly good. And at the prices,

it should taste good. The food budget per day for each astronaut ranges from \$150 to \$300, with every bite custom-designed to appeal to the spacemen's appetites.

Mary V. Klicka, a ration design specialist at NLABS, says the most important criteria in designing space food is that the astronauts eat and like what they consume.

On Apollo 11, hot dogs and other familiar dinners will be eaten with a spoon from an open package despite the zero gravity environment.

Familiar foods that are aesthetically pleasing, says Mrs. Klicka, are an important part of developing space foods. She says the luxury of being able to eat with a spoon gives the astronauts an extra psychological lift at meal times.

But dehydrated and freeze-dried food, compressed into bite-size squares, are the main part of the space menu. Some require the addition of water, such as the shrimp cocktail while others are reconstituted by the moisture in the astronaut's mouth, and require no preparation.

Although not as tasty and attractive as the "moist-packed" dinners eaten with a spoon, the dried food offers the same nutritional value and extra convenience.

Dirksen Gets In Hot Water Over Judy Agnew's Dresses

WASHINGTON (AP) — It seems, after all, that Vice President Spiro T. Agnew's wife doesn't pay \$600 for party dresses. Or, if she does, Sen. Everett M. Dirksen wishes he hadn't brought the matter up.

A chastened Senate Republican leader from Illinois ruefully told newsmen Monday that he has been "catching hell" because of a remark he made in advocating an increase in the vice president's salary from \$43,000 to \$62,500.

Dirksen told a news conference last week that Agnew is "hurting financially" on his current salary. He said, as an example, that Mrs. Agnew could wear fancy dresses to official parties only about three times then would have to go out and buy a new one for \$500 or \$600.

"I don't know why I ever said that," Dirksen said sadly. "I have been catching hell for it. My mail is full of letters from women who say they don't pay \$600 for a dress. I have written some of them saying that one reason is that they are not the wife of the vice president."

"Judy (Mrs. Agnew) has sort of denied she pays \$600 for a dress. I wish I hadn't said it."

Dirksen said he hopes to get action soon on the bill which would increase the pay of the vice president and House Speaker John McCormack, D-Mass. A provision of the measure would also increase the pay of Dirksen and other official party leaders in Congress from the \$42,500 received now by all members of Congress to \$55,000 annually.

Ex-Sen. Blakley Involved In Fire

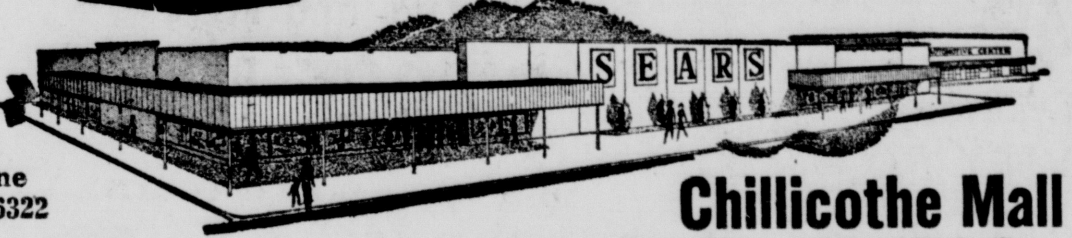

AUSTIN, Tex. (AP) — Former U.S. Sen. William A. Blakley, overcome by smoke from a burning mattress in his hotel room, was reported "doing fine" today.

Blakley, 71, was carried unconscious from the hotel room after the fire was discovered early today, given oxygen and then hospitalized. A hospital attendant said later he was "sitting up and talking—doing fine."

The eighth-floor fire forced the evacuation of some 40 guests from the Commodore Perry Hotel.

Cape Area Study In Contrasts As Moon Trip Nears

By SAUL PETT
AP Special Correspondent
CAPE KENNEDY, Fla. (AP) — The kids splashed in the tepid pool at the Holiday Inn while mother read about "what to do and see" in this port of discovery, and a diaper service truck rolled through the still, hot air of a housing subdivision called "Orange Blossom Heights," which is scarcely above sea level, and a few miles away a man lay dying of cancer, and in a shop called "Marcene Modes," a lady cautiously fingered a dress, as if holding back an emotional commitment, and a gray-haired man emptied the garbage at the "Celestial Trailer Courts," and in a neat white bed another man lay in a tortured world of his delusion.

238,857 miles from the Sea of Tranquility.
Tomorrow, men will be going to the moon.
At a dock at Port Canaveral, a black, sinister-looking British submarine called the Renown waited to take on a cargo of Polaris nuclear missiles, and a few miles south a blond bronzed young god browsed, with sensual touch, through the merchandise at "Soul Surfboards," and men drank at the "Ali Bar" and "The Satellite Lounge," it being too early for the topless girls at the "Missile Lounge," and in the black ghetto of Cocoa, Fla., an old man stared wordlessly through the window of the tiny "Working Man Friend Cafe" on Magnolia

Street. Tomorrow, men will be going to the moon.
At one of the many cocktail parties up and down the beach, somebody wondered aloud why, when you have three guys named Neil, Mike and Buzz, do you need an American flag, and out in the Atlantic Ocean, a white-haired lady and her dog bathed together in the mild, tepid surf, the tide rising relentlessly in response to a force a quarter of a million miles away, and in the hot sun a retired couple carried their groceries out of a "Totem" store and on "Satellite Beach," just south of Patrick Air Force Base, among the palm trees and the bougainvillea, the trailer boats in the driveways and the basketball backboards over the two-car ga-

rages, a woman tried not to worry about her husband in Vietnam. Tomorrow, men will be going to the moon.
At the "Wooden Nickel Saloon," a man noted that all the government people coming here represent the biggest exodus of brass from Washington since the gentlemen and their ladies rode buggies out to witness the

first Battle of Bull Run. And from the bridges over the Indian River, white men and black men fished for trout and sheephead in water partially polluted by the dredging for fill to build the space center. And a little farther west in Brevard County, which has the highest average family income in Florida (\$10,000), Mrs. Lucille Ward, a Negro lady, wondered what to fix for dinner for her family of seven, a choice usually among collard greens and neckbones, or pig tails or hog maw; with a total monthly income of \$152, the Ward family was officially included among the 7,000 ill-fed people in the county. Tomorrow, men will be going to the moon.
On the beach, an old pensioner in an outrageously floppy straw hat said Social Security convinces him this is the greatest country in the world. And at

many places, children played a game called "Last One on the Moon Is a Rotten Egg." And in the town of Cape Canaveral, among the sleep-in trucks, trailers and hearses, police arrested still another young American on a dope charge. And it was seasonably warm, 95 degrees, in this stretch of America, and the forecasts called for seasonable temperatures, ranging from 250 above to 250 below, on the moon, where men will be going tomorrow.

In many places, there were visibly happy people, swimming and water-skiing and scuba-diving and playing golf, and the visitor saw few signs that this county has one of the highest divorce rates in the nation. In an office in Cocoa, a psychiatrist said this must be understood against the fact that the average age in this area is only 26 and, like doctors and lawyers and executives, he said, space engineers and technicians have in common "intelligence, perfectionism, excessive devotion to their work and a relative inability to communicate on an emotional level with their wives." Tomorrow, men will be going to the moon.
And out at the space center itself, the monstrous Saturn 5 stood 363 feet above the flat, scrubby plain, silent and taut with tethered power. And at the outdoor museum nearby, a lady in tight pants stood before a rocket similar to the one which carried John Glenn up only seven years ago, a rocket one-quarter the size of the Saturn. "Honey," the lady shouted to her husband, "take my picture in front of this one." And in a room at the space center, Neil Armstrong, Edwin Aldrin Jr. and Mike Collins were interviewed on coast-to-coast television, sponsored locally by a buttermilk vendor, and for the 100th time in an age which defies spontaneity they were asked about their fears and the first words to be uttered on landing up there, and for the 100th time they responded with an equanimity that seems to defy other men. And tomorrow they will be going to the moon. They seem ready. Are we?

Moon-Bound Spacemen Get Wide Variety Of Space Food

By M. KEVIN LEARY
Associated Press Writer
NATICK, Mass. (AP) — Compared with early spacemen, astronauts Michael Collins, Neil A. Armstrong and Edwin E. Aldrin Jr. will dine royally in Apollo 11 as they fly moonward this month.

Thanks to a team of food technicians at the U.S. Army Natick Laboratories—NLABS—the space menu has grown from rather bland and limited pastels food, to far more appealing edibles.

Sharks Intrude On 'Recovery'

ABOARD USS HORNET (AP) — Frogmen from the aircraft carrier Hornet, practicing for the recovery of the Apollo 11 command module when it returns to earth from its historic moon mission, were forced from the waters of the Pacific Ocean by sharks.

The frogmen were attempting to attach a flotation collar to a mockup of the spaceship when the inquisitive sharks appeared Monday. The Navy swimmers climbed into a rubber liferaft until the sharks, apparently satisfied with their inspection of man's doings, departed.

How To Hold FALSE TEETH Firmer Longer

Do your false teeth annoy and embarrass you by coming loose and dropping whenever you eat, laugh or talk? Then sprinkle FASTEETH on your plates. FASTEETH holds dentures firmer longer—holds them more comfortably, too. Makes eating easier. FASTEETH is alkaline. Won't sour. No gummy, gooey, pasty taste. Dentures that fit are essential to health. See your dentist regularly. Get FASTEETH at all drug counters.

Nugents Expect Another Baby

WASHINGTON (AP) — Mrs. Patrick J. Nugent, younger daughter of former President Lyndon B. Johnson, said Monday night she and her husband are expecting their second child in December or January.

Mrs. Nugent and her husband already are the parents of 2-year-old Patrick Lyndon.

Nugent works at radio-television station KTBC in Austin, Tex., which is owned by the Johnson family.

Johnson's other grandchild is Lucinda, born last October to Maj. and Mrs. Charles S. Robb.

Views On TV - Radio

By JERRY BUCK

AP Television-Radio Writer
NEW YORK (AP)—From
countdown to splashdown, tele-
vision's cameras will accompa-
ny the Apollo 11 astronauts to the
surface of the moon and back.

Coverage plans of the historic
flight are reaching historic pro-
portions. During the critical
phases of the moon landing the
three networks will be on the air
continuously for at least 30
hours.

Two hour-long previews of the
flight will be offered tonight.
NBC's special is at 7:30-8:30
p.m. and CBS's at 10-11 p.m. All
times are Eastern Daylight.

Coverage of the liftoff, set for
9:32 a.m. Wednesday, begins in
the early morning. NBC signs
on at 6 a.m. with a special edi-
tion of the "Today" show. ABC
begins at 7 and CBS at 8 a.m.

Regular progress reports will
be aired throughout the flight by
the television and radio net-
works.

The Apollo 11 is to send back the
first of at least seven live trans-
missions for 15 minutes at 7:32
p.m. Thursday. All of the trans-
missions will be in color except
for those from the lunar module
on the moon.

On Sunday, as the lunar mod-
ule Eagle prepares to separate
from the command module Col-
umbia the networks will begin
approximately 30 hours of con-
tinuous coverage. ABC comes
on at 12 noon for 30 hours of
coverage and CBS and NBC at
11 a.m. for 31 hours.

The extended coverage, which
ends at 6 p.m. Monday, will
take the mission through the de-
scent of the Eagle, the landing,
the walk on the moon, liftoff
from the lunar surface and
docking with the Columbia.

The lunar module is scheduled
to touch down on the moon at
4:23 p.m. Sunday, but Astronaut
Neil A. Armstrong will not leave
the craft and set foot on the
moon until 2:12 a.m. the next
morning.

He is to be joined by astro-
naut Edwin E. "Buzz" Aldrin
Jr. for a 2-hour and 40-minute
exploration of the area around
the capsule. Astronaut Michael
Collins will remain aboard the
orbiting Columbia.

When Armstrong steps out of
the module, an automatic black
and white television camera in
the descent stage will be ac-
tivated to transmit pictures of
the first footsteps on the moon.

A special Trendex survey
commissioned by ABC esti-
mates that nearly 50 per cent of
the U.S. viewers will stay up for
the moon walk. In other parts of
the world it will be daylight and
hundreds of millions of people
in Europe, Africa and Asia are
expected to witness the event
by satellite television.

Armstrong is scheduled to
take the camera out of the de-
scent stage and set it on a tri-
pod 25 feet from the lunar mod-
ule for a constant view of the
astronauts working on the moon.

Obviously, during the period
of extended coverage Sunday
and Monday there will be long
hours between activities. So the
networks are lining up all kinds
of attractions, from scientific
reproductions of the moon's sur-
face to science fiction to moon-
light and romance.

Here is a sample of some of
the plans:

On CBS, former President
Lyndon B. Johnson will discuss
his role in the space program,
and Orson Welles will discuss

Putting Men On The Moon Costs Nearly \$24 Billion

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, HOUSTON
(AP)—It has taken almost \$24
billion to give Neil A. Arm-
strong a chance to walk the
moon for two hours, 40 minutes.

While he's doing it, the na-
tion's first civilian astronaut
will be earning only about \$33
for his time.

The National Aeronautics and
Space Administration has re-

ceived \$23.915 billion for space
flight since the agency was
created 10 years ago.

The money has gone for hard-
ware, salaries, construction and
training in a massive national
effort to make the first man on
the moon an American.

Armstrong, highest paid of
the flying astronauts, gets
\$27,401 a year.

Based on a 40-hour week—al-
though he usually works longer
than that—the Apollo 11 com-
mander will get \$32.92 for the

two hours 40 minutes he spends
walking the moon. If he had to
pay for the space suit he'll be
wearing, it would cost him al-
most 12 years' salary. The com-
plete lunar surface outfit cost
about \$300,000. The two other
Apollo 11 crewmen are Air
Force officers. They get only
what flying officers of their
rank would receive in any other
job.

Edwin E. Aldrin Jr., an Air
Force colonel, receives \$18,
622.56 a year, including base

pay, quarters and subsistence
allowance, and flight pay.

Air Force Lt. Col. Michael
Collins gets \$17,147.76 a year,
including the fringe benefits.

Apollo 11 itself is costing
NASA \$350 million. This in-
cludes \$55 million for the com-

mand module; \$41 million for
the lunar module and \$185 mil-
lion for the Saturn 5 launch
booster. It will cost \$69 million
for mission support, the most
spent yet for personnel, fuel and
other earthbound expenses.
Putting men on the moon has

8 The Circleville Herald, Tues. July 15, 1969
Circleville, Ohio

been expensive in another way, have lost their lives since the
too. space program began 10 years
ago. Eight American astronauts

How Weather Looks Today

OHIO WEATHER SUMMARY

COLUMBUS, Ohio (AP)—Of-
ficial Weather Bureau summary
for Ohio:

Weather conditions have been
slow to change over Ohio.

A weak but sluggish high pres-
sure system moved slowly over
the state Monday and this morn-
ing it was centered over Penn-
sylvania. This high is expected
to continue its slow eastward
drift into the Atlantic Wednes-
day.

Winds will become southerly
following the high, bringing
warmer air and increasing humi-
dity northward from the Gulf
of Mexico. Temperatures will
climb into the upper 80s in
northern Ohio and into the low
90s elsewhere in the state this
afternoon and by Wednesday
afternoon the mercury will top
the 90 degree mark throughout
the state.

Skies were clear Monday
night except for the river val-
leys in the southeastern coun-
ties where extensive fog was
reported this morning.

At daybreak temperature
readings were in the 60s in most
sections with a low reading of
58 degrees at Youngstown.

FORECASTS

OHIO — Fair, warmer and
more humid tonight and Wed-
nesday. Lows tonight in the up-
per 60s and low 70s.

NORTHWEST, NORTHEAST
EAST CENTRAL OHIO—Fair,
warmer and more humid ton-
ight and Wednesday. Lows to-
night in the upper 60s. Highs
Wednesday in the low 90s.

SOUTHWEST, CENTRAL
SOUTHEAST OHIO — Fair,
warm and more humid ton-
ight and Wednesday. Lows ton-
ight in the low 70s. Highs Wed-
nesday in the 90s.

LAKE ERIE—Variable most-
ly southerly winds 8-15 knots to-
night. Fair.

The relevance of science fiction.

Duke Ellington is composing a
piece of original music on the
moon landing for ABC. The net-
work also is setting up a special
telephone system so that view-
ers around the nation can ques-
tion newsmen about the moon
mission. The most pertinent
queries will be answered on the
air.

NBC will try again to show
the Apollo 11 flight, through the
16-inch telescope at the Fern-
bank Science Center in DeKalb
County, Ga. Van Heflin, James
Earl Jones and Julie Harris will
read from the letters and jour-
nals of famous explorers. Danny
Kay, in his first television ap-
pearance in three years, will
co-host a portion of the cover-
age.

Jerry Buck is substituting for
vacationing Cynthia Lowry.

Ammer To Attend Judges Conference At Nevada U

Pickaway County Common
Pleas Judge William Ammer
will attend the summer session
of the National College of State
Trial Judges at the University
of Nevada, in Reno, July 28
through Aug. 22.

The National College of State
Trial Judges strives con-
tinuously to improve the ad-
ministration of justice
throughout the nation.

It has no school solutions to
the problems of the bench, but
it brings together judges from
every state in the union for a
broad exchange of ideas so that
they may share in the
knowledge and experience of
each other.

Besides attending the sessions
as one of 100 judges enrolled,
Judge Ammer has been chosen
as a faculty adviser to lead
discussions during evening
seminars.

LAURENCE M. Hyde Jr.,
Dean of the judges' college, said
improving the administration of
justice is a tremendously im-
portant task in these times
when many of our young people
question all forms of authority,
when many leaders preach civil
disobedience and when violence
is used by many to achieve
minority aims.

The college has graduated
about 1,000 or 25 per cent of
the nation's state judges of
general jurisdiction trial courts.

"Of judges, for judges, by
judges." That was the original
basis on which the college was
founded in 1964. Subjects during
the session include proceedings
before trial, evidence, civil law,
domestic relations, court ad-
ministration, community
relations, criminal law, sen-
tencing and probation.

Judge Ammer has par-
ticipated in four seminars held
in Ohio by this college during
the last five years.

The college was founded with
help from the W. K. Kellogg
Foundation and now receives

funds from the Max C. Fleisch-
mann Foundation.

The college is sponsored by
the National Conference of State
Trial Judges, whose objectives
are to gather, study and
disseminate information to state
trial judges. The college
represents a unique develop-
ment in the field of post
graduate legal education.

NEVADA'S Governor Paul A.
Laxalt, pointing with pride to
the accomplishment of the
college, declared: "The full
potential of every trial judge
must be developed so that each
can be the best judge he is
capable of being. Today's
judicial education will greatly
contribute to the quality of
justice tomorrow."

All expenses in connection
with the trip and the college
will be paid personally by Judge
Ammer.

Fire Department Acts Against Nursing Home

COLUMBUS, Ohio (AP)—
Court action was sought Mon-
day to force the evacuation of
20 residents of a suburban
Worthington nursing home.

Sharon Township Fire Depart-
ment officials turned to the
court after operators of the
Sheri-Low Nursing Home re-
fused to obey their order to
vacate the premises.

Fire officials had ordered the
evacuation because an undercut
dirt bridge leading to the home
had washed out partially and
could not provide fire trucks
with a safe access to the area.

Township trustees had given
operators of the home 12 hours
to make repairs. About 21 tons
of rock was dumped into the
washout, but fire inspectors said
the repair work was unsatis-
factory.

Views On TV - Radio

By JERRY BUCK
AP Television-Radio Writer
NEW YORK (AP)—From
countdown to splashdown, tele-
vision's cameras will accompa-
ny the Apollo 11 astronauts to the
surface of the moon and back.

Coverage plans of the historic
flight are reaching historic pro-
portions. During the critical
phases of the moon landing the
three networks will be on the air
continuously for at least 30
hours.

Two hour-long previews of the
flight will be offered tonight.
NBC's special is at 7:30-8:30
p.m. and CBS's at 10-11 p.m. All
times are Eastern Daylight.

Coverage of the liftoff, set for
9:32 a.m. Wednesday, begins in
the early morning. NBC signs
on at 6 a.m. with a special edi-
tion of the "Today" show. ABC
begins at 7 and CBS at 8 a.m.

Regular progress reports will
be aired throughout the flight by
the television and radio net-
works.

The Apollo 11 is to send back the
first of at least seven live trans-
missions for 15 minutes at 7:32
p.m. Thursday. All of the trans-
missions will be in color except
for those from the lunar module
on the moon.

On Sunday, as the lunar mod-
ule Eagle prepares to separate
from the command module Col-
umbia the networks will begin
approximately 30 hours of con-
tinuous coverage. ABC comes
on at 12 noon for 30 hours of
coverage and CBS and NBC at
11 a.m. for 31 hours.

The extended coverage, which
ends at 6 p.m. Monday, will
take the mission through the de-
cent of the Eagle, the landing,
the walk on the moon, liftoff
from the lunar surface and
docking with the Columbia.

The lunar module is scheduled
to touch down on the moon at
4:23 p.m. Sunday, but Astronaut
Neil A. Armstrong will not leave
the craft and set foot on the
moon until 2:12 a.m. the next
morning.

He is to be joined by astro-
naut Edwin E. "Buzz" Aldrin
Jr. for a 2-hour and 40-minute
exploration of the area around
the capsule. Astronaut Michael
Collins will remain aboard the
orbiting Columbia.

When Armstrong steps out of
the module, an automatic black
and white television camera in
the descent stage will be ac-
tivated to transmit pictures of
the first footsteps on the moon.

A special Trendex survey
commissioned by ABC esti-
mates that nearly 50 per cent
of the U.S. viewers will stay up
for the moon walk. In other parts
of the world it will be daylight
and hundreds of millions of people
in Europe, Africa and Asia are
expected to witness the event
by satellite television.

Armstrong is scheduled to
take the camera out of the de-
cent stage and set it on a tri-
pod 25 feet from the lunar mod-
ule for a constant view of the
astronauts working on the
moon.

Obviously, during the period
of extended coverage Sunday
and Monday there will be long
hours between activities. So the
networks are lining up all kinds
of attractions, from scientific
reproductions of the moon's sur-
face to science fiction to moon-
light and romance.

Here is a sample of some of
the plans:
On CBS, former President
Lyndon B. Johnson will discuss
his role in the space program,
and Orson Welles will discuss

Putting Men On The Moon Costs Nearly \$24 Billion

By PAUL REGER
AP Aerospace Writer
SPACE CENTER, HOUSTON
(AP)—It has taken almost \$24
billion to give Neil A. Arm-
strong a chance to walk the
moon for two hours, 40 minutes.

While he's doing it, the na-
tion's first civilian astronaut
will be earning only about \$33
for his time.

The National Aeronautics and
Space Administration has re-

ceived \$23.915 billion for space
flight since the agency was
created 10 years ago.

The money has gone for hard-
ware, salaries, construction and
training in a massive national
effort to make the first man on
the moon an American.

Armstrong, highest paid of
the flying astronauts, gets
\$27,401 a year.

Based on a 40-hour week—al-
though he usually works longer
than that—the Apollo 11 com-
mander will get \$32.92 for the

two hours 40 minutes he spends
walking the moon. If he had to
pay for the space suit he'll be
wearing, it would cost him al-
most 12 years' salary. The com-
plete lunar surface outfit cost
about \$300,000. The two other
Apollo 11 crewmen are Air
Force officers. They get only
what flying officers of their
rank would receive in any other
job.

Edwin E. Aldrin Jr., an Air
Force colonel, receives \$18,
622.56 a year, including base

pay, quarters and subsistence
allowance, and flight pay.

Air Force Lt. Col. Michael
Collins gets \$17,147.76 a year,
including the fringe benefits.

Apollo 11 itself is costing
NASA \$350 million. This in-
cludes \$55 million for the com-

mand module; \$41 million for
the lunar module and \$185 mil-
lion for the Saturn 5 launch
booster. It will cost \$69 million
for mission support, the most
spent yet for personnel, fuel and
other earthbound expenses.
Putting men on the moon has

been expensive in another way,
too. Eight American astronauts
have lost their lives since the
space program began 10 years
ago.

How Weather Looks Today

OHIO WEATHER SUMMARY
COLUMBUS, Ohio (AP)—Of-
ficial Weather Bureau summary
for Ohio:

Weather conditions have been
slow to change over Ohio.

A weak but sluggish high pres-
sure system moved slowly over
the state Monday and this morn-
ing it was centered over Penn-
sylvania. This high is expected
to continue its slow eastward
drift into the Atlantic Wednes-
day.

Winds will become southerly
following the high, bringing
warmer air and increasing humi-
dity northward from the Gulf
of Mexico. Temperatures will
climb into the upper 80s in
northern Ohio and into the low
90s elsewhere in the state this
afternoon and by Wednesday
afternoon the mercury will top
the 90 degree mark throughout
the state.

Skies were clear Monday
night except for the river val-
leys in the southeastern coun-
ties where extensive fog was
reported this morning.

At daybreak temperature
readings were in the 60s in most
sections with a low reading of
58 degrees at Youngstown.

FORECASTS

OHIO — Fair, warmer and
more humid tonight and Wed-
nesday. Lows tonight in the up-
per 60s and low 70s.

NORTHWEST, NORTHEAST
EAST CENTRAL OHIO—Fair,
warmer and more humid to-
night and Wednesday. Lows to-
night in the upper 60s. Highs
Wednesday in the low 90s.

SOUTHWEST, CENTRAL
SOUTHEAST OHIO — Fair,
warm and more humid tonight
and Wednesday. Lows tonight
in the low 70s. Highs Wednes-
day in the 90s.

LAKE ERIE—Variable most-
ly southerly winds 8-15 knots to-
night. Fair.

The relevance of science fiction.

Duke Ellington is composing a
piece of original music on the
moon landing for ABC. The net-
work also is setting up a special
telephone system so that view-
ers around the nation can ques-
tion newsmen about the moon
mission. The most pertinent
queries will be answered on the
air.

NBC will try again to show
the Apollo 11 flight, through the
16-inch telescope at the Fern-
bank Science Center in DeKalb
County, Ga. Van Heffin, James
Earl Jones and Julie Harris will
read from the letters and jour-
nals of famous explorers. Danny
Kaye, in his first television ap-
pearance in three years, will
co-host a portion of the cover-
age.

Jerry Buck is substituting for
vacationing Cynthia Lowry.

Ammer To Attend Judges Conference At Nevada U

Pickaway County Common
Pleas Judge William Ammer
will attend the summer session
of the National College of State
Trial Judges at the University
of Nevada, in Reno, July 28
through Aug. 22.

The National College of State
Trial Judges strives con-
tinuously to improve the ad-
ministration of justice
throughout the nation.

It has no school solutions to
the problems of the bench, but
it brings together judges from
every state in the union for a
broad exchange of ideas so that
they may share in the knowl-
edge and experience of each other.

Besides attending the sessions
as one of 100 judges enrolled,
Judge Ammer has been chosen
as a faculty adviser to lead
discussions during evening
seminars.

LAURENCE M. Hyde Jr.,
Dean of the judges' college, said
improving the administration of
justice is a tremendously im-
portant task in these times
when many of our young people
question all forms of authority,
when many leaders preach civil
disobedience and when violence
is used by many to achieve
minority aims.

The college has graduated
about 1,000 or 25 per cent of
the nation's state judges of
general jurisdiction trial courts.

"Of judges, for judges, by
judges." That was the original
basis on which the college was
founded in 1964. Subjects during
the session include proceedings
before trial, evidence, civil law,
domestic relations, court ad-
ministration, community
relations, criminal law, sen-
tencing and probation.

Judge Ammer has par-
ticipated in four seminars held
in Ohio by this college during
the last five years.

The college was founded with
help from the W. K. Kellogg
Foundation and now receives

funds from the Max C. Fleisch-
mann Foundation.

The college is sponsored by
the National Conference of State
Trial Judges, whose objectives
are to gather, study and
disseminate information to state
trial judges. The college
represents a unique develop-
ment in the field of post
graduate legal education.

NEVADA'S Governor Paul A.
Laxalt, pointing with pride to
the accomplishment of the
college, declared: "The full
potential of every trial judge
must be developed so that each
can be the best judge he is
capable of being. Today's
judicial education will greatly
contribute to the quality of
justice tomorrow."

All expenses in connection
with the trip and the college
will be paid personally by Judge
Ammer.

Fire Department Acts Against Nursing Home

COLUMBUS, Ohio (AP)—
Court action was sought Mon-
day to force the evacuation of
20 residents of a suburban
Worthington nursing home.

Sharon Township Fire Depart-
ment officials turned to the
court after operators of the
Sheri-Low Nursing Home re-
fused to obey their order to
vacate the premises.

Fire officials had ordered the
evacuation because an undercut
dirt bridge leading to the home
had washed out partially and
could not provide fire trucks
with a safe access to the area.

Township trustees had given
operators of the home 12 hours
to make repairs. About 21 tons
of rock was dumped into the
washout, but fire inspectors said
the repair work was unsatis-
factory.

Adrin An Astronaut, Athlete, Scientist, Church Elder

By PAUL RECER
AP Aerospace Writer
SPACE CENTER, Houston (AP) — Edwin E. Aldrin Jr. looks like an athlete, talks like a scientist and has the humility of a church elder.

The 39-year-old astronaut is actually all three.

Aldrin, an Air Force colonel, is lunar module pilot on Apollo 11. He'll follow Apollo 11 commander Neil A. Armstrong out onto the moon's surface early on July 21.

The prospect of becoming one

of history's great explorers is humbling, says Aldrin.

"You feel a bit more humble in the fact that you've been very blessed in receiving things that maybe you personally wanted," he says. "I think you have to look at this as an obligation, not only to this particular job, but as an obligation . . . to repay for the opportunity by service to other people."

Aldrin, a blue eyed man with receding blond hair, is a muscular, agile ex-football player who works almost as hard to stay in

shape now as he did when he played center on the 1947 New Jersey high school, championship team.

He has a high bar in the backyard of his home near the Manned Spacecraft Center and frequently goes through gymnastic routine. He also pole vaults, a skill he first learned in high school.

Aldrin could stick a "doctor" in front of his name, but never does. He earned a doctorate in orbital mechanics from Massachusetts Institute of Technology.

Aldrin was the lone son of an early day aviator and, appropriately, the maiden name of his late mother was Marion Moon.

Aldrin's father earned his pilot's license in 1919 and today, at 73, is still qualified to fly.

His parents gave him the nickname "Buzz" which has stuck on since.

Even at a young age, Aldrin seemed to develop a reserve that haunts him yet. He's been called "the mechanical man" by some who know him.

"Buzz was one of those kids that had a mind that was really fantastic," says Hartman. "But he would sometimes shrink into his shell."

Aldrin graduated with a scholastic record of A's and B's, finishing in the top 10 per cent of his class, and received both a scholarship offer from MIT and an appointment to the U.S. Military Academy.

His father said he picked West Point because it offered more athletics.

Buzz made a "hell of a good cadet," recalls W. F. Lewis, academy physical training teacher.

Aldrin was first in his plebe class scholastically and showed a well-remembered dedication in athletics.

"Everything was geared and aimed at perfection," says Carlton R. Leton, the academy track coach, of Aldrin as a cadet.

"Aldrin was very methodical and business like. He'd come down and do his work and leave."

The astronaut graduated third out of 475 cadets in the class of 1951. He took his commission in the Air Force and received his

pilot's wings at Bryan, Tex. The Korean War was drawing to a close, but the new Air Force lieutenant went there for the final months.

He flew 66 combat missions and downed two enemy jets and crippled another.

He married Joan Archer of Ho-Ho-Kus, N.J., after returning from Korea. The Air Force assigned him to three posts in the United States and then sent him to Bitburg, Germany as flight commander of a tactical fighter wing.

Despite his love of flying, he says, he realized toward the end of his three-year tour there that he had also better learn other skills.

"The future of fighters at that time looked pretty bleak," Aldrin recalls. "I decided it was about time to go back and get some more schooling. MIT looked like the best place."

The pilot entered a two-year Air Force program at MIT, but got an extension after a year there to work on his doctorate.

In 1963, Aldrin earned his degree after writing a thesis on orbital rendezvous. A system he suggested for this critical space maneuver was later adopted in part by the Gemini and Apollo programs.

He put his theories to work three years later.

The National Aeronautics and Space Administration picked him as an astronaut and later

named him to the Gemini 12 mission commanded by Navy Capt. James A. Lovel Jr.

During the mission Aldrin opened the spacecraft hatch and spent more than five hours "walking in space," a record which still stands.

Aldrin was named to the Apollo 11 crew in January.

He has mixed feelings about the fame that's sure to follow.

"I think there are enjoyable parts of it," he says. "There are frustrating parts of it, also. Your life is not the same. You certainly lose privacy."

Fellow astronauts say Aldrin has a rich sense of humor, but seldom flashes it. Dedication to his job, they say, often masks it and he often appears pompous when he's concentrating on his work.

"He's a brilliant engineer and a crackjack pilot," says a technician who has worked with Aldrin for months "but a totally gray personality."

Social Security Answers

Q. My nephew is only 21 years old but is disabled and cannot work because of wounds he received in Vietnam. He was in the Army 3 years. Can he get social security disability benefits?

A. Very probably. Active services in the Armed Forces is covered under social security. Since your nephew is only 21 he would need credit for only 1½ years work under social security. If he is so severely disabled that he is unable to work, he may be eligible for benefits.

Q. My wife and I are both 25 and are both working. When we retire she can only get benefits as my wife, so what good does it do for her to pay

MOON TV CAMERA—This is the television camera (black and white) astronauts Neil Armstrong and Edwin Aldrin will set up on the Moon. Holding it at Cape Kennedy is Westinghouse camera program chief Stanley Labar.

Local Crippled Youth Invited To State Fair

The Pickaway County Society for Crippled Children and the City and County Health Departments have received an invitation for the crippled children of Pickaway County to attend the Ohio State Fair on Crippled Children's Day, August 22.

The Ohio State Fair management has planned a fine day's outing on Crippled Children's Day, sponsored by the Crippled Children's Entertainment Association. The Ohio Society for Crippled Children and Adults Inc., its local Easter Seal Units and other participating groups are inviting children from all parts of the state.

The grandstand attraction will be one of high interest and geared for crippled children as it has been in the past. Free admittance for the children and their escorts will be provided, along with transportation by shuttle bus on the grounds and free rides on the midway.

Meals will be furnished. Facilities for rest and medical care will also be provided.

Any crippled child under 18 years of age who wishes to take advantage of this opportunity for a day of fun at the Ohio State Fair should contact Mrs. Elliott Mason at 474-5253 or Mrs. M. C. Kirkwood Jr. at 474-3633 before Aug. 11. The local unit will be making reservations and planning transportation for the crippled children and their escorts.

Urge Changes In Procurement By The Pentagon

WASHINGTON (AP) — Firms competing for multi-billion dollar Pentagon contracts should develop weapons prototypes before any award of government money is made, the federal comptroller recommended Monday.

The requirement would, among other things, save money, said Comptroller General Elmer B. Staats.

While the procedure might require an initial increase in research and development costs, Staats said this would be overcome by a sharp decline in cost overruns that now result from what he termed "tenuous cost estimating."

He said this procedure would increase competition and prevent one firm from being "locked in" on a contract for future production of such hardware as missiles, planes and tanks.

Staats made the proposal in testimony prepared for the Senate Antitrust and Monopoly Subcommittee, holding a one-day hearing on ways of making defense procurement more economical.

Adrin An Astronaut, Athlete, Scientist, Church Elder

The Circleville Herald, Tues. July 15, 1969 9
Circleville, Ohio

By PAUL RECER
AP Aerospace Writer
SPACE CENTER, Houston (AP) — Edwin E. Aldrin Jr. looks like an athlete, talks like a scientist and has the humility of a church elder.

The 39-year-old astronaut is actually all three.

Aldrin, an Air Force colonel, is lunar module pilot on Apollo 11. He'll follow Apollo 11 commander Neil A. Armstrong out onto the moon's surface early on July 21.

The prospect of becoming one of history's great explorers is humbling, says Aldrin.

"You feel a bit more humble in the fact that you've been very blessed in receiving things that maybe you personally wanted," he says. "I think you have to look at this as an obligation, not only to this particular job, but as an obligation . . . to repay for the opportunity by service to other people."

Aldrin, a blue eyed man with receding blond hair, is a muscular, agile ex-football player who works almost as hard to stay in

shape now as he did when he played center on the 1947 New Jersey high school, championship team.

He has a high bar in the backyard of his home near the Manned Spacecraft Center and frequently goes through gymnastic routine. He also pole vaults, a skill he first learned in high school.

Aldrin could stick a "doctor" in front of his name, but never does. He earned a doctorate in orbital mechanics from Massachusetts Institute of Technology.

Aldrin was the lone son of an early day aviator and, appropriately, the maiden name of his late mother was Marion Moon.

Aldrin's father earned his pilot's license in 1919 and today, at 73, is still qualified to fly.

His parents gave him the nickname "Buzz" which has stuck on since.

Even at a young age, Aldrin seemed to develop a reserve that haunts him yet. He's been called "the mechanical man" by some who know him.

"Buzz was one of those kids that had a mind that was really fantastic," says Hartman. "But he would sometimes shrink into his shell."

Aldrin graduated with a scholastic record of A's and B's, finishing in the top 10 per cent of his class, and received both a scholarship offer from MIT and an appointment to the U.S. Military Academy.

His father said he picked West Point because it offered more athletics.

Buzz made a "hell of a good cadet" recalls W. F. Lewis, academy physical training teacher.

Aldrin was first in his plebe class scholastically and showed a well-remembered dedication in athletics.

"Everything was geared and aimed at perfection," says Carlton R. Leton, the academy track coach, of Aldrin as a cadet.

"Aldrin was very methodical and business like. He'd come down and do his work and leave."

The astronaut graduated third out of 475 cadets in the class of 1951. He took his commission in the Air Force and received his

named him to the Gemini 12 mission commanded by Navy Capt. James A. Lovel Jr.

During the mission Aldrin opened the spacecraft hatch and spent more than five hours "walking in space," a record which still stands.

Aldrin was named to the Apollo 11 crew in January.

He has mixed feelings about the fame that's sure to follow.

"I think there are enjoyable parts of it," he says. "There are frustrating parts of it, also. Your life is not the same. You certainly lose privacy."

Fellow astronauts say Aldrin has a rich sense of humor, but seldom flashes it. Dedication to his job, they say, often masks it and he often appears pompous when he's concentrating on his work.

"He's a brilliant engineer and a crackjack pilot," says a technician who has worked with Aldrin for months "but a totally gray personality."

He put his theories to work three years later.

The National Aeronautics and Space Administration picked him as an astronaut and later

the future of fighters at that time looked pretty bleak," Aldrin recalls. "I decided it was about time to go back and get some more schooling. MIT looked like the best place."

The pilot entered a two-year Air Force program at MIT, but got an extension after a year there to work on his doctorate.

In 1963, Aldrin earned his degree after writing a thesis on orbital rendezvous. A system he suggested for this critical space maneuver was later adopted in part by the Gemini and Apollo programs.

Social Security Answers

Q. My nephew is only 21 years old but is disabled and cannot work because of wounds he received in Vietnam. He was in the Army 3 years. Can he get social security disability benefits?

A. Very probably. Active services in the Armed Forces is covered under social security. Since your nephew is only 21 he would need credit for only 1½ years work under social security. If he is so severely disabled that he is unable to work, he may be eligible for benefits.

Q. My wife and I are both 25 and are both working. When we retire she can only get benefits as my wife, so what good does it do for her to pay

social security contributions?

A. First, if she works long enough to be insured, she will be eligible for a benefit on her own record. If she retired at 62, she would be able to collect her benefits, even if you continued to work. Second, chances are that the benefit based on her own earnings will be higher than the benefit that would be payable to her as a dependent wife. Third, her work under social security gives her disability protection if she should become disabled before 65. Fourth, if you have children, they would be eligible to receive survivors benefits at her death, based on her work under social security. Last, in the event of her death, you would be entitled to a lump-sum death payment even if you had no children.

Q. I'm going to be 65 in a few months but will go right on working just as I am now. Is there any reason why I should put in my claim for social security benefits?

A. Yes, indeed there is. Medicare benefits are payable at 65 and after whether or not you are retired. But your Medicare doctor bill insurance can begin on the first day of the month you are 65 only if you sign up in one of the 3 months before the month of your 65th birthday. If you wait until your birthday month . . . or later . . . your coverage will be delayed one to three months.

Whether you plan to retire at 65 or continue to work after 65, visit your social security office 2 or 3 months before your birthday.

Q. My husband was killed last December. I did not know that there were any benefits available for me and the children until my neighbor asked me the other day if I had talked to the people at my social security office. Have I lost benefits? How do I get our checks started?

A. To start your checks, get in touch with your social security office. You can be paid benefits back to the month of December, so you haven't lost anything yet. Benefits are retroactive for up to 12 months. It will help if you take your children's birth certificates with you when you go to your social security office. You will also need your husband's social security card or a record of his number, a statement of his earnings in 1968, and your marriage certificate. If you have a death certificate, bring it along also.

Benefits Of U.S. Space Program Explained

The Circleville Herald
10 Tues. July 15, 1969
Circleville, Ohio

By HOWARD BENEDICT
AP Aerospace Writer
CAPE KENNEDY, Fla. (AP) — As America prepares to land two astronauts on the moon after a decade of space flight, many persons ask: What is the value of the space program? How has this nation benefitted? Where is it leading?

These and other questions are asked in the following interview with Dr. George E. Mueller, who for six years has been the National Aeronautics and Space Administration's associate administrator for manned space flight.

Q. What, in general, do you think a successful moon landing will do for the United States?

A. The moon landing will be the result of focusing the energies and creative talents of many people. Perhaps the most important single thing the establishment of the goal of a manned lunar landing really did for the nation was to give it a sense of pride and sense of accomplishment at a time when there were not many things which provided that sense of achievement.

I think the next generation not only is going to accept but expect the continuation of space exploration as part of this nation and part of the world. I can think of no better way of draining off the creative energies of the world. I would much rather have space exploration serve as a challenge and as a competitive goal between nations than any other kind of conflict.

Q. How do you think the lunar landing specifically is contributing?

A. I do not think that anybody who saw the picture, through the eyes of the Apollo 8 and 10 astronauts, of how small the world is in this vast ocean of space can ever again feel quite the same way about the purpose of small conflicts on the earth's surface itself, but rather that we are together on a very small planet and we had better find ways of working together.

Q. There are many who say that the \$24 billion we have spent on the man-in-space program could better have been spent solving problems on earth. How do you answer these critics?

A. I know of no more effective way of spending \$24 billion in advancing the basic productivity and basic advances in technology that are essential for creating the national wealth that will in turn make possible these kinds of programs in cancer cure and elsewhere. Our basic economy depends on the creation of new technology and in turn new science to form the basis for that technology. Without it, we will lose our competitive position among the nations.

President Johnson pointed out in his last State of the Union message that under his direction the amount of money spent on welfare in this nation had gone from \$30 billion a year to \$69 billion a year in the last four years. In the same period, the space agency budget has dropped from \$5.9 billion to \$3.9 billion.

I think that beyond a doubt the money that was spent on space would not make a significant difference in welfare, and yet it will make in the years ahead a significant difference in the productivity of the nation. One of the disturbing things is that the over-all research and development expenditures in science and technology have been decreasing over the past four years.

Q. Has education been greatly influenced by the space program?

A. After Sputnik, there was a great wave of awareness that the system of education we had built was not necessarily going to succeed, and you can see the effect of that in the school system we have today. The science course, the mathematical course and even the liberal arts courses in our high schools and in our elementary schools are far more advanced.

As a matter of fact, our present college problems are partially traceable to the fact that the colleges failed to respond promptly and adequately to the challenge represented by a set of high school graduates over the past five or six years whose educational background was superior to that of many college graduates of only 10 years ago.

Q. What has the space program meant to the nation's industry?

A. In a very real sense, we have trained some 300,000 people in a whole new way of doing business. For the first time we have been able to build equipment of immense complexity that really works when it is put together. Right now there are about 150,000 people trained in the space program who are working elsewhere in industry.

I think some of the greatest contributions of the space program are the approaches that we have developed toward achieving reliability through both design and design reviews, through testing and adequate development of test procedures.

It is that rigor of looking at things that will become a part of our industrial system that will lead to better products.

Program Is Costly
SPACE CENTER, Houston (AP) — More than \$36 billion has been appropriated for the national space program since 1959. In that year, the appropriation was more than \$330 million. It exceeds \$3.9 billion this year.

★ ★ ★ ★ ★

Tell How Apollo Crew Was Named

CAPE KENNEDY, Fla. (AP) — The crew of Apollo 11 got their chance to make man's first moon landing more by chance than anything else.

The original man-to-the-moon program called for Apollo 16 to be the spacecraft to put men on the lunar surface but troubles, particularly with the lunar module, forced a delay in the landing attempt until Apollo 11.

Neil A. Armstrong, Edwin E. Aldrin Jr. and Michael Collins were merely selected as the crew for a mission called Apollo 11. Only later did it turn out that it was to be the historic one.

National Aeronautics and Space Administration procedure for picking Apollo crews has been to take the backup crew from one flight and make it the primary crew for three flights ahead. Thus the backup crew for Apollo 7 became the primary crew for Apollo 10, and the backup crew for Apollo 8, the crew for next Wednesday's Apollo 11 flight.

NASA says it selects crews for space flights on the basis of personal compatibility and the proper combination of skills to manage the spacecraft and carry out the particular mission assigned to the flight.

"We're certainly glad it worked out the way it did," Armstrong, a civilian, 38, said recently. "It's a great honor to be selected for any mission in the Apollo program, this one, of course, in particular."

The three were named to the Apollo 11 crew in January. Even though it seemed likely at that point that they would be the first to try to put man on the moon, they could not be sure. If something had gone wrong on Apollo 9 or 10, they would have had to fly a repeat of one of those tests, pushing the landing off to Apollo 12 or even later.

Chance played an even more important role in Collins' berth on Apollo 11. He was originally scheduled to fly in Apollo 8 but was replaced last year after he underwent surgery for the removal of a bone spur on his spine.

"Particularly in my case, it's a matter of circumstance," Collins, 38, an Air Force lieutenant colonel, said recently. "I don't think there is any Apollo main-line crew that couldn't take over and do the job of the first lunar landing."

"We have been given a tremendous responsibility by the twists and turns of fate," Aldrin, 39, an Air Force colonel said.

Armstrong, the Apollo 11 commander, will be the first to step on the moon. Aldrin will follow him to the surface about 20 minutes later and Collins will remain in the command vehicle orbiting 60 miles above the moon.

Red Chinese Build Shelters

HONG KONG (AP) — Trenches and air raid shelters are being built in many parts of Canton "to prevent a sneak attack from other countries," arrivals from Red China's southern metropolis said Monday.

One traveler said one Communist official in Canton said: "Revisionist Russia, imperialist America and bandit Chiang on occupied Taiwan Formosa may attack China any time."

Warning arrivals said posters warning of "imminent attack by other countries" were seen throughout the city.

I know of no more effective way of spending \$24 billion in advancing the basic productivity and basic advances in technology that are essential for creating the national wealth that will in turn make possible these kinds of programs in cancer cure and elsewhere. Our basic economy depends on the creation of new technology and in turn new science to form the basis for that technology. Without it, we will lose our competitive position among the nations.

President Johnson pointed out in his last State of the Union message that under his direction the amount of money spent on welfare in this nation had gone from \$30 billion a year to \$69 billion a year in the last four years. In the same period, the space agency budget has dropped from \$5.9 billion to \$3.9 billion.

I think that beyond a doubt the money that was spent on space would not make a significant difference in welfare, and yet it will make in the years ahead a significant difference in the productivity of the nation. One of the disturbing things is that the over-all research and development expenditures in science and technology have been decreasing over the past four years.

Q. Has education been greatly influenced by the space program?

A. After Sputnik, there was a great wave of awareness that the system of education we had built was not necessarily going to succeed, and you can see the effect of that in the school system we have today. The science course, the mathematical course and even the liberal arts courses in our high schools and in our elementary schools are far more advanced.

As a matter of fact, our present college problems are partially traceable to the fact that the colleges failed to respond promptly and adequately to the challenge represented by a set of high school graduates over the past five or six years whose educational background was superior to that of many college graduates of only 10 years ago.

Q. What has the space program meant to the nation's industry?

A. In a very real sense, we have trained some 300,000 people in a whole new way of doing business. For the first time we have been able to build equipment of immense complexity that really works when it is put together. Right now there are about 150,000 people trained in the space program who are working elsewhere in industry.

I think some of the greatest contributions of the space program are the approaches that we have developed toward achieving reliability through both design and design reviews, through testing and adequate development of test procedures.

It is that rigor of looking at things that will become a part of our industrial system that will lead to better products.

Program Is Costly
SPACE CENTER, Houston (AP) — More than \$36 billion has been appropriated for the national space program since 1959. In that year, the appropriation was more than \$330 million. It exceeds \$3.9 billion this year.

These and other questions are asked in the following interview with Dr. George E. Mueller, who for six years has been the National Aeronautics and Space Administration's associate administrator for manned space flight.

Q. What, in general, do you think a successful moon landing will do for the United States?

A. The moon landing will be the result of focusing the energies and creative talents of many people. Perhaps the most important single thing the establishment of the goal of a manned lunar landing really did for the nation was to give it a sense of pride and sense of accomplishment at a time when there were not many things which provided that sense of achievement.

I think the next generation not only is going to accept but expect the continuation of space exploration as part of this nation and part of the world. I can think of no better way of draining off the creative energies of the world. I would much rather have space exploration serve as a challenge and as a competitive goal between nations than any other kind of conflict.

Q. How do you think the lunar landing specifically is contributing?

A. I do not think that anybody who saw the picture, through the eyes of the Apollo 8 and 10 astronauts, of how small the world is in this vast ocean of space can ever again feel quite the same way about the purpose of small conflicts on the earth's surface itself, but rather that we are together on a very small planet and we had better find ways of working together.

Q. There are many who say that the \$24 billion we have spent on the man-in-space program could better have been spent solving problems on earth. How do you answer these critics?

A. I know of no more effective way of spending \$24 billion in advancing the basic productivity and basic advances in technology that are essential for creating the national wealth that will in turn make possible these kinds of programs in cancer cure and elsewhere. Our basic economy depends on the creation of new technology and in turn new science to form the basis for that technology. Without it, we will lose our competitive position among the nations.

Benefits Of U.S. Space Program Explained

By HOWARD BENEDICT
AP Aerospace Writer
CAPE KENNEDY, Fla. (AP) — As America prepares to land two astronauts on the moon after a decade of space flight, many persons ask: What is the value of the space program? How has this nation benefitted? Where is it leading?

These and other questions are asked in the following interview with Dr. George E. Mueller, who for six years has been the National Aeronautics and Space Administration's associate administrator for manned space flight.

Q. What, in general, do you think a successful moon landing will do for the United States?

A. The moon landing will be the result of focusing the energies and creative talents of many people. Perhaps the most important single thing the establishment of the goal of a manned lunar landing really did for the nation was to give it a sense of pride and sense of accomplishment at a time when there were not many things which provided that sense of achievement.

I think the next generation not only is going to accept but expect the continuation of space exploration as part of this nation and part of the world. I can think of no better way of draining off the creative energies of the world. I would much rather have space exploration serve as a challenge and as a competitive goal between nations than any other kind of conflict.

Q. How do you think the lunar landing specifically is contributing?

A. I do not think that anybody who saw the picture, through the eyes of the Apollo 8 and 10 astronauts, of how small the world is in this vast ocean of space can ever again feel quite the same way about the purpose of small conflicts on the earth's surface itself, but rather that we are together on a very small planet and we had best find ways of working together.

Q. There are many who say that the \$24 billion we have spent on the man-in-space program could better have been spent solving problems on earth. How do you answer these critics?

A. I know of no more effective way of spending \$24 billion in advancing the basic productivity and basic advances in technology that are essential for creating the national wealth that will in turn make possible these kinds of programs in cancer cure and elsewhere. Our basic economy depends on the creation of new technology and in turn new science to form the basis for that technology. Without it, we will lose our competitive position among the nations.

President Johnson pointed out in his last State of the Union message that under his direction the amount of money spent on welfare in this nation had gone from \$30 billion a year to \$69 billion a year in the last four years. In the same period, the space agency budget has dropped from \$5.9 billion to \$3.9 billion.

I think that beyond a doubt the money that was spent on space would not make a significant difference in welfare, and yet it will make in the years ahead a significant difference in the productivity of the nation. SPACE CENTER, Houston (AP) — More than \$36 billion has been appropriated for the national space program since 1959. In that year, the appropriation was more than \$330 million. It exceeds \$3.9 billion this year.

Tell How Apollo Crew Was Named

CAPE KENNEDY, Fla. (AP) — The crew of Apollo 11 got their chance to make man's first moon landing more by chance than anything else.

The original man-to-the-moon program called for Apollo 10 to be the spacecraft to put men on the lunar surface but troubles, particularly with the lunar module, forced a delay in the landing attempt until Apollo 11.

Neil A. Armstrong, Edwin E. Aldrin Jr. and Michael Collins were merely selected as the crew for a mission called Apollo 11. Only later did it turn out that it was to be the historic one.

National Aeronautics and Space Administration procedure for picking Apollo crews has been to take the backup crew

from one flight and make it the primary crew for three flights ahead. Thus the backup crew for Apollo 7 became the primary crew for Apollo 10, and the backup crew for Apollo 8, the crew for next Wednesday's Apollo 11 flight.

NASA says it selects crews for space flights on the basis of personal compatibility and the proper combination of skills to manage the spacecraft and carry out the particular mission assigned to the flight.

"We're certainly glad it worked out the way it did," Armstrong, a civilian, 38, said recently. "It's a great honor to be selected for any mission in the Apollo program. This one, of course, in particular."

The three were named to the Apollo 11 crew in January. Even though it seemed likely at that point that they would be the first to try to put man on the moon, they could not be sure. If something had gone wrong on Apollo 9 or 10, they would have had to fly a repeat of one of those tests, pushing the landing off to Apollo 12 or even later.

Chance played an even more important role in Collins' berth on Apollo 11. He was originally scheduled to fly in Apollo 8 but was replaced last year after he underwent surgery for the removal of a bone spur on his spine.

"Particularly in my case, it's a matter of circumstance," Collins, 38, an Air Force lieutenant

colonel, said recently. "I don't think there is any Apollo main-line crew that couldn't take over and do the job of the first lunar landing."

"We have been given a tremendous responsibility by the twists and turns of fate," Aldrin, 39, an Air Force colonel said.

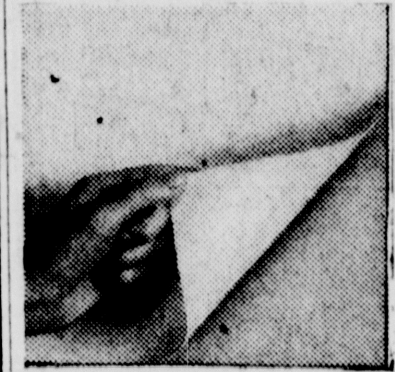

Armstrong, the Apollo 11 commander, will be the first to step on the moon. Aldrin will follow him to the surface about 20 minutes later and Collins will remain in the command vehicle orbiting 60 miles above the moon.

Red Chinese Build Shelters
HONG KONG (AP) — Trenches and air raid shelters are being built in many parts of Canton "to prevent a sneak attack from other countries," arrivals from Red China's southern metropolis said Monday.

One traveler said one Communist official in Canton said: "Revisionist Russia, Imperialist America and bandit Chiang on occupied Taiwan Formosa may attack China any time."

Other arrivals said posters warning of "imminent attack by other countries" were seen throughout the city.

Now! FLINTKOTE® PEEL-AND-STICK TILE
in smart new colors.

JUST THAT EASY...

JUST THAT QUICK!

Now you can have a beautiful floor this new, easy way. Just strip off the paper backing and press down the tile. It's just that easy, just that quick.

FLINTKOTE Peel and Stick tile is available in striking new colors and sculptured patterns.

Dear Abby: Is Mother's Mind Dirty?

DEAR ABBY: I suppose I am doing something ALONE. I make some excuse to call her down to do something else. I have this theory that sex is total manhood, be it his sister or cousin or anybody else, and I will NEVER go off and leave them together all alone not even for 15 minutes.

Wiretapping Cut Back, Mitchell Says

WASHINGTON (AP) — Atty. Gen. John N. Mitchell said Monday the Nixon administration has used electronic surveillance more sparingly than prior administrations.

"There are fewer taps on now than when we came into office," Mitchell said.

At a wide ranging news conference, Mitchell's first since Jan. 21, he also spoke out for the first time on his role in the controversy surrounding the resignations of Associate Justice Abe Fortas from the Supreme Court.

Mitchell said his only activity in the matter was a meeting widely publicized at the time with Chief Justice Earl Warren. Fortas resigned after disclosure that he had accepted and later returned a \$20,000 fee from the family foundation of financier Louis E. Wolfson.

"Mr. Fortas was never the subject of a Justice Department investigation," Mitchell said.

However, he added, the department did consider the question of possible obstruction of justice in connection with the affair, and that matter "has not been disposed of" yet.

On the subject of wiretapping, Mitchell defended the use of electronic surveillances in matters that affect the internal security of the nation and said he expected the courts to sustain that argument.

Rogers Sees Peacetime Vietnam Aid

WASHINGTON (AP) — Secretary of State William P. Rogers declared Monday the United States is prepared to shift its Vietnamese aid program toward peacetime development if the war can be ended or scaled down in the months ahead.

Rogers testified before the Senate Foreign Relations Committee in support of President Nixon's request for \$2.6 billion for military and economic assistance for the next fiscal year.

Without help from the wealthy powers to the underdeveloped countries, he said, the cold war split between Russia and the West could be followed by a global division between the rich and the poor countries.

The aid program includes \$440 million for economic assistance to South Vietnam.

"In Vietnam," Rogers said, "we are prepared to shift the aid program toward greater emphasis on economic and social development if there is a resolution of the conflict or a significant de-escalation of the war in the months ahead."

U.S. programs to aid Laos and Thailand, Rogers said, are largely "an outgrowth of the hostilities in Vietnam and will depend in form and amount on the course of the war there."

TV To Take Earth's People To The Moon

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston, Tex. (AP) — America will be a country of sleepy people on Monday, July 21, and television will get the blame.

Man's first step on the surface of the moon will be telecast to earth and retransmitted coast to coast for home viewers. The first television show from the moon with live actors will start at 2:12 a.m. on the East Coast and end at about 4:52 a.m., or perhaps later.

That 2 hours and 40 minutes of television probably will have the poorest technical quality of any of the almost five hours of space television planned for Apollo 11. And it also will be the only portion in black and white.

The telecast will begin just before Neil A. Armstrong steps from a ladder on the moon lander to the lunar surface.

As he comes down the ladder, he'll pull a ring which will open the work bench in one side of the moon lander. The television camera is attached to the work bench and will start telecasting immediately.

The camera will catch a view of Armstrong's first step onto the moon, but the astronaut cau-

tioned that the picture probably won't be top quality.

Forty minutes after his first step on the moon, Armstrong will move the television camera from the side of the moon lander, put it on a tripod and set it up about 30 feet away. The field of view will catch all of the activities of Armstrong and Air Force Col. Edwin E. Aldrin Jr.

These will include a view of Armstrong as he plants the American flag on the moon's surface.

Pictures from the camera on the moon are beamed to the National Radio Astronomy Observatory at Parkes, Australia. The signal then goes by microwave to Sydney, Australia.

From there, they are beamed to the Intelsat III satellite in space over the Pacific Ocean. The space center here receives the signals, processes them and releases them to home viewers.

The lunar surface camera transmits only in black and white.

Another Apollo television camera is on the command module, the mother ship which stays in a 69-mile orbit of the moon. This camera, the same type carried on Apollo 10, transmits in color and will be used for all of the Apollo 11 television except the moon surface portion.

The lunar surface television camera will be abandoned on the moon's surface and will be turned off before the launch from the moon. Officials said the television transmission is

impossible during critical periods because of the large amount of critical data that must be transmitted during those periods.

Here is a tentative television schedule, with all times in Eastern Daylight Time:

July 17, 7:32-7:47 p.m., trans-lunar coast, about 150,000 miles from earth.

July 18, 7:32-7:47 p.m., trans-lunar coast, nearing the moon.

July 19, 4:02-4:17 p.m., surface views of the moon from lunar orbit.

July 20, 1:52-2:22 p.m., command module and lunar module flying close to each other after separation.

July 21, 1:57-2:07 a.m., land-

ing site tracking from command module. July 21, 2:12-4:52 a.m., moon surface activities. This is the only telecast in black and white. July 22, 9:02-9:17 p.m., trans-earth coast. July 23, 7:02-7:17 p.m., trans-earth coast.

Phone Booths Locked

BIRMINGHAM, England (AP) — Telephone booths with locks are being installed in city-built apartment houses and each tenant is being given a key. The idea is to frustrate vandals, who damage more than 1,000 public telephones a week in the Birmingham area.

Lunar Television Broadcasts Planned

SPACE CENTER, Houston (AP) — Television broadcasts of man's activity on the moon will be transmitted from the Apollo 11 lunar module, using an umbrella-like antenna placed on the moon's surface.

The signals will be beamed to the radio telescope at the National Radio Astronomy Observatory, Parkes, Australia, for relay via Intelsat 3 Pacific satellite to Houston.

Television transmissions from the command module will be in color, from the lunar module in black and white.

WASHINGTON (AP) — Atty. Gen. John N. Mitchell said Monday the Nixon administration has used electronic surveillance more sparingly than prior administrations.

"There are fewer taps on now than when we came into office," Mitchell said.

At a wide ranging news conference, Mitchell's first since Jan. 21, he also spoke out for the first time on his role in the controversy surrounding the resignations of Associate Justice Abe Fortas from the Supreme Court.

Mitchell said his only activity in the matter was a meeting—widely publicized at the time—with Chief Justice Earl Warren. Fortas resigned after disclosure that he had accepted and later returned a \$20,000 fee from the family foundation of financier Louis E. Wolfson.

"Mr. Fortas was never the subject of a Justice Department investigation," Mitchell said.

However, he added, the department did consider the question of possible obstruction of justice in connection with the affair, and that matter "has not been disposed of" yet.

On the subject of wiretapping, Mitchell defended the use of electronic surveillances in matters that affect the internal security of the nation and said he expected the courts to sustain that argument.

Rogers Sees Peacetime Vietnam Aid

WASHINGTON (AP) — Secretary of State William P. Rogers declared Monday the United States is prepared to shift its Vietnamese aid program toward peacetime development if the war can be ended or scaled down in the months ahead.

Rogers testified before the Senate Foreign Relations Committee in support of President Nixon's request for \$2.6 billion for military and economic assistance for the next fiscal year.

Without help from the wealthy powers to the underdeveloped countries, he said, the cold war split between Russia and the West could be followed by a global division between the rich and the poor countries.

The aid program includes \$440 million for economic assistance to South Vietnam.

"In Vietnam," Rogers said, "we are prepared to shift the aid program toward greater emphasis on economic and social development if there is a resolution of the conflict or a significant de-escalation of the war in the months ahead."

U.S. programs to aid Laos and Thailand, Rogers said, are largely "an outgrowth of the hostilities in Vietnam and will depend in form and amount on the course of the war there."

TV To Take Earth's People To The Moon

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston, Tex. (AP) — America will be a country of sleepy people on Monday, July 21, and television will get the blame.

Man's first step on the surface of the moon will be telecast to earth and retransmitted coast to coast for home viewers. The first television show from the moon with live actors will start at 2:12 a.m. on the East Coast and end at about 4:52 a.m., or perhaps later.

That 2 hours and 40 minutes of television probably will have the poorest technical quality of any of the almost five hours of space television planned for Apollo 11. And it also will be the only portion in black and white.

The telecast will begin just before Neil A. Armstrong steps from a ladder on the moon lander to the lunar surface.

As he comes down the ladder, he'll pull a ring which will open the work bench in one side of the moon lander. The television camera is attached to the work bench and will start telecasting immediately.

The camera will catch a view of Armstrong's first step onto the moon, but the astronaut cau-

tioned that the picture probably won't be top quality.

Forty minutes after his first step on the moon, Armstrong will move the television camera from the side of the moon lander, put it on a tripod and set it up about 30 feet away. The field of view will catch all of the activities of Armstrong and Air Force Col. Edwin E. Aldrin Jr.

These will include a view of Armstrong as he plants the American flag on the moon's surface.

Pictures from the camera on the moon are beamed to the National Radio Astronomy Observatory at Parkes, Australia. The signal then goes by microwave to Sydney, Australia.

From there, they are beamed to the Intelsat III satellite in space over the Pacific Ocean. The space center here receives the signals, processes them and releases them to home viewers.

The lunar surface camera transmits only in black and white.

Another Apollo television camera is on the command module, the mother ship which stays in a 69-mile orbit of the moon. This camera, the same type carried on Apollo 10, transmits in color and will be used for all of the Apollo 11 television except the moon surface portion.

The lunar surface television camera will be abandoned on the moon's surface and will be turned off before the launch from the moon. Officials said the television transmission is

impossible during critical periods because of the large amount of critical data that must be transmitted during those periods.

Here is a tentative television schedule, with all times in Eastern Daylight Time:

July 17, 7:32-7:47 p.m., trans-lunar coast, about 150,000 miles from earth.

July 18, 7:32-7:47 p.m., trans-lunar coast, nearing the moon.

July 19, 4:02-4:17 p.m., surface views of the moon from lunar orbit.

July 20, 1:52-2:22 p.m., command module and lunar module flying close to each other after separation.

July 21, 1:57-2:07 a.m., land-

ing site tracking from command module. July 21, 2:12-4:52 a.m., moon surface activities. This is the only telecast in black and white. July 22, 9:02-9:17 p.m., trans-earth coast.

July 23, 7:02-7:17 p.m., trans-earth coast.

Phone Booths Locked

BIRMINGHAM, England (AP) — Telephone booths with locks are being installed in city-built apartment houses and each tenant is being given a key. The idea is to frustrate vandals, who damage more than 1,000 public telephones a week in the Birmingham area.

Lunar Television Broadcasts Planned

SPACE CENTER, Houston (AP) — Television broadcasts of man's activity on the moon will be transmitted from the Apollo 11 lunar module, using an umbrella-like antenna placed on the moon's surface.

The signals will be beamed to the radio telescope at the National Radio Astronomy Observatory, Parkes, Australia, for relay via Intelsat 3 Pacific satellite to Houston.

Television transmissions from the command module will be in color, from the lunar module in black and white.

State Board Of Education Orders Pupil Ratio Study

COLUMBUS, Ohio (AP)—The State Board of Education, anticipating proposed revisions in minimum standards which would lower the maximum teacher-pupil ratio of 30-to-1, ordered Monday an analysis of the current average.

The Department of Education was asked to report its findings at the board's September meeting.

Chairman Wayne E. Shaffer of Bryan said a subcommittee is considering elimination of art, music and physical education teachers and administrators from the staff count in computing the staff-pupil ratio.

Such a move apparently would be designed to give a more accurate indication of the true ratio.

Board member Donn Force of Columbus said "it's hard to convince a teacher with 35 students in front of her that the school average per class is 30 students."

In other action, the board:

- Approved the transfer of land from the Clay Local School District in Scioto County to the Portsmouth School District. The land had earlier been annexed by Portsmouth.
- Approved the transfer of 79.55 acres of land from the Centerville City School District in Montgomery County to the city of Kettering, which had previously annexed the area.
- Approved the transfer of 40 acres to the Dayton School District from Northridge Local District in Montgomery County. The property had been annexed to the city of Dayton.
- Named Brecksville, Independence, Garfield Heights, Nordinia Hills and Reverse school districts of Summit County as participants in the South Central Cuyahoga County Joint Vocational School District.
- Formed a new school district composed of Hills Local and Buckeye Local in Logan County. The two districts along with Belle Center Local had their charters revoked by the board in May. Belle Center has appealed the board's action and has petitioned to a state referee for reinstatement of its charter.

Youth Really Plugs Dike

WEST ALTON, Mo. (AP)—John J. Buehrle, 19, of St. Charles, upstaged the legendary little Dutch boy Monday. He wedged his entire body into a failing levee and prevented it from collapsing until help arrived.

Buehrle, a Red Cross volunteer, was carrying sandwiches and drink to men patrolling three levees near the confluence of the rain-swollen Missouri and Mississippi rivers when he found a leak.

He called for help and returned to find that the leak had become a six-foot gap with water pouring through it.

The only available object big enough to close the gap was himself, so Buehrle lay down and played human dike until other men rushed in with sandbags.

"As far as I'm concerned, he is a bona fide hero," said Cal Davis, St. Charles County Civil Defense director.

Stamps Are Sent; 'Have A Drink'

ABOARD USS HORNET (AP)—Of the thousands of letters from stamp collectors requesting Apollo 11 commemorative stamps from this recovery ship, one letter stands out.

The letter from Berlin contains several stamps and this message in German: "For helping me out, here are some stamps worth money to any stamp collector. Sell them and have a drink on me."

Plan Meet With Bankers On Inflation

WASHINGTON (AP)—Secretary of the Treasury David M. Kennedy is calling in a second group of bankers in his attempt to cool the nation's growing inflation and head off the possibility of another interest rate increase.

Kennedy announced the chief executive officers of 25 major banks had been invited to meet with him Wednesday morning "to discuss inflation and related problems, including the current high level of interest rates."

A spokesman said the meeting would be similar to Kennedy's first session with the financial leaders. He and federal Reserve Board Chairman William McChesney Martin Jr. met with two dozen representatives of the largest banks July 7.

The spokesman said the Wednesday meeting probably would complete Kennedy's talks with Bankers. He has pledged to meet later with representatives of major corporations.

The two groups of bankers, Treasury said, represent more than 50 per cent of the nation's total commercial bank deposits.

A main purpose of the meetings has been to convince bankers—and the public—that the administration is serious about controlling inflation.

Russians Silent About Purpose Of Luna 15 Trip

MOSCOW (AP)—The Soviet Union maintained silence today on the unmanned spaceship Luna 15 that is expected to reach the moon about the time the U.S. Apollo mission blasts off Wednesday.

Newspapers publishing for the first time since the launching Sunday published the original communiqué but added nothing. Pravda, the only Moscow newspaper published on Monday, did not mention the moon probe today.

The announcement Sunday said Luna 15 would conduct "further scientific exploration of the moon and the space near the moon."

There is considerable speculation that it will try to scoop up samples of the moon's surface and return them to earth, getting the jump on the Apollo 11 astronauts.

Sentenced In Theft

CINCINNATI (AP)—Harley Williams, 41, Miamet, who admitted taking part in the theft of 1,175 cases of gin from an express company truck here was sentenced Monday in U.S. District Court to six months in prison.

Apollo 11 Children Sense History

By MIKE COCHRAN
Associated Press Writer

SPACE CENTER, Houston (AP)—Asked once about his father's profession, the young son of an Apollo astronaut replied that "daddy drives a truck in a sewer."

Another astronaut announced that her father was "up there in the sky flying around in a big, pink balloon."

With disarming disinterest, the astronauts' children somehow usually remain happily oblivious to the whole space flight business.

But this is not the case with most of the children of the moon-bound Apollo 11 astronauts.

Moonship pilot Edwin Aldrin Jr. says his sons, Michael, 13, and Andrew, 11, and daughter, Janice, 12 next month, "all of a sudden realize their father is involved in this endeavor of national importance."

He added, however: "I don't have a tremendous amount of opportunity to sit down and discuss things with the children. We find that just to be able to locate them is an event around the house."

"They're extremely independent. We do try to have family get-togethers whenever we can."

Neil Armstrong, the Apollo 11 commander, says sons Eric, 12, and Mark, 6, "are very enthusiastic" about the moon flight, which begins Wednesday at Cape Kennedy, Fla.

"I think they feel as I do that we have a good chance of achieving the goal and they look forward to us completing it. And they're all very interested . . . They want to know the details of what we're going to do and how we're going to do it."

Mrs. Armstrong says her older son "has always had an avid interest in space, even before his father was chosen as astronaut. When we lived on the West Coast he would get up willingly at 3 or 4 a.m. on launch mornings to watch the preparations on television with his father."

Command pilot Michael Collins says his three children—Kathleen, 10, Ann, 7 and Michael, 6—"are really too young to appreciate the implications of this flight."

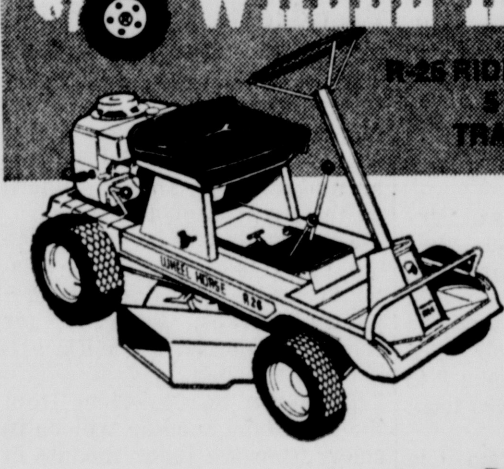

He said he attempted to explain to Michael the "historic import" of the Apollo 8 flight which took three American astronauts around the moon for the first time.

"And he said: 'who's driving?' That's all he wanted to know. You know, the fact that there were, for the first time, human beings around the moon, and all that . . . well, that's way over his head."

"So they think going up in space is sort of nice, but you know, what else is new?"

Protest Planned During Apollo 11 Moon Voyage

CAPE KENNEDY, Fla. (AP) — Marches, prayer vigils and picketing by poor families, some riding mule-drawn wagons, are planned by Negro leaders seeking to dramatize poverty and hunger problems during the Apollo 11 moon voyage.

Protest activities were scheduled to start today, a spokesman said, climaxing Wednesday with the Rev. Ralph David Abernathy's conducting a demonstration at the moment of the launch.

Abernathy, president of Southern Christian Leadership Conference (SCLC), says the Cape Kennedy demonstrations are part of the Poor People's Campaign launched last year by Dr. Martin Luther King Jr. before his assassination.

Hosea Williams, SCLC's "hunger phase" coordinator, said at a Monday news conference the demonstrations are not in opposition to space exploration or the moon flight. "Our purpose for being here is to protest America's inability to choose humane priorities," he said.

Mrs. Horace Heidt Wins Settlement

LOS ANGELES (AP) — "He said he did not love me and did not wish to be married to me—and this made me sick a good deal of the time," said Horace Heidt's fourth wife in winning a default divorce from the 69-year-old bandleader.

The couple married in 1963 and separated last Oct. 18. They have no children.

A property agreement made Monday in Superior Court provides Dorothy Heidt, 46, with \$10,000 in cash, \$1,034.91 monthly alimony for two years, then \$833.33 monthly until 1974.

2 Slayers Sought

Close Games Top Mosquito League Play

In Mosquito League action Monday night, FOPA dumped Hummel and Plum, 18-12, and Block's sneaked by Circle Auto Parts, 5-3.

The policemen won their second tilt in five starts while Hummel and Plum is 1-3 for the season. Block's is in second place in the league with a 4-2 record and trails Mac's and PPG who have perfect 4-0 records.

Kevin Woltz was FOPA's player of the night. He was the winning pitcher whiffing 12, walking 10 and giving up 12 hits. Woltz also hit a grand slam homer for the policemen.

Larry Pontious, Jim Edgington, and John Dean hit doubles for the winners. Dave Conrad tapped a double for Hummel and Plum while Cline hit a two run homer in the third inning.

BOB Bevins was the losing pitcher for Hummel and Plum. Bevins whiffed 12, walked 14 and allowed 12 hits.

Hummel and Plum scored two in the first, three each in the third and fourth innings, and four in the fifth stanza.

FOPA copped six markers in the first, four in the third, and tapped eight in the fourth to win the tilt. Hummel and Plum's 12 runs came on 12 hits and the policemen's 18 runs came with 12 taps.

FOPA's next game is with Block's and Hummel and Plum meets Barnhill's Thursday.

Block's was the first to score in the Mosquito League pitching duel of the night with two runs in the third inning. Circle Auto Parts came back in the bottom of the inning with their only three runs of the tilt while Block's scored three in the top of the fourth to win 5-3.

Bob Chaffin and Mike Wickline hit doubles for the winners while Scott Willoughby's double was the only extra base hit for CAP.

WICKLINE started on the mound for the winners but was relieved in the fourth inning by Mancini who finished the tilt.

Willoughby hurled the first four innings for Circle Auto and was relieved by Mark Albright.

Albright went three for three in the hitting department while Bruce Carter tapped four hits in as many times to the plate.

Circle Auto Part's next game is with Hill Implement Wednesday.

A. L. ALL-STAR TEAM—Here's the starting lineup of the American League team in the 1969 All-Star Baseball Game in the Robert F. Kennedy Memorial Stadium in Washington, Tuesday, July 22. Top row, from left: outfielders Reggie Jackson, Frank Howard and Frank Robinson, shortstop Rico Petrocelli. Lower row, same order: catcher Bill Freehan, first baseman Boog Powell, second baseman Rod Carew, third baseman Sal Bando.

Minnesota Edges Sox, 4-3

By HAL BOCK

Associated Press Sports Writer
It took awhile to accomplish, but then most good things do. So the Minnesota Twins didn't mind working a little overtime Monday night to keep their winning streak intact.

The Twins seemed headed for an end to their five-game streak until Bob Allison tagged his second home run of the night to the Chicago 2-2 in the ninth. The White Sox pushed across a run in the 12th and again Minnesota was in jeopardy but Cesar Tovar's two-out double tied it again.

By this time Chicago was beginning to get the message and the Sox went quietly in the 14th on consecutive singles by Tony Oliva, Allison and Leo Cardenas.

The 4-3 victory added one-half game to Minnesota's American League West Division lead over idle Oakland. The Twins now hold a five-game lead.

In other American League action Monday, Washington shut-out Detroit 3-0 and California blanked Kansas City 2-0. The other teams were not scheduled.

Allison, who had four hits for the night, blasted his 250th career homer in the second inning. But Chicago tied it in the fourth

on singles by Gail Hopkins, Pete Ward and Ed Herrmann and then took the lead in the eighth on Hopkins' RBI double.

Allison tied it again in the ninth. Then Bobby Knoop's run-scoring single sent Chicago back in front in the 12th and

in the first two Twins went out in the bottom half, things did not look promising for Billy Martin's club.

But pinch hitter Rod Carew beat out a bunt and then circled the bases on Tovar's two-bagger. In the 14th, the twins wast-

ed no time, stringing consecutive hits by Oliva, Allison and Cardenas to end it.

Both Joe Coleman of the Senators and George Brunet of the Angels hurled a second consecutive shutout.

Coleman allowed Detroit just five singles, struck out nine and drove in a pair of runs with a double and a bases-loaded walk. Bases on balls kept Detroit's Joe Sparna in constant trouble.

Brunet permitted Kansas City just two hits and got all the runs he needed on Jay Johnstone's two-run homer in the sixth inning. Until Johnstone connected, Brunet and the Royals' Roger Nelson were locked in a scoreless pitching duel.

Coleman allowed Detroit just five singles, struck out nine and drove in a pair of runs with a double and a bases-loaded walk. Bases on balls kept Detroit's Joe Sparna in constant trouble.

Brunet permitted Kansas City just two hits and got all the runs he needed on Jay Johnstone's two-run homer in the sixth inning. Until Johnstone connected, Brunet and the Royals' Roger Nelson were locked in a scoreless pitching duel.

Stoneman scattered eight hits for his fifth victory against 12 setbacks.

May, chasing Roberto Clemente's wide throw in the third slipped on the gravel in front of the Montreal dugout and fell heavily, bruising his left thigh. After surviving the ambulance mishap, he was held overnight in St. Elizabeth's hospital for observation.

Bill Hands, given last out relief help by Phil Regan, beat Met ace Tom Seaver in a brilliant duel at Chicago. Billy Williams driving in the game's only run with a sixth inning single.

Hands, 11-7, who posted the Cubs' lone victory in a three-game set at New York last week, checked the Mets on six hits before giving way to Regan

Davis was the losing pitcher. He was relieved after Pickaway scored two runs in the third inning by Vanover.

Marshall went all the way for Washington. He whiffed 15, allowed one hit in the second inning and did not walk a single batter.

Marshall aided his own cause with two hits. Tim Justus also had two hits for the winners. Marshall has a 6-0 record for the year.

Montreal '9' Whips Fading Pirates, 2-0

By DICK COUCH

Associated Press Sports Writer
Big Bob Veale has thrown Pittsburgh's first pitch in 20 ball games this year...and the last pitch in one.

Pirates catcher Jerry May probably wishes he had it so good.

The Montreal Expos drove Veale from the mound during a two-run eighth inning breakthrough Monday night and trimmed the fading Pirates 2-0 behind right-hander Bill Stoneman.

Veale, 4-11, has failed to finish 19 consecutive starts since April 9, when he went the distance against St. Louis in the Pirates' second game of the season.

May, who caught Veale's first pitch against the Expos, caught nothing but trouble thereafter. He was forced out of the game with a severely bruised thigh in a third inning mishap, then shaken up again when the ambulance transporting him to a Montreal hospital was involved in a collision.

Tony Bartirome, the club trainer, suffered minor lacerations in the road accident.

Pirates Manager Larry Shepard, meanwhile, remained in a St. Louis hospital, where he was taken Sunday after complaining of chest pains during the first game of a doubleheader against the Cardinals.

In Thursday's only other National League action, the Chicago Cubs increased their East Division lead over New York to 5½ games by nipping the Mets 1-0 and the Los Angeles Dodgers moved one game ahead of idle Atlanta in the West with a 4-1 victory over Houston.

Veale duelled Stoneman to a standoff until the Expos struck in the eighth. Bob Bailey's infield hit and singles by Coco Laboy and Jose Herrera produced one run and a walk to Adolfo Phillips finished Veale. Ron Brand then delivered an insurance run with a single off reliever Bob Moose.

Stoneman scattered eight hits for his fifth victory against 12 setbacks.

May, chasing Roberto Clemente's wide throw in the third slipped on the gravel in front of the Montreal dugout and fell heavily, bruising his left thigh. After surviving the ambulance mishap, he was held overnight in St. Elizabeth's hospital for observation.

Bill Hands, given last out relief help by Phil Regan, beat Met ace Tom Seaver in a brilliant duel at Chicago. Billy Williams driving in the game's only run with a sixth inning single.

Hands, 11-7, who posted the Cubs' lone victory in a three-game set at New York last week, checked the Mets on six hits before giving way to Regan

Davis was the losing pitcher. He was relieved after Pickaway scored two runs in the third inning by Vanover.

Marshall went all the way for Washington. He whiffed 15, allowed one hit in the second inning and did not walk a single batter.

Marshall aided his own cause with two hits. Tim Justus also had two hits for the winners. Marshall has a 6-0 record for the year.

Another Round Scheduled For Namath-Rozelle

HEMPSTEAD, N.Y. (AP) — The Joe Namath case has taken another strange turn with pro football Commissioner Pete Rozelle agreeing to discuss the situation with veteran members of the world champion New York Jets.

The big question today was which member of the Big Two involved in pro football's biggest controversy would reach the site of the Jets' camp here — Rozelle or Namath, the shaggy-haired quarterback who may or may not already be en route here.

Namath received permission Sunday from Coach Weeb Ewbank to report late and said he would "get back" to him either Tuesday night or Wednesday. Whether that meant Namath would contact Ewbank in person or by phone remained a question.

Rozelle, meanwhile, confirmed late Monday night that he had agreed earlier in the day to a command performance at the Jets' camp presumably to present his side of the issues involved in the Namath dispute.

No date has as yet been set, although indications are that it will not be held until late in the week.

The Namath case, of course, revolves around the quarterback's restaurant, reportedly frequented by gamblers.

Rozelle ordered Namath to sell his interest in the East Side night spot or face suspension but Namath refused and announced his retirement five weeks ago.

It has been speculated that Namath eventually will appear at camp but what his intentions are remain unknown. Should he appear and either renounce his retirement or put on a uniform for a workout, he likely would be suspended by Rozelle.

First word of the meeting with Rozelle came from defensive back Johnny Sample, team

Three Logan Elm High School students grabbed honors in the Central Ohio Junior Olympics held Saturday at Brookhaven High School, Columbus.

In the 14 to 15-year-old age bracket, Theresa Kerns won first place in the shotput event.

Susan Reichelderfer took third place in the 100-yard dash.

Amy West won third place in the broad jump and fourth place in the high jump.

IN addition, Susan and Amy and two other girls from the Ohio Track Club finished second in the 440-yard relay.

Gold, silver and bronze medals will be presented to the girls later.

Pitching Staff Weighted On NL Side Of All - Star Tilt

CINCINNATI (AP) — St. Louis Cardinal Manager Red Schoendienst will have plenty of pitchers when he tries for another National League victory in the annual major league All-Star Game on July 22—he named nine today to the squad.

The American League team will go with eight hurlers.

Little League Day Set At Cleveland; Free Admission

Little League Day at Cleveland Stadium is set for Saturday, August 9, when the Indians meet the Kansas City Royals in a game starting at 4 p.m.

The parade of Little Leaguers will start at 3 p.m. and all players, coaches and managers will be admitted free of charge. The teams must report to Gate C before 3 p.m. All teams are asked to be in uniform.

League officials are required to notify the Indians Public Relations Office of the number of players, managers, coaches, etc. who will attend the game. The address is Public Relations Office, Cleveland Indians, Cleveland, Ohio 44114.

Schoendienst named six right-handers. They, and their records going into Monday night's games, will be: Larry Dierker, Houston, 12-6; Bob Gibson, St. Louis, 11-7; Juan Marichal, San Francisco, 11-3; Phil Niekro, Atlanta, 14-7; Tom Seaver, New York 14-3, and Bill Singer, Los Angeles, 12-7.

The three left-handers selected are Steve Carlton, St. Louis 11-5; Grant Jackson, Philadelphia, 9-8, and Jerry Koosman, New York, 7-5.

The nine hurlers have a combined won-and-lost record of 101-51.

Only Niekro, Dierker, Singer and Jackson are newcomers to an All-Star squad.

The senior member, of course, is Marichal, who was picked for the eighth time. He has pitched 16 innings in seven such games, allowed seven hits and one earned-run for a 0.56 ERA.

He was the winning pitcher in 1962 in the All-Star game played in Washington—also the scene of this year's contest. Last year he paced the league in victories with a 26-9 mark and also led in complete games with 30.

Gibson is next in All-Star seniority. This was the sixth time for him to be selected. In three pitching performances he has allowed only one earned run in six innings.

Seaver has been named to the squad every year since making good with the Mets three seasons ago. He pitched the 15th and final inning in the 1967 game when the Nationals won 2-1 in the longest game in All-Star history.

Carlton and Koosman are two-timers on the squad and both appeared briefly in the 1968 game. Carlton pitched one inning and Koosman a third of an inning as the Nationals won at Houston 1-0.

Truex's 1-Hit Pitching Wins For DuPont

Dave Truex fired a one-hitter to pace DuPont to a 3-1 Babe Ruth League win over Lindsey's Bakery.

The lone Lindsey hit and run came in the fourth inning when Jim Ramey hit a fly ball between second base and right field.

Truex fanned eight batters and walked 12.

Greg Hoskins suffered the loss. He tossed a four-hitter, fanning four and walking five.

Coke pitchers gave up nine hits, while walking six and fanning seven.

Tourney Team Tabbed

Managers of the Teays Valley Youth Baseball League selected players to participate in the Chillicothe Little League Tournament in August.

They are David Barr, Charles Cordie, Jack Derr, Chuck Glitt, Bruce Haines, Jim Jenkins, Mark Messick, Craig Pettibone, Keith Pettibone, Kevan Pettibone, Mark Singleton, Bruce Wharton and Steve Williams.

Close Games Top Mosquito League Play

In Mosquito League action Monday night, FOPA dumped Hummel and Plum, 18-12, and Block's sneaked by Circle Auto Parts, 5-3.

The policemen won their second tilt in five starts while Hummel and Plum is 1-3 for the season. Block's is in second place in the league with a 4-2 record and trails Mac's and PPG who have perfect 4-0 records.

Kevin Woltz was FOPA's player of the night. He was the winning pitcher whiffing 12, walking 40 and giving up 12 hits. Woltz also hit a grand slam homer for the policemen.

Larry Pontious, Jim Edgington, and John Dean hit doubles for the winners. Dave Conrad tapped a double for Hummel and Plum while Cline hit a two run homer in the third inning.

Bob Bevins was the losing pitcher for Hummel and Plum. Bevins whiffed 12, walked 14 and allowed 12 hits.

Hummel and Plum scored two in the first, three each in the third and fourth innings, and four in the fifth stanza.

FOP copped six markers in the first, four in the third, and tapped eight in the fourth to win the tilt. Hummel and Plum's 12 runs came on 12 hits and the policemen's 18 runs came with 12 taps.

FOPA's next game is with Block's and Hummel and Plum meets Barnhill's Thursday.

Block's was the first to score in the Mosquito League pitching duel of the night with two runs in the third inning. Circle Auto Parts came back in the bottom of the inning with their only three runs of the tilt while Block's scored three in the top of the fourth to win 5-3.

Bob Chaffin and Mike Wickline hit doubles for the winners while Scott Willoughby's double was the only extra base hit for CAP.

WICKLINE started on the mound for the winners but was relieved in the fourth inning by Mancini who finished the tilt.

Willoughby hurled the first four innings for Circle Auto and was relieved by Mark Albright.

Albright went three for three in the hitting department while Bruce Carter tapped four hits in as many times to the plate.

Circle Auto Part's next game is with Hill Implement Wednesday.

A. L. ALL-STAR TEAM—Here's the starting lineup of the American League team in the 1969 All-Star Baseball Game in the Robert F. Kennedy Memorial Stadium in Washington, Tuesday, July 22. Top row, from left: outfielders Reggie Jackson, Frank Howard and Frank Robinson, shortstop Rico Petrocelli. Lower row, same order: catcher Bill Freehan, first baseman Boog Powell, second baseman Rod Carew, third baseman Sal Bando.

Minnesota Edges Sox, 4-3

By HAL BOCK
Associated Press Sports Writer
It took awhile to accomplish, but then most good things do. So the Minnesota Twins didn't mind working a little overtime Monday night to keep their winning streak intact.

The Twins seemed headed for an end to their five-game streak until Bob Allison tagged his second home run of the night to the Chicago 2-2 in the ninth. The White Sox pushed across a run in the 12th and again Minnesota was in jeopardy but Cesar Tovar's two-out double tied it again.

By this time Chicago was beginning to get the message and the Sox went quietly in the 14th on consecutive singles by Tony Oliva, Allison and Leo Cardenas.

The 4-3 victory added one-half game to Minnesota's American League West Division lead over idle Oakland. The Twins now hold a five-game lead.

In other American League action Monday, Washington shut-out Detroit 3-0 and California blanked Kansas City 2-0. The other teams were not scheduled.

Allison, who had four hits for the night, blasted his 250th career homer in the second inning. But Chicago tied it in the fourth

on singles by Gail Hopkins, Pete Ward and Ed Herrmann and then took the lead in the eighth on Hopkins' RBI double. Allison tied it again in the ninth. Then Bobby Knoop's run-scoring single sent Chicago back in front in the 12th and

when the first two Twins went out in the bottom half, things did not look promising for Billy Martin's club.

But pinch hitter Rod Carew beat out a bunt and then circled the bases on Tovar's two-bagger. In the 14th, the twins wast-

ed no time, stringing consecutive hits by Oliva, Allison and Cardenas to end it.

Both Joe Coleman of the Senators and George Brunet of the Angels hurled a second consecutive shutout.

Coleman allowed Detroit just five singles, struck out nine and drove in a pair of runs with a double and a bases-loaded walk. Bases on balls kept Detroit's Joe Sparna in constant trouble.

Brunet permitted Kansas City just two hits and got all the runs he needed on Jay Johnstone's two-run homer in the sixth inning. Until Johnstone connected, Brunet ad the Royals' Roger Nelson were locked in a scoreless pitching duel.

Stoneman scattered eight hits for his fifth victory against 12 setbacks.

May, chasing Roberto Clement's wide throw in the third slipped on the gravel in front of the Montreal dugout and fell heavily, bruising his left thigh. After surviving the ambulance mishap, he was held overnight in St. Elizabeth's hospital for observation.

Bill Hands, given last out relief help by Phil Regan, beat Met ace Tom Seaver in a brilliant duel at Chicago. Billy Williams driving in the game's only run with a sixth inning single.

Hands, 11-7, who posted the Cubs' lone victory in a three-game set at New York last week, checked the Mets on six hits before giving way to Regan.

Davis was the losing pitcher. He was relieved after Pickaway scored two runs in the third inning by Vanover.

Marshall went all the way for Washington. He whiffed 15, allowed one hit in the second inning and did not walk a single batter.

Marshall aided his own cause with two hits. Tim Justus also had two hits for the winners. Marshall has a 6-0 record for the year.

with two out in the ninth, a runner on first and a 2-0 count on pinch hitter Donn Clendenon.

The Cub bullpen ace ran the count to 3-2 before Clendenon lined to second baseman Glenn Beckert, who made a leaping catch.

Seaver, 14-4, who hurled a one-hitter against the Cubs at New York and had won eight straight decisions, matched

Hands until the sixth, when Donn Kessinger beat out a bunt, took second on Beckert's hit-and-run ground out and zipped across on Williams' hit to left center.

Wes Parker broke a 1-1 tie at Houston with a fourth inning homer and doubled in the ninth to launch a two-run wrapup burst. He also drove in the Dodgers' first run with a sacrifice fly.

Another Round Scheduled For Namath - Rozelle

HEMPSTEAD, N.Y. (AP) — The Joe Namath case has taken another strange turn with pro football Commissioner Pete Rozelle agreeing to discuss the situation with veteran members of the world champion New York Jets.

The big question today was which member of the Big Two involved in pro football's biggest controversy would reach the site of the Jets' camp here — Rozelle or Namath, the shaggy-haired quarterback who may or may not already be en route here.

Namath received permission Sunday from Coach Weeb Ewbank to report late and said he would "get back" to him either Tuesday night or Wednesday. Whether that meant Namath would contact Ewbank in person or by phone remained a question.

Rozelle, meanwhile, confirmed late Monday night that he had agreed earlier in the day to a command performance at the Jets' camp presumably to present his side of the issues involved in the Namath dispute. No date has as yet been set, although indications are that it will not be held until late in the week.

The Namath case, of course, revolves around the quarterback's restaurant, reportedly frequented by gamblers.

Rozelle ordered Namath to sell his interest in the East Side night spot or face suspension but Namath refused and announced his retirement five weeks ago.

It has been speculated that Namath eventually will appear at camp but what his intentions are remain unknown. Should he appear and either renounce his retirement or put on a uniform for a workout, he likely would be suspended by Rozelle.

First word of the meeting with Rozelle came from defensive back Johnny Sample, team

co-captain along with Namath, after he emerged from an 8 p.m. meeting with veteran team members held in the Jets dressing room on the Hofstra University campus.

"Weeb talked to the commissioner, and he told Weeb he was going to come out here to talk to the team," said Sample, adding: "We don't want him (Rozelle) to send no secretary or no FBI man. We want him."

Sample then went back to the dormitories where the players are housed and phoned Namath, presumably to fill him in on developments.

Rozelle, from his apartment in New York, confirmed that he had agreed to talk to a committee of players.

Pitching Staff Weighted On NL Side Of All - Star Tilt

CINCINNATI (AP) — St. Louis Cardinal Manager Red Schoendienst will have plenty of pitchers when he tries for another National League victory in the annual major league All-Star Game on July 22—he named nine today to the squad. The American League team will go with eight hurlers.

Little League Day Set At Cleveland; Free Admission

Little League Day at Cleveland Stadium is set for Saturday, August 9, when the Indians meet the Kansas City Royals in a game starting at 4 p.m.

The parade of Little Leaguers will start at 3 p.m. and all players, coaches and managers will be admitted free of charge. The teams must report to Gate C, before 3 p.m. All teams are asked to be in uniform.

League officials are required to notify the Indians Public Relations Office of the number of players, managers, coaches, etc. who will attend the game. The address is Public Relations Office, Cleveland Indians, Cleveland, Ohio 44114.

Schoendienst named six right-handers. They, and their records going into Monday night's games, will be: Larry Dierker, Houston, 12-6; Bob Gibson, St. Louis, 11-7; Juan Marichal, San Francisco, 11-3; Phil Niekro, Atlanta, 14-7; Tom Seaver, New York 14-3, and Bill Singer, Los Angeles, 12-7.

The three left-handers selected are Steve Carlton, St. Louis 11-5; Grant Jackson, Philadelphia, 9-8, and Jerry Koosman, New York, 7-5.

The nine hurlers have a combined won-and-lost record of 101-51.

Only Niekro, Dierker, Singer and Jackson are newcomers to an All-Star squad.

The senior member, of course, is Marichal, who was picked for the eighth time. He has pitched 16 innings in seven such games, allowed seven hits and one earned-run for a 0.56 ERA.

He was the winning pitcher in 1962 in the All-Star game played in Washington—also the scene of this year's contest. Last year he paced the league in victories with a 26-9 mark and also led in complete games with 30.

Gibson is next in All-Star seniority. This was the sixth time for him to be selected. In three pitching performances he has allowed only one earned run in six innings.

Seaver has been named to the squad every year since making good with the Mets three seasons ago. He pitched the 15th and final inning in the 1967 game when the Nationals won 2-1 in the longest game in All-Star history.

Carlton and Koosman are two-timers on the squad and both appeared briefly in the 1968 game. Carlton pitched one inning and Koosman a third of an inning as the Nationals won at Houston 1-0.

Truex's 1-Hit Pitching Wins For DuPont

Dave Truex fired a one-hitter to pace DuPont to a 3-1 Babe Ruth League win over Lindsey's Bakery.

The lone Lindsey hit and run came in the fourth inning when Jim Ramey hit a fly ball between second base and right field.

Truex fanned eight batters and walked 12.

Greg Hoskins suffered the loss. He tossed a four-hitter, fanning four and walking five.

Mrs. Maletta:

"It's so clean. And our bills have been low. We're pleased about that."

6340 Havens Road
Blacklick, Ohio

Mrs. Kletrovetz:

"I like it because it's so even."
"We don't put a sweater on! We're always comfortable."

2625 Bixby Road
Groveport, Ohio

Mrs. Hale:

"We have baseboard electric heating with individual room thermostats. Everyone can be comfortable."

100 Ashcraft Drive
Pataskalia, Ohio

ELECTRIC HEATING! Right for them, right for you, too.

"We're well pleased with electric heating." Plain words. Strong words. Expressed by Charles Kletrovetz, Sr., but reflecting the opinion of others. They agree it's clean. Because it is! Clean as electric lighting. They like its low maintenance requirements, and are pleased with its reasonable operating cost. Aren't these the qualities YOU want in home heating? The Kletrovetz, the Malettas and the Hales are just three of the more than 2,300 home owners in our service area who heat the clean flameless electric way.

If you plan to build a new home or remodel your present home, get the facts. Talk with your recommended electric heating dealer, or return the self-addressed postage paid card in your July bill insert.

In Memoriam

In loving memory of Donald E.
Rader who passed away 10 years
ago today, July 15, 1959.
You are not forgotten loved one
Nor will you ever be
As long as life and memory last
We will remember thee
We miss you now, our hearts are
sore
As time goes by, we miss you more.
Your loving smile, your gentle face
No one can fill your vacant place.
Sadly missed by children and wife

1. Card of Thanks

We humbly thank every one for
the expression of sympathy and
beautiful floral offerings so
generously given by relatives,
friends and neighbors. All has been
a comforting light in the darkness
left by the recent loss of our wife
and mother, Elizabeth C. Dresbach.
Special thanks to Dr. McCoy for
his wonderful service, Rev. S.
Metzler for his special words of
comfort, to Rev. Carl Butterbaugh
for singing and the Mader Funeral
Home for their efficient service,

Bengals Concentrate On Air Attack

By HAL PARIS
Associated Press Sports Writer
WILMINGTON, Ohio (AP) — Coach Paul Brown makes no bones about his desire to convert the Cincinnati Bengals into a pass-happy football team. "You can't win in professional football without a strong passing attack," the veteran coach said. Last year, as the expansion club in the American Football League, the Bengals finished 3-11 and a sputtering passing game cost Cincinnati several close contests.

Brown compares his 1968 offense to a clever boxer who utilizes an in-fighting style to wear out his opponent. "We weren't like the big hitter who looks for a knockout punch. A good passing game could provide us with that knockout punch."

"We ran the ball more than we wanted to last year. We certainly would like to throw the ball at least 55 per cent of the time."

Brown earned a reputation as a passing coach when he built the Cleveland Browns into a football dynasty with Otto Graham at the helm.

Brown admits he has no one who looks like Joe Namath but figures his quarterbacking is adequate with veterans Sam Wyche, John Stof and Dewey Warren returning and rookie Greg Cook of Cincinnati in summer camp.

The strategy appears to be in building a strong corps of receivers who can use sheer speed to find daylight.

Top Bengal receivers include Bob Trumpy, Warren McVea and Eric Crabtree, recently obtained from Denver in a trade for fullback Tom Smiley.

But Brown is counting on three swift rookies to give the Bengals an explosive quality.

They are Speedy Thomas, the club's third round draft choice from Utah; Chuck Benson, a 13th round pick from Southern Illinois and Tommie Smith, an Olympic track champion from San Jose.

Brown and the Bengals are aware of Thomas' credentials since he was outstanding at Utah. But Benson and Smith have no college football experience.

"The key is how these young men use their hands," Brown

noted. "We know Thomas has unusual hands and is a great athlete. Benson is a great long and high jumper and Smith can run with anyone."

First, Second Banks Win Minor Tilts

First National Bank continued its winning ways in the Little League minor circuit, clouting Rotary 14-4 and Second National Bank stopped Circleville Oil 12-5 Monday at Ted Lewis Park.

The First Bankers have compiled eight straight wins without a defeat. Rotary is 0-7.

Jerry Strawser was the winning pitcher, scattering five hits. He fanned 10 batters.

Jeff Funk suffered the loss, allowing 11 hits and fanning 11.

Pickaway Defeats Stoutsville In Tri County Minor Tilt

Tim Fouch's run-scoring single in the bottom of the sixth inning provided the margin of victory as Pickaway DuPont stopped Stoutsville 7-6 Monday in Tri County Little League Minors.

Fouch added a double, David Palmer had a double and a single, Jeff Collins had two singles and winning pitcher Tony Crist collected two singles for Pickaway.

Stoutsville's hitting attack was paced by a triple by Holbrook, Hartley and Foster added doubles.

Stoutsville's Kevin Kerns turned in an unassisted double play.

Local Merchants Win First Round Of Softball League

The Circleville Merchants topped Logan Elm Village Sunday 12-10 in a play-off for the first round title of the Slow Pitch League. Earlier in the afternoon, the Merchants downed DuPont A Shift, 18-4.

Jerry Collins led off the Logan Elm tilt with a homerun and the Merchants were never headed.

Bill Smith was three for four at the plate, Dave Justice, Don Rowland and Bob Caudill were each two for four at the plate and Norm McClelland was two for three.

Bob Caudill was the winning pitcher.

In the Merchants' win over DuPont, Roger Haughey was three for five at the plate with a homerun. Bob Weffer went four for four and Neil Kerns was three for four. Dave Justice cracked a homerun.

Local Swimmers In Two-Day Meet

In the first day of the two day Lancaster Invitational Swim Meet, Circleville swimmers placed fourth in the boys 12 and under 200 meter medley relay, fifth in the boys 12 and under 200 meter freestyle relay, fifth in the boys 12 and under 50 meter breaststroke and sixth in the boys 12 and under 50 meter backstroke.

Placing fifth in the 50 meter breaststroke was Jorge Cook. Steve Penn placed sixth in the 50 meter backstroke.

The medley relay team consisted of Penn, Mike Lawter, Mike Sparks and Dave Resler. The freestyle relay team consisted of Penn, Sparks, Resler and John Stout.

Kochheiser 9 Cops Pony Tilt

Kochheiser's slipped by the Savings Bank, 7-6, in the only Pony League action of the night.

Kochheiser is now 2-3 for the season while the Savings Bank has a 1-4 record.

Terry Rooney wielded the big bat for the losers with a homer which was the only extra base hit for the bankers.

Rooney went the whole tilt on the mound allowing four hits and ten bases on balls while fanning 12.

ROGER Karr was the big hitter for Kochheiser's with a triple and a double in three trips to the plate. Paul Pontious slammed a triple and Tim Brown popped a double to round out the winners attack.

Brown was the winning pitcher giving up nine hits and no bases on balls while whiffing nine.

Mace Drives Winner At Scioto Downs

Popular Demand, driven by Jim Mace and trained by Emmitt Ebenhack, won the second race at Scioto Downs Monday night.

The horse paid \$14.80, \$7.40 and \$3.60 to win and combined with Lycera, winner of the first race, to pay \$187.20 for the daily double.

In the sixth race, Rosabel, trained and owned by Wendell Kirk, finished second, nosing out Saunderson's Echo, trained by Jim Arledge and owned by Darwin Edwards and William A. Buckler, Orient, who finished third.

Rosabel paid \$5.80 and \$3.40 and Saunderson's Echo paid \$3.40.

In the eighth race, Aleta Long, driven and trained by Forrest Short, finished third to pay \$5.20.

Bengals Concentrate On Air Attack

By HAL PARIS
Associated Press Sports Writer
WILMINGTON, Ohio (AP) — Coach Paul Brown makes no bones about his desire to convert the Cincinnati Bengals into a pass-happy football team.

"You can't win in professional football without a strong passing attack," the veteran coach said.

Last year, as the expansion club in the American Football League, the Bengals finished 3-11 and a sputtering passing game cost Cincinnati several close contests.

Mace Drives Winner At Scioto Downs

Popular Demand, driven by Jim Mace and trained by Emmitt Ebenhack, won the second race at Scioto Downs Monday night.

The horse paid \$14.80, \$7.40 and \$3.60 to win and combined with Lycra, winner of the first race, to pay \$187.20 for the daily double.

In the sixth race, Rosabel, trained and owned by Wendell Kirk, finished second, nosing out Saunders's Echo, trained by Jim Arledge and owned by Darwin Edwards and William A. Buckler, Orient, who finished third.

Rosabel paid \$5.80 and \$3.40 and Saunders's Echo paid \$3.40.

In the eighth race, Alela Long, driven and trained by Forrest Short, finished third to pay \$5.20.

Brown compares his 1968 offense to a clever boxer who utilizes an in-fighting style to wear out his opponent. "We weren't like the big hitter who looks for a knockout punch. A good passing game could provide us with that knockout punch."

"We ran the ball more than we wanted to last year. We certainly would like to throw the ball at least 55 per cent of the time."

Brown earned a reputation as a passing coach when he built the Cleveland Browns into a football dynasty with Otto Graham at the helm.

Brown admits he has no one who looks like Joe Namath but figures his quarterbacking is adequate with veterans Sam Wyche, John Stof and Dewey Warren returning and rookie Greg Cook of Cincinnati in summer camp.

The strategy appears to be in building a strong corps of receivers who can use sheer speed to find daylight.

Top Bengal receivers include Bob Trumpy, Warren McVea and Eric Crabtree, recently obtained from Denver in a trade for fullback Tom Smiley.

But Brown is counting on three swift rookies to give the Bengals an explosive quality.

They are Speedy Thomas, the club's third round draft choice from Utah; Chuck Benson, a 13th round pick from Southern Illinois and Tommie Smith, an Olympic track champion from San Jose.

Brown and the Bengals are aware of Thomas' credentials since he was outstanding at Utah. But Benson and Smith have no college football experience.

"The key is how these young men use their hands," Brown

noted. "We know Thomas has unusual hands and is a great athlete. Benson is a great long and high jumper and Smith can run with anyone."

First, Second Banks Win Minor Tilts

First National Bank continued its winning ways in the Little League minor circuit, clouting Rotary 14-4 and Second National Bank stopped Circleville Oil 12-5 Monday at Ted Lewis Park.

The First Bankers have compiled eight straight wins without a defeat. Rotary is 0-7.

Jerry Strawser was the winning pitcher, scattering five hits. He fanned 10 batters.

Jeff Funk suffered the loss, allowing 11 hits and fanning 11.

FRANK Merrill powered two homers for First National. Mike Cassill added a triple and a double and Dale Donner had two doubles.

Gary Karr tagged a homerun for Rotary.

Second National Bank brought its record to 3-5 and dropped Circleville Oil to 2-5 with the win.

Keith Sanders and Kyle Thomas split the pitching chores for the winners. They limited the oilers to five hits. Sanders fanned five and Thomas struck out six.

The Bankers scored three runs in the third inning, allowing Circleville Oil two. Second National added a single run in the fourth and fifth innings, while the Oilers tied the game with two in the fourth frame and one in the fifth. A seven run Bank rally in the sixth provided the win.

Bryon Edgington was the losing hurler, allowing 14 hits. He walked nine batters and fanned six.

Local Swimmers In Two-Day Meet

In the first day of the two day Lancaster Invitational Swim Meet, Circleville swimmers placed fourth in the boys 12 and under 200 meter medley relay, fifth in the boys 12 and under 200 meter freestyle relay, fifth in the boys 12 and under 50 meter breaststroke and sixth in the boys 12 and under 50 meter backstroke.

Placing fifth in the 50 meter breaststroke was Jorge Cook. Steve Penn placed sixth in the 50 meter backstroke.

The medley relay team consisted of Penn, Mike Lawter, Mike Sparks and Dave Resler. The freestyle relay team consisted of Penn, Sparks, Resler and John Stout.

Kochheiser 9 Cops Pony Tilt

Kochheiser's slipped by the Savings Bank, 7-6, in the only Pony League action of the night.

Kochheiser is now 2-3 for the season while the Savings Bank has a 1-4 record.

Terry Rooney wielded the big bat for the losers with a homer which was the only extra base hit for the bankers.

Rooney went the whole tilt on the mound allowing four hits and ten bases on balls while fanning 12.

ROGER Karr was the big hitter for Kochheiser's with a triple and a double in three trips to the plate. Paul Pontious slammed a triple and Tim Brown popped a double to round out the winners attack.

Brown was the winning pitcher giving up nine hits and no bases on balls while whiffing nine.

The 25-year-old Smith played high school football but is noted for his track exploits. He set the world record of 19.8 seconds in the 200-meter dash in last year's Mexico Olympics.

If Smith, Benson or Thomas come through, that could be a big boost to the quartet of passers in the Bengals' camp. And it could start Cincinnati on the road to becoming the passing team Brown figures he needs to be a winner.

Pickaway Defeats Stoutsville In Tri County Minor Tilt

Tim Fouch's run-scoring single in the bottom of the sixth inning provided the margin of victory as Pickaway DuPont stopped Stoutsville 7-6 Monday in Tri County Little League Minors.

Fouch added a double, David Palmer had a double and a single, Jeff Collins had two singles and winning pitcher Tony Crist collected two singles for Pickaway.

Stoutsville's hitting attack was paced by a triple by Holbrook Hartley and Foster added doubles.

Stoutsville's Kevin Kerns turned in an unassisted double play.

Local Merchants Win First Round Of Softball League

The Circleville Merchants topped Logan Elm Village Sunday 12-10 in a play-off for the first round title of the Slow Pitch League. Earlier in the afternoon, the Merchants downed DuPont A Shift, 18-4.

Jerry Collins led off the Logan Elm tilt with a homerun and the Merchants were never headed.

Bill Smith was three for four at the plate, Dave Justice, Don Rowland and Bob Caudill were each two for four at the plate and Norm McClelland was two for three.

Bob Caudill was the winning pitcher.

In the Merchants' win over DuPont, Roger Haughey was three for five at the plate with a homerun. Bob Weffler went four for four and Neil Kerns was three for four. Dave Justus cracked a homerun.

The Teays Valley Youth Baseball League will sponsor a games party Saturday at Ashville Community Park starting at 8:00 p.m.

Ohio House . .

(Continued from Page 1)

The measure broadens existing law to require security guards or special policemen hired by colleges, universities and private businesses to complete the training program within one year of appointment.

One of the opponents of the bill, Rep. Gordon M. Scherer, R-71 Cincinnati, called it "ridiculous and silly" noting that it would cover persons hired for only a few hours a day at such places as summer amusement parks.

Rep. Walter White, R-6 Lima, the bill's sponsor, said the need for such a bill was indicated by a recent incident at Witteberg University when a student was shot to death by a campus policeman.

The House killed a Senate-passed bill to give library boards power to take over private property.

The measure stemmed from a controversy over efforts by the Warren Public Library Board to take over land owned by Fred Wood as a site for an addition.

The Senate passed 25-0 legislation to expand the present tax exemption on property owned by charitable and educational organizations and government.

Purpose of the bill is to provide tax relief for a performing arts center in Canton. The arts center is rented and those using it cannot receive a tax exemption. The bill would exempt property leased for purposes which otherwise would qualify it for an exemption.

Another bill passed by the Senate would authorize the city of Athens to acquire 49 acres of land now being used as an airport by Ohio University.

Since the university is building a new airport, it will turn over the land to the city in exchange for four acres of land located on three sides of the university.

Sen. Marigene Valiquette, D-11 Toledo, and 27 cosponsors introduced a bill to create an Ohio commission on the status of women.

western Ave., injured her left hand.

Ruth Ann Donaldson, Ashville, sustained multiple abrasions and contusions in an automobile accident.

Vicki Bowers, 13, daughter of Mr. and Mrs. Gerald Bowers, 443 E. Main St., lacerated her right knee on glass.

Minnie Lear, Route 4, lacerated two fingers of her left hand.

Gregory Cline, 3, son of Mr. and Mrs. James Cline, 208 N. Scioto St., was treated for first and second degree burns of his face, chest and left arm.

Blaine Elkins, 7, son of Mr. and Mrs. Robert Elkins, Route 2, Laurelville, fractured his left wrist when he fell from a tree.

Audrey Walisa, 11 months, daughter of Mr. and Mrs. Raymond Walisa, Route 1, received abrasions when an auto rolled into her.

James Singleton, 38, Route 1, was treated for injuries of his great toe when a horse stepped on it.

Glenn Hastings, 2, son of Mrs. M. C. Hastings, New Holland, received burns from hot gravy.

Mrs. Sandy Dunn, Route 1, Frankfort, lacerated a finger at work.

Treated in the emergency room on Monday were 22 persons with 12 for medical purposes, one automobile accident and nine non-vehicle accidents.

New Citizens

MISS BOWMAN

Mr. and Mrs. Victor Bowman (Juanita Rose), Ashville, are the parents of a 6-pound 6-ounce daughter born 1:34 a.m. Tuesday in Berger Hospital.

Juliet Prowse Home Hit By Burglars

BEVERLY HILLS, Calif. (AP) — Juliet Prowse returned home and found that over the weekend burglars had taken a diamond and ruby bracelet, diamond rings and several watches valued at more than \$50,000. The red-haired dancer was philosophical, however.

"They didn't get the really precious things—my animals," she said Monday. She has a kitten and a dog with three puppies.

Miss Prowse had been visiting her husband, Eddie James, a choreographer working in Las Vegas.

Pickaway Child Welfare Group Home Explained

The purpose of the newly acquired Pickaway County Child Welfare Agency Group Home on E. Main St. was explained to Pickaway Community Services Council members at the monthly luncheon Tuesday at Pickaway Arms.

Sylvia Johnson, executive secretary of Child Welfare Board, told of the agency's plans for the home and pointed out that the group home is a

"placement of choice", not a substitute for institutional or foster family care, but rather an additional resource.

According to Mrs. Johnson, the group home is a treatment facility particularly well suited for an adolescent who can function somewhat independently and yet needs

opportunity to develop self-reliance and to master life's tasks.

The high school girls who will live in the home are not delinquent but all have experienced the tragedy of family disfunctioning, according to Mrs. Johnson. They will have individual and group therapy

provided by child welfare caseworkers. A housemother, part-time assistant housemother and a student assistant will have direct care responsibilities. Tutoring services are offered by volunteers from the community.

Mrs. Johnson stressed the importance of involving children

in the mainstream of community life and the importance of involving the community in the program.

Pickaway Community Services Council is made up of 27 of the community's social

service agencies and organizations. The purpose of the council is to be informed of the functions of each organization so that they may serve one another and better serve the community.

16 The Circleville Herald, Tues. July 15, 1969
Circleville, Ohio

Annual Bus Inspection Set By OSP

Preparation for annual school bus inspection in Pickaway County is beginning now to insure that every bus will have been thoroughly examined in time for class resumption in September.

"All public, parochial, private, and institutional school buses in our general area will be inspected to determine if they meet the required safety standards established by the Ohio State Department of Education," Sgt. J. W. Pribble, Circleville post commander, said.

Every bus that passes inspection must be labeled with a decal which is issued by the inspecting patrolmen.

These officers have been specially trained for this duty. Over 130 patrolmen attended training sessions in preparation for the more than 14,000 school buses they will examine.

"This year, local school officials are required to conduct pre-inspections of their buses prior to submitting them to the Patrol inspection site," Sgt. Pribble said. "This requirement should reduce the number of re-inspections, which last year exceeded 6,000."

Sgt. Pribble listed the following school districts which are slated for inspection at the designated time and place:

Teays Valley, July 22; Westfall, July 23; Logan Elm, July 24; Circleville, July 25.

"Immediate mechanical corrections will be permitted at the time of inspection," Sgt. Pribble said. "In cases of major repairs, an appointment for a reinspection must be made."
